Women And Revolution Global Expressions:

Women and Revolution Marie Josephine Diamond, 2013-06-29 Taking its starting point from women's contributions to the French revolution this important anthology goes far beyond any particular historical European or American context and expands its scope in space and time to an all inclusive global theme namely the contributions of radical women towards an ever changing world and its revolutionary transformations everywhere The superbly edited essays by diverse contributors from various continents and disciplines explore a wide platform of women's revolutionary involvements and elucidate the broad range of contributions by women scholars scientists and activists to movements of social transformation as well as to a reexamination of established methods of cultural analysis from enlightened liberalism to Marxism The contributions of women scholars and activists from Africa Asia and Latin America are particularly significant in that they transcend and expand European North American feminism as relevant primarily to its own socio cultural context and focus on women acting in terms of their own non Western traditions and cultures that is on non Western models based on indigenous strategies of social transformation This rich anthology shuns any postulation of a single global model for revolution Yet despite the emergence of a problematic relationship between Western or Western educated theorists and the causes of the oppressed women's diverse social cultural and historical experiences and strategies are united in this edition as in their common causes as emphasized by the following statement in the introduction the female body has become a privileged site for social analysis in the context of international capitalism as well as in the critique of traditional socialism Sabine Jell Bahlsen Ogbuide Films

Women and Revolution covers an enormous socio historical space four continents Europe Africa Asia and Latin America and quite a few countries within them This huge field of human experience is looked at from the focal point which runs explicitly and implicitly through all nineteen chapters the active if not revolutionary role women have played individually and collectively in various determining social situations a role regularly suppressed by the coercive power of institutionalized domination The impetus for this endeavor was the commemoration of the bicentennial of the French Revolution an occasion to take an in depth look at its less obvious agendas through a focus on the activity of women and on Olympe de Gouges in particular But as Olympe de Gouges became acquainted with Mr Guillotine the considerable role of women became suppressed not only actually but as a kind of *damnatio memoriae* which the old Romans had already invented As this work shows there have been multiple forms and contents through which women have taken history into their own hands and have participated in emancipatory struggles throughout the world They are at their best in their use of the resources of local village traditions of dense social contexts of mutual aid and in turning such grassroots resources into radical democratic struggles for the future A fascinating and timely book Wolf Dieter Narr Freie Universit t Berlin The vital role played by women in struggles for social transformation has scarcely been appreciated and with the sense of defeat that hangs over the revolutionary project stands to be further forgotten That is why the publication of Women and Revolution is both welcome

and necessary on intellectual and scholarly grounds but also because these are stories which have to be told if we are to resume the march toward a better world Joel Kovel Bard College

Women and Revolution M. J. Diamond, 1998-08-31
 Nineteen contributions by scholars in a variety of fields history anthropology sociology comparative literature women s studies discuss the activities of radical women involved with revolutionary transformations throughout the world Arrangement is in sections on western paradigms France Russia the US village traditions modern situations Africa Iran and India socialist transformation in Latin America and Cuba and women in China from Mao to market reforms A sampling of specific topics Olympe de Gouges and the French Revolution the construction of gender as critique medicine and politics Dr Mary Putnam Jacobi and the Paris commune women and the Russian revolution black women freedom fighters in South Africa and in the US a comparative analysis gender sexuality and unruliness in post Mao China Annotation copyrighted by Book News Inc Portland OR

Global Feminisms Since 1945 Bonnie G. Smith, 2000 This is an innovative introduction to the issues of contemporary feminism with a truly global perspective It analyses the roots development and in some cases the conclusions of feminisms and how they have interacted

Anatomies of Revolution George Lawson, 2019-07-25 Recent years have seen renewed interest in the study of revolution Spurred by events like the 2011 uprisings in North Africa and the Middle East the rise of Islamic State and the emergence of populism a new age of revolution has generated considerable interest Yet even as empirical studies of revolutions are thriving there has been a stall in theories of revolution Anatomies of Revolution offers a novel account of how revolutions begin unfold and end By combining insights from international relations sociology and global history it outlines the benefits of a global historical sociology of revolutionary change one in which international processes take centre stage Featuring a wide range of cases from across modern world history this is a comprehensive account of one of the world s most important processes It will interest students and scholars studying revolutions political conflict and contentious politics in sociology politics and international relations

Desired States Lessie Jo Frazier, 2020-06-12 Desiring the working class a Spanish feminist a bishop an oligarchic state and worker sexuality circa 1913 Desiring the patriarchal state through military discipline in Cold War prison camps 1947 and 1973 Sex and the new man in socialist revolution ideologies and practices circa 1973 Gendered erotics in the space of death from military dictatorship to civilian market state circa 1999 Conclusion and epilogue the desire to govern and the governing of desire

The Sacrificed Body Tatjana Aleksic, 2013-10-28 Living in one of the world s most volatile regions the people of the Balkans have witnessed unrelenting political economic and social upheaval In response many have looked to building communities both psychologically and materially as a means of survival in the wake of crumbling governments and states The foundational structures of these communities often center on the concept of individual sacrifice for the good of the whole Many communities however are hijacked by restrictive ideologies turning them into a model of intolerance and exclusion In The Sacrificed Body Tatjana Aleksic examines the widespread use of the sacrificial metaphor in cultural texts and its

importance to sustaining communal ideologies in the Balkan region Aleksic further relates the theme to the sanctioning of ethnic cleansing rape and murder in the name of homogeneity and collective identity Aleksic begins her study with the theme of the immurement of a live female body in the foundation of an important architectural structure a trope she finds in texts from all over the Balkans The male builders performing the sacrificial act have been called by a higher power who will ensure the durability of the structure and hence the patriarchal community as a whole In numerous examples ranging from literature to film and performance art Aleksic views the theme of sacrifice and its relation to exclusion based on gender race class sexuality religion or politics for the sake of community building According to Aleksic the sacrifice narrative becomes most prevalent during times of crisis brought on by wars weak governments foreign threats or even globalizing tendencies Because crisis justifies the very existence of restrictive communities communalist ideology thrives on its perpetuation They exist in a symbiotic relationship Aleksic also acknowledges the emancipatory potential of a genuine community after it has shaken off its ideological character Aleksic employs cultural theory sociological analysis and human rights studies to expose a historical narrative that is predominant regionally if not globally As she determines in an era of both Western and non Western neoliberalism elitist hegemony will continue to both threaten and bolster communities along with their segregationist tactics

Black African Literature in English, 1997-1999 Bernth Lindfors, 2003 This volume lists the work produced on anglophone black African literature between 1997 and 1999 This bibliographic work is a continuation of the highly acclaimed earlier volumes compiled by Bernth Lindfors Containing about 10 000 entries some of which are annotated to identify the authors discussed it covers books periodical articles papers in edited collections and selective coverage of other relevant sources

Africanizing the School Curriculum Anthony Afful-Broni, Jophus Anamuah-Mensah, Kolawole Raheem, George J. Sefa Dei, 2020-12-29 Connecting cultures to educational settings is an essential component of critical pedagogy This book addresses many of the key issues and challenges in decolonizing the African school curriculum It highlights important philosophical arguments on the challenges and possibilities of achieving these goals in a meaningful manner Topics covered in the book include operationalizing the key terms of inclusion and curriculum strategies for Africanizing the school curriculum and the implications of local knowledge for schooling reform This book also raises a variety of key questions how do we frame an inclusive anti colonial African future and what is the nature of the work required to collectively arrive at that future what education are learners of today going to receive and how will they apply it to their schooling and work lives how do we re fashion our work as African educators and learners to create more relevant understandings of what it means to be human how do we challenge colonizing and imperializing relations of the academy What are the possibilities and limits of counter visions of education how do we make school curricula inclusive through teaching research and graduate training in questions of Indigeneity and multi centric ways of knowing The book identifies specific areas of an inclusive decolonized curriculum agenda through educational programming and reform It is essential

reading to any student or teacher concerned about understanding the many facets of an African school curriculum Perfect for courses such as Principles of Anti Racism Education Anti Colonial Thought Pedagogical Implications Indigenous Knowledge and Decolonization Pedagogical Implications Modernization Development and Education in African Contexts African Systems of Thought Introduction to African Studies **The Emergent African Union Law** Olufemi Amao, Michèle

Olivier, Konstantinos D. Magliveras, 2021-10-07 This book is a groundbreaking study of the emergence of a unique African Union legal system with contributions from a diverse collection of scholars and practitioners It highlights how law stands at the heart of the successful regional integration effort in Africa and explores among other issues the extent to which African Union law is having an impact on domestic laws This trend has been particularly noticeable in the area of human rights the rule of law democratic principles and aspects of constitutional law Furthermore the book examines how the African Union is engendering new norms from its legal order such as the non indifference norm the norm on unconstitutional change of government free trade free movement of people economic regulation and democratic constitutionalism The book also analyses how the African Union legal order has led to the emergence of a continental level judicial system The quasi judicial system put in place under the African Charter on Human and Peoples Rights and administered by the African Commission on Human and Peoples Rights is now complemented by the African Court on Human and Peoples Rights This book contends that the continental level judicial system is playing a crucial role in the moulding of emergent norms **The Illegals** Shaun

Walker, 2025-04-15 The definitive history of Russia's most secret spy program from the earliest days of the Soviet Union to Putin's invasion of Ukraine and a revelatory examination of how that hidden history shaped both Russia and the West More than a century ago the new Bolshevik government began sending Soviet citizens abroad as deep cover spies training them to pose as foreign aristocrats merchants and students Over time this grew into the most ambitious espionage program in history Many intelligence agencies use undercover operatives but the KGB was the only one to go to such lengths spending years training its spies in language and etiquette and sending them abroad on missions that could last for decades These spies were known as illegals During the Second World War illegals were dispatched behind enemy lines to assassinate high ranking Nazis Later in the Cold War they were sent to assimilate and lie low as sleepers in the West The greatest among them performed remarkable feats while many others failed in their missions or cracked under the strain of living a double life Drawing on hundreds of hours of interviews as well as archival research in more than a dozen countries Shaun Walker brings this history to life in a page turning tour de force that takes us into the heart of the KGB's most secretive program A riveting spy drama peopled with richly drawn characters The Illegals also uncovers a hidden thread in the story of Russia itself As Putin extols Soviet achievements and the KGB's espionage prowess and Moscow continues to infiltrate illegals across the globe this timely narrative shines new light on the long arc of the Soviet experiment its messy aftermath and its influence on our world at large
