Theoretical Methodological Developments Processability Acquisition:

Theoretical and Methodological Developments in Processability Theory Kristof Baten, Aafke Buyl, Katja Lochtmann, Mieke Van Herreweghe, 2015-12-15 This edited volume is devoted to expanding the theoretical basis of Processability Theory a theory of second language development that combines insights in the way speakers generate language and store their language knowledge to predict describe and explain developmental sequences Pienemann 1998 2005 The aim of the book is to provide a forum for new perspectives focusing on three intersections 1 the interface between morpho syntax and discourse pragmatics semantics 2 constraints on processing and receptive processing and 3 developments in instructed second language learning Each part also includes a response paper in which the new perspectives in terms of the theoretical challenges and or the empirical results of the preceding chapters are discussed This collection of articles and response papers will be very relevant to students and researchers interested in theoretical aspects of second language acquisition and more specifically Processability Theory and clearly indicates that the field is lively and open

Widening Contexts for Processability Theory Anke Lenzen, Howard Nicholas, Jana Roos, 2019-11-15 This book explores relationships between Processability Theory approaches and other approaches to SLA It is distinctive in two ways It offers PT insiders a way to see connections between their familiar traditions and theories with other ways of working Parallel to this it offers readers who work in other traditions ways of connecting with a research tradition that makes specific testable claims about second language acquisition processes These dual perspectives mean that both beginning and established SLA researchers as well as those seeking to connect their work with views of language learning will find something of interest Studies of multiple languages and multiple aspects of language are included Chapters cover areas as diverse as literacy language comprehension language attrition and language testing

Processability and Language Acquisition in the Asia-Pacific Region Satomi Kawaguchi, Bruno Di Biase, Yumiko Yamaguchi, 2023-02-02 This PALART volume makes an original addition to the Series as it opens a stimulating window on the Asia Pacific region of the world by bringing together a great deal of empirical and theoretical new work in Second Language Acquisition within the Processability Theory PT framework Readers will be pleasantly surprised to be able to access within one publication so much novel and overview information on SLA while maintaining its focus on PT its theoretical developments including its 2005 Pienemann et al and 2015 Bettoni Di Biase extensions and how they relate to PT's foundation work Pienemann 1998 as well as its applications to language learning and teaching in Japanese Chinese Hindi Malay and English in countries of the Asia Pacific region including Australia This volume demonstrates the vitality and the dynamic nature of PT and its potential as a tool for understanding SLA both theory and practice

Theories in Second Language Acquisition Bill VanPatten, Gregory D. Keating, Stefanie Wulff, 2025-07-03 This fourth edition of the best selling Theories in Second Language Acquisition surveys the major theories and frameworks currently used in second language acquisition SLA research serving as an ideal introductory text for

graduate students in SLA and language teaching Designed to provide a consistent and coherent presentation for those seeking a basic understanding of the theories and frameworks that underlie contemporary SLA research each chapter focuses on a single theory Chapters are written by leading scholars in the field and incorporate a basic foundational description of the theory relevant data or research models used with this theory common misunderstandings and a sample study from the field to show the theory in practice New to this fully revised edition is the incorporation of a new theoretical framework to replace several lesser used theories A key work in the study of second language acquisition this volume will be useful to students of linguistics language and language teaching and to researchers as a guide to theoretical work outside their respective domains

Language Processing and Second Language Development Manfred Pienemann, 1998-01-01 Aims to provide a systematic perspective on some central psychological mechanisms underlying the spontaneous production of interlanguage IL speech The text develops a framework that represents a theory of processability of grammatical structures referred to as Processability Theory

The Routledge Handbook of Second Language Acquisition Susan M. Gass, Alison Mackey, 2013-06-17 This handbook brings together 50 leading international figures in the field to produce a state of the art overview of second language acquisition

Teachability and Learnability across Languages Ragnar Arntzen, Gisela Håkansson, Arnstein Hjelde, Jörg-U. Keßler, 2019-06-15 Teachability and Learnability across Languages addresses key issues in second foreign and heritage language acquisition as well as in language teaching Focusing on a Processability Theory perspective it brings together empirical studies of language acquisition language teaching and language assessment For the first time a research timeline for the role of instruction in language learning is presented showing how the field of second language acquisition SLA research has developed over the last four decades since Pienemann's work on learnability and syllabus construction over the 1980s The book includes studies of child and adult second as well as foreign language acquisition research covering a wide range of target languages including English German Hungarian Japanese Norwegian Polish Spanish Swedish and Turkish In addition future extensions of PT are discussed This volume is designed for advanced students in international programs of SLA and Applied Linguistics as well as for SLA researchers and second and foreign language teachers

Research in Second Language Acquisition Dagmar Keatinge, Jörg-U. Keßler, 2009-05-05 Research in Second Language Acquisition Empirical Evidence Across Languages provides an overview of current research within the Processability Theory framework Pienemann 1998 2005 The articles in this volume combine a more theoretical approach in order to further extend the theory and studies utilizing PT to further investigate bilingual language acquisition and language development in natural and institutional settings Taking these different aspects into consideration this volume is organised in two parts Part 1 Second Language Processing Contributions to Theory Development contains a number of papers discussing the inclusion of further theoretical aspects into PT focusing on English as a second language In Part 2 Second Language Grammars across Languages PT is applied to a number of typologically different languages and contexts

Processability

Approaches to Second Language Development and Second Language Learning Jörg-U. Keßler, 2009-03-26 A

fundamental issue in second language acquisition research and in applied linguistics is the question of how learners acquire a second language Today it is general knowledge that any second language learning follows certain theoretically established and empirically supported developmental sequences Based on Processability Theory Pienemann 1998 and 2005 one can diagnose current states of individual learners second language development Knowing about the path of second language development provides important insights into what learners are ready to acquire in the second language at a given point in time This can support second language learning both in natural and instructional settings Pienemann's Processability Theory PT provides a well researched and empirically substantiated framework to explain the developmental sequences in second language learning across languages Taking Pienemann 1998 and 2005 as the point of departure the chapters of this book apply test and extend PT The book is organised in four parts I Introduction II Current Theoretical Issues within the PT Framework III Applying PT to the Second Language Classroom and IV Work in Progress within the PT Framework

Grammatical development in second languages. Exploring the boundaries of Processability Theory Camilla Bettoni, Bruno Di Biase, 2015-08-07 Processability Theory is Manfred Pienemann's highly cited psycholinguistic theory of Second Language Acquisition offering a transitional paradigm that accounts specifically for the development of grammar This volume expands on PT's explicit falsifiable and universal definition of developmental stages and proposes a fresh interpretation of earlier achievements b explicit treatment of the development of syntax and its interface with discourse pragmatic motivations and c numerous pointers for future studies Part I of the volume introduces the editors new approach to the theory In part II it offers a finer grained staging of L2 development with reference to three typologically different languages English Italian and Japanese Part III explores languages Russian Serbian issues Spanish differential object marking German V2 in declaratives vs questions populations L2 in autistic learners and applications L2 teaching through CALL not previously treated in PT
