

WATER WITHOUT BORDERS?

Canada, the United States, and Shared Waters

Edited by Emma S. Norman, Alice Cohen, and Karen Bakker

Water Without Borders Canada The United States And Shared Waters

Jon Marco Church

Water Without Borders Canada The United States And Shared Waters:

Water Without Borders? Emma S. Norman, Alice Cohen, Karen Bakker, 2013-01-01 *Water without Borders* is designed to help readers develop a balanced understanding of the most pressing shared water issues between Canada and the United States

Ecoregionalism Jon Marco Church, 2020-05-25 This book provides a comprehensive understanding of environmental regionalism at the international level analyzing the concept and identifying recurring patterns from six in depth case studies While ecoregions or environmental regions are defined on ecological boundaries rather than administrative criteria ecoregionalism is the idea that regional dynamics should cluster around ecoregions while ecoregionalization is the tendency of regional dynamics to cluster around ecoregions Focusing on the international level this book presents six cases of ecoregional processes from around the world and the regional environmental agreements two are terrestrial the Alps and the Andes two are marine the Mediterranean Sea and the Baltic Sea two are related to freshwater ecosystems the Amu Darya in Central Asia and the Great Lakes in North America The book analyzes both ecoregional processes focused on the environment as well as intersectoral ecoregional processes The case studies are analyzed based on the ecoregional governance framework developed by the author for this book Despite the diversity of context the similarity of the governance system of the six cases is striking Several recurring patterns have been identified which may also extend to the subnational level They are not design principles but may be taken into consideration for the design or redesign of current and future regional environmental agreements and processes This book will be of great interest to students and scholars of environmental politics natural resource management spatial planning and international relations

Governing Transboundary Waters Emma S. Norman, 2014-11-27 Winner of the Political Geography Specialty Group's 2015 Julian Minghi Distinguished Book Award With almost the entire world's water basins crossing political borders of some kind understanding how to cooperate with one's neighbor is of global relevance For Indigenous communities whose traditional homelands may predate and challenge the current borders and whose relationship to water sources are linked to the protection of traditional lifeways or ways of life transboundary water governance is deeply political This book explores the nuances of transboundary water governance through an in depth examination of the Canada US border with an emphasis on the leadership of Indigenous actors First Nations and Native Americans The inclusion of this third sovereign in the discussion of Canada U S relations provides an important avenue to challenge borders as fixed both in terms of natural resource governance and citizenship and highlights the role of non state actors in charting new territory in water governance The volume widens the conversation to provide a rich analysis of the cultural politics of transboundary water governance In this context the book explores the issue of what makes a good upstream neighbor and analyzes the rescaling of transboundary water governance Through narrative the book explores how these governance mechanisms are linked to wider issues of environmental justice decolonization and self determination To highlight the changing patterns of water governance it focuses on six case studies

that grapple with transboundary water issues at different scales and with different constructions of border politics from the Pacific coastline to the Great Lakes **Three Plays of Maureen Hunter** Hunter, Maureen, 2003 Book is clean and tight No writing in text Like New **The Canadian Environment in Political Context, Second Edition** Andrea Olive, 2019-08-20 The Canadian Environment in Political Context uses a non technical approach to introduce environmental politics to undergraduate readers The second edition features expanded chapters on wildlife water pollution land and energy Beginning with a brief synopsis of environmental quality across Canada the text moves on to examine political institutions and policymaking the history of environmentalism in Canada and other crucial issues including Indigenous peoples and the environment as well as Canada s North Enhanced with case studies key words and a comprehensive glossary Olive s book addresses the major environmental concerns and challenges that Canada faces in the twenty first century Leaky Governance Kathryn Furlong, 2016-01-15 Municipalities around the world face important water supply challenges One response has been alternative service delivery ASD For its proponents ASD is a way to have independence from municipal government without relinquishing control over the utility for its detractors it is privatization under another name Yet the organizational barriers offered by ASD are at best leaky Deeply interdependent both water management and municipal governance must be strengthened to meet contemporary water supply needs Leaky Governance explores ASD s relation to neoliberalization water supply and local governance Using Ontario as a case study Kathryn Furlong paints a complex picture of both ASD and municipal government She examines organizational models for water supply and how they are affected by shifting governance and institutional environments Leaky Governance addresses increasingly pressing environmental political and social issues surrounding water supply and their relationship to urban governance and economics as well as to broader issues in public policy Transboundary Environmental Governance across the World's Longest Border Stephen Brooks, Andrea Olive, 2018-07-01 Canada and the United States share a border that spans several of the world s major watersheds and encompasses the largest reserves of fresh water on the planet The border that separates these two neighbors is political but the natural environment is a matter of common concern In recent years dramatic changes have taken place in the political and environmental landscapes that shape the conversations possibilities and processes associated with the management of this shared interest More than ever Indigenous populations are recognized to be a necessary part of negotiations and decision making regarding matters ranging from pipelines to the protection of endangered species habitats Globalization and in particular the continuing elaboration of a transnational conversation and architecture for addressing issues related to climate change have ramifications for Canada US transboundary issues The contributors to this volume examine the state of the existing transboundary relationship between Canada and the United States including the governance structures and processes the environmental impacts and adequacy of these structures and processes and the opportunities and obstacles that exist for reform and improved outcomes **Green-lite** G. Bruce Doern, Graeme

Auld, Christopher Stoney, 2015-10-30 An in depth study of Canadian environmental policy **Research Handbook on Flood Risk Management** Jessica Lamond, David Proverbs, Namrata Bhattacharya Mis, 2024-04-12 Pushing the boundaries of flood risk management research this comprehensive Research Handbook presents pragmatic insights into all areas relating to flood risk Through its use of dynamic and people centred paradigms it explores urban flood management within localities properties neighbourhoods and cities **World Scientific Handbook Of Transboundary Water Management: Science, Economics, Policy And Politics (In 4 Volumes)** , 2025-01-10 The impacts of population growth climate change and water scarcity and variability on a country s economy or society in addition to the sheer need to harness international rivers for domestic and regional purposes have made the management of transboundary freshwater a subject of great import Over the past several decades research in various disciplines utilizing a variety of methodologies has explored these issues focusing on freshwater s strategic importance as well as conflict cooperation and negotiation over shared water bodies rivers lakes aquifers This multi volume set seeks to contribute to this still burgeoning body of literature by focusing on several key themes that can help explain and recognize successes and failures in transboundary freshwater management In particular the set seeks to bring together original scholarship focusing on international law technology institutions formal and informal and the interplay of domestic and international affairs Each edited volume in the set aims to build on extant research while also fostering new paths of inquiry Overall the set seeks to become a guide for both academics and practitioners hoping to better understand the joint management of this precious natural resource from socio political legal economic and technological perspectives Volume 1 explores international law for shared freshwater resources both surface and subsurface waters from a multidisciplinary perspective It explains the role of international water law IWL and or specific norms within particular contexts case studies and critically examines that role and its relative success or failure in achieving the intended objectives Volume 2 explores the roles of and limitations of technologies and their applications in the management of transboundary water and wastewater It presents case studies and legal and political analyses that focus on the potential or actual roles and implications of the technologies in transboundary policy and management rather than detailed explications of the technologies themselves Volume 3 contributes to the growing literature seeking to understand how when and if institutions broadly defined impact states abilities to address their joint water disputes The volume presents a combination of single comparative and empirical analyses of cases across the world about the role of institutions in facilitating collaboration over transboundary water resources and mitigating conflict Volume 4 seeks to make sense of the interplay of domestic transnational and international dynamics in explaining conflict and cooperation over water through single or comparative case studies as well as analyses of on the ground transboundary water management experiences arising from these complex political dimensions
