Callicutt,2012-02-01 Moist soil wetlands are seasonally flooded areas that produce early succession plant communities of grasses sedges and other herbaceous plants Moist soil wetland plants provide food and cover for a diversity of wildlife species including waterfowl and other waterbirds Thus conservation and management of moist soil plants has become a major component of wildlife conservation efforts in the Mississippi Alluvial Valley and elsewhere in North America The authors combined their extensive experience working in managed and unmanaged wetlands from southern Missouri to southern Louisiana to produce this beautifully illustrated identification guide A detailed yet user friendly field guide to identify moist soil plants of the Mississippi Alluvial Valley has not been available until now Management to encourage the growth of moist soil plants is a common conservation strategy used by state federal and private landowners to increase food and cover for wildlife Thus landowners must be able to identify moist soil plants to meet their wildlife conservation goals Landowners scientists wildlife biologists and students alike will welcome this useful resource which includes 600 detailed color photographs of plants images of seeds and tubers and other helpful information to aid in identification The book includes subsections of major plant groups occurring in moist soil wetlands including aquatics grasses broadleaves sedges and rushes trees and shrubs vines and agricultural crops The North American Model of Wildlife Conservation Shane P. Mahoney,Valerius Geist,2019-09-10 The foremost experts on the North American Model of Wildlife Conservation come together to discuss its role in the rescue recovery and future of our wildlife resources At the end of the nineteenth century North America suffered a catastrophic loss of wildlife driven by unbridled resource extraction market hunting and unrelenting subsistence killing This crisis led powerful political forces in the United States and Canada to collaborate in the hopes of reversing the process not merely halting the extinctions but returning wildlife to abundance While there was great understanding of how to manage wildlife in Europe where wildlife management was an old mature profession Continental methods depended on social values often unacceptable to North Americans Even Canada a loyal colony of England abandoned wildlife management as practiced in the mother country and joined forces with like minded Americans to develop a revolutionary system of wildlife conservation In time and surviving the close scrutiny and hard ongoing debate of open democratic societies this series of conservation practices became known as the North American Model of Wildlife Conservation In this book editors Shane P Mahoney and Valerius Geist both leading authorities on the North American Model bring together their expert colleagues to provide a comprehensive overview of the origins achievements and shortcomings of this highly successful conservation approach This volume reviews the emergence of conservation in late nineteenth early twentieth century North America provides detailed explorations of the Model s institutions principles laws and policies places the Model within ecological cultural and socioeconomic contexts describes the many economic social and cultural benefits of

wildlife restoration and management addresses the Model s challenges and limitations while pointing to emerging opportunities for increasing inclusivity and optimizing implementation Studying the North American experience offers insight into how institutionalizing policies and laws while incentivizing citizen engagement can result in a resilient framework for conservation Written for wildlife professionals researchers and students this book explores the factors that helped fashion an enduring conservation system one that has not only rescued recovered and sustainably utilized wildlife for over a century but that has also advanced a significant economic driver and a greater scientific understanding of wildlife ecology Contributors Leonard A Brennan Rosie Cooney James L Cummins Kathryn Frens Valerius Geist James R Heffelfinger David G Hewitt Paul R Krausman Shane P Mahoney John F Organ James Peek William Porter John Sandlos James A Schaefer
