Women and Shakespeare in the Eighteenth Century Fiona Ritchie, 2014-07-03 Establishes the significance of actresses female playgoers and women critics in shaping Shakespeare's burgeoning reputation in the eighteenth century

Shakespeare and the Eighteenth-Century Novel Kate Rumbold, 2016-03-08 The eighteenth century has long been acknowledged as a pivotal period in Shakespeare's reception transforming a playwright requiring improvement into a national poet whose every word was sacred Scholars have examined the contribution of performances adaptations criticism and editing to this process of transformation but the crucial role of fiction remains overlooked *Shakespeare and the Eighteenth Century Novel* reveals for the first time the prevalence and the importance of fictional characters direct quotations from Shakespeare Quoting characters ascribe emotional and moral authority to Shakespeare redeploy his theatricality and mock banal uses of his words by shaping in this way what is considered valuable about Shakespeare the novel accrues new cultural authority of its own Shakespeare underwrites and is underwritten by the eighteenth century novel and this book reveals the lasting implications for both of their reputations

Women and the Art and Science of Collecting in Eighteenth-Century Europe Arlene Leis, Kacie L. Wills, 2020-08-31 Through both longer essays and shorter case studies this book examines the relationship of European women from various countries and backgrounds to collecting in order to explore the social practices and material and visual cultures of collecting in eighteenth century Europe It recovers their lives and examines their interests their methodologies and their collections and objects some of which have rarely been studied before The book also considers women's role as producers that is creators of objects that were collected Detailed examination of the artefacts both visually and in relation to their historical contexts exposes new ways of thinking about collecting in relation to the arts and sciences in eighteenth century Europe The book is interdisciplinary in its makeup and brings together scholars from a wide range of fields It will be of interest to those working in art history material and visual culture history of collecting history of science literary studies women's studies gender studies and art conservation

The Afterlife of Shakespeare's Sonnets Jane Kingsley-Smith, 2019-08-29 An original account of the reception and influence of Shakespeare's Sonnets in his own time and in later literary history

Eighteenth-Century Adaptations of Supernatural Shakespeare Silvia Spera, 2023-11-28 In the cultural and highly intellectual climate of the Age of Reason it comes as no surprise that the supernatural was under scrutiny However a complete denial of the persistence of beliefs in the supernatural world means neglecting a consistent part of the cultural and literary atmosphere of those years On this note this book investigates the fate of Shakespearean supernatural

dimensions in the widespread eighteenth century practice of making Shakespeare fit Taking examples from both the adapted and restored versions of Macbeth Hamlet and The Tempest by Davenant and Garrick the book highlights how the contemporary attitude towards the supernatural combined with the issue of the general relationship with Shakespeare at the time In particular it identifies and explores two main strategies which are employed to rationalize the supernatural dimensions of those plays either their omission or replacement or their aestheticization and spectacularization The former is nothing but a manifestation of contempt towards the supernatural which aims at exalting the rational the latter is the result of undercover fascination which transforms the supernatural into theatrical entertainment Shakespeare's Afterlife in the Royal Collection Sally Barnden, Gordon McMullan, Kate Retford, Kirsten Tambling, 2025-01-31 This unique collection of essays and images explores a series of objects in the Royal Collection as a means of assessing the interrelated histories of the British royal family and the Shakespearean afterlife across four centuries Between the beginning of the eighteenth century and the late twentieth Shakespeare became entrenched as the English national poet Over the same period the monarchy sought repeatedly to demonstrate its centrality to British nationhood By way of close analysis of a selection of objects from the Royal Collection this volume argues that the royal family and the Shakespearean afterlife were far more closely interwoven than has previously been realized The chapters map the mutual development over time of the relationship between members of the British royal family and Shakespeare demonstrating the extent to which each has gained sustained value from association with the other and showing how members of the royal family have individually and collectively constructed their identities and performed their roles by way of Shakespearean models Each chapter is inspired by an object in or formerly in the Royal Collection and explores two interconnected questions what has Shakespeare done for the royal family and what has the royal family done for Shakespeare The chapters range across the fields of art theatre history literary criticism literary history court studies and cultural history showing how the shared history of Shakespeare and the royal family has been cultivated across media and across disciplines Shakespeare in the Eighteenth Century Fiona Ritchie, Peter Sabor, 2012-04-19 This book examines Shakespeare's influence and popularity in all aspects of eighteenth century literature culture and society

Eighteenth-Century Women Poets and Their Poetry Paula R. Backscheider, 2005-12-31 Co Winner James Russell Lowell Prize Modern Language Association This major study offers a broad view of the writing and careers of eighteenth century women poets casting new light on the ways in which poetry was read and enjoyed on changing poetic tastes in British culture and on the development of many major poetic genres and traditions Rather than presenting a chronological survey Paula R Backscheider explores the forms in which women wrote and the uses to which they put those forms Considering more than forty women in relation to canonical male writers of the same era she concludes that women wrote in all of the genres that men did but often adapted revised and even created new poetic kinds from traditional forms Backscheider demonstrates that knowledge of these women's poetry is necessary for an accurate and nuanced literary

history Within chapters on important canonical and popular verse forms she gives particular attention to such topics as women's use of religious poetry to express candid ideas about patriarchy and rape the continuing evolution and important role of the supposedly antiquarian genre of the friendship poetry same sex desire in elegy by women as well as by men and the status of Charlotte Smith as a key figure of the long eighteenth century not only as a Romantic era poet
