Treating The Elderly:

Levothyroxine Therapy in Patients With Hypothyroidism Alessandro Antonelli, Paolo Miccoli, Leonard Wartofsky, 2021-09-28 *Geriatric Emergency Medicine, An Issue of Clinics in Geriatric Medicine, E-Book* Christopher R. Carpenter, 2013-02-28 This issue of Clinics in Geriatric Medicine features expert clinical reviews on Geriatric Emergency Medicine which includes current information on topics such as palliative medicine and emergency care alternative management strategies transitions of care the emergency department observation unit and the older patient generalized weakness altered mental status trauma management acute pain management acute visual changes orthopedic emergencies dizziness palpitations acute stroke syndromes abuse and neglect and electrolyte and endocrine emergencies Stroke - Management Pearls Amit Agrawal, 2023-11-02 Adequate stroke care access not only requires the availability of comprehensive healthcare facilities but also needs affordability and knowledge of the availability of these services Presentations of stroke syndromes depend on their location size and underlying comorbidities These lesions can have clinical features of increased intracranial pressure focal neurological deficits or seizures generalized or partial with rapid progression This book presents high quality research work on recent advances in the management of stroke

Comprehensive Handbook of Cognitive Therapy Hal Arkowitz, L.E. Beutler, Karen M. Simon, 2013-06-29 In reviewing the Contents of this Handbook edited by Freeman Simon Beutler and Arkowitz I am both impressed and gratified with the enormous strides made by cognitive behavior therapy since the late 1960s A perusal of the Contents reveals that it is used with adults children couples and families it is clinically appropriate for such problems as anxiety depression sexual dysfunctions and addictions and it is employed in conjunction with psychopharmacological and other psychotherapeutic interventions It was in the mid 1960s when Breger and McGaugh published an article in the Psychological Bulletin taking behavior therapists to task for using only classical and operant principles in devising their therapeutic interventions Breger and McGaugh argued that the field of learning was undergoing a major revolution paying considerably more attention to cognitive processes than had previously been the case In short they criticized the growing behavioral orientation for being limited in its exclusively peripheralistic orientation At the time behavior therapists were initially somewhat resistant to any allusion to cognitive metaphors Indeed my own initial reactions to the Breger and McGaugh article was quite negative Yet in rereading their critique many of their suggestions now seem most appealing No doubt I and my behavior colleagues lacked the appropriate cognitive set for incorporating such contradictory information Nonetheless the clinical evidence for the relevance of cognitive factors in the behavior change process was simply too compelling to ignore **Addictions Treatment for Older Adults** Kathryn Graham, Sarah J Saunders, Margaret C Flower, Carol B Timney, Marilyn White-Campbell, Anne Zeidman, 2014-06-23 Here is a detailed description of an innovative approach for treating elderly persons who have alcohol or drug problems During the past few years there has been growing recognition of the special needs of these individuals

Addictions Treatment for Older Adults describes the evaluation of the Community Older Persons Alcohol COPA Program This book helps readers understand the nature of substance abuse among the elderly as well as how to identify and intervene with older persons who have alcohol and drug problems including persons who are reluctant to seek treatment Addictions Treatment for Older Adults explains the development of the COPA program and how it works Many case studies and tables provide illuminating details for readers who work with this elderly population Chapters examine characteristics of elderly persons with alcohol or drug problems the typology of COPA clients and their problem areas treatment interventions variables associated with improvement analysis of progress made by clients during and after treatment the factors that seem to predict recovery The in depth descriptions in this book provide much needed information and guidance for professionals striving to meet the treatment and care needs of elderly substance abusers Addictions Treatment for Older Adults should be read by researchers in the substance abuse field and by persons who work with the elderly such as community nurses social workers and physicians In this book they will find the best description to date of the nature of alcohol and drug problems among elderly who live in their communities *Resolving Catastrophic Health Problems in the Medicare Program* United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Government Efficiency, Federalism, and the District of Columbia, 1988 **Clinical Gerontology** T.L. Brink, 2014-04-04 Here is a major text in psychogeriatrics for all professionals in the field of aging and mental health Leading authorities provide valuable insights into assessment and intervention techniques for use with the mentally impaired elderly Topics include a depression scale for use in later life family therapy therapy in later life and various issues concerning mental health care for the aged *Hearing before the United States Commission on Civil Rights* United States Commission on Civil Rights, 1977 [Aging and Heart Failure](#) Bodh I. Jugdutt, 2014-02-19 This book synthesizes the major research advances in molecular biochemical and translational aspects of aging and heart failure over the last four decades and addresses future directions in management and drug discovery It presents clinical issues and molecular mechanisms related to heart failure including the changing demographics in the aging population with heart failure hypertension and prevention of diastolic heart failure in the aging population polypharmacy and adverse drug reactions in the aging population with heart failure changes in the heart that accompany advancing age from humans to molecules aging associated alterations in myocardial inflammation and fibrosis and aging related changes in mitochondrial function and implications for heart failure therapy The book succinctly summarizes the large volume of data on these key topics and highlights novel pathways that need to be explored Featuring contributions from leading clinician scientists *Aging and Heart Failure Mechanisms and Management* is an authoritative resource on the major clinical issues in heart failure therapy in the elderly for cardiologists gerontologists and internists [Handbook on the Neuropsychology of Aging and Dementia](#) Lisa D. Ravdin, Heather L. Katzen, 2012-09-14 With the aging of the baby boomers and medical advances that promote longevity older adults are rapidly becoming the fastest growing segment of the population As the population

ages so does the incidence of age related disorders Many predict that 15% 20% of the baby boomer generation will develop some form of cognitive decline over the course of their lifetime with estimates escalating to up to 50% in those achieving advanced age Although much attention has been directed at Alzheimer s disease the most common form of dementia it is estimated that nearly one third of those cases of cognitive decline result from other neuropathological mechanisms In fact many patients diagnosed with Alzheimer s disease likely have co morbid disorders that can also influence cognition i e vascular cognitive impairment suggesting mixed dementias are grossly under diagnosed The Clinical Handbook on the Neuropsychology of Aging and Dementia is a unique work that provides clinicians with expert guidance and a hands on approach to neuropsychological practice with older adults The book will be divided into two sections the first addressing special considerations for the evaluation of older adults and the second half focusing on common referral questions likely to be encountered when working with this age group The authors of the chapters are experts and are recognized by their peers as opinion leaders in their chosen chapter topics The field of neuropsychology has played a critical role in developing methods for early identification of late life cognitive disorders as well as the differential diagnosis of dementia Neuropsychological assessment provides valuable clinical information regarding the nature and severity of cognitive symptoms associated with dementia Each chapter will reinforce the notion that neuropsychological measures provide the clinician with sensitive tools to differentiate normal age related cognitive decline from disease associated impairment aid in differential diagnosis of cognitive dysfunction in older adults as well as identify cognitive deficits most likely to translate into functional impairments in everyday life
