You Are In Bear Country:

You Are in Bear Country!! Bea W. Meyer, 2014-02-07 In an account of the author's involuntary and highly entertaining encounters with the wildlife in her backyard she lets the reader in on the funny characters of the wild. Comical situations dominate the stories Bea W. Meyer tells about squirrels, skunks, raccoons, otters, cougars, and bears coming for a visit or a quick walk through of her backyard in a rural area of the Canadian West Coast. Living in bear country to her means a privilege. Her funniest encounters with furry and fuzzy critters of the wild are being told in this book. **Getting Along in Bear Country**, 1985

Backpacker Magazine's Bear Country Behavior Bill Schneider, 2012-02-21 Backpacker magazine's Bear Country Behavior informs readers about how to hike and backpack safely in grizzly bear and black bear country throughout the United States. Topics covered include hiking and camping in bear country, food storage, special considerations. **Safe Travel in Bear Country** Gary Brown, 1996 What should you do when you encounter a bear? Should you run? Climb the nearest tree? Isn't it best to know the right answer before your life depends on it? Now there is one source to turn to for the correct answer to these questions and hundreds of others. **SAFE TRAVEL IN BEAR COUNTRY** In Bear Country Jake Macdonald, 2011-04-12 They terrify and fascinate us. They are moving closer to us as climate change, deforestation, and rural development diminish their habitats. Once considered rare, romantic creatures, bears are now as common in some places as raccoons. Some say we should leave them alone; others argue that responsible hunting will serve both bears and humans best. Weighing both sides of the argument, award-winning writer Jake MacDonald examines the history and behavior of the three species of bears in North America: grizzlies, black bears, and polar bears. Part memoir and part natural history, *In Bear Country* draws on the personal experiences of MacDonald and others, providing an absorbing story about the place bears occupy in our world and the place we occupy in theirs. As MacDonald skillfully weaves a compelling meditation on our continent's largest predators, he delivers a profound and powerful message for all to consider as bear country quickly shrinks and our worlds collide. *Backcountry Bear Basics* Dave Smith, 2006 Practical strategies for avoiding dangerous bear encounters. Debunks commonly held myths about people and bears. Provides tested strategies to help you avoid conflict with black bears and grizzlies. Bear expert Dave Smith gives you the basics like how to choose a good campsite and properly store your food so that you don't have to worry whether that pepper spray you brought will work on the bear that wanders into camp. He debunks commonly held myths about people and bears. For instance, menstruating women don't have to stay out of bear country, he says. And no, don't roll up in a ball when faced with a charging bear. So much of conventional wisdom about bears is often just plain bad advice. Smith tells you what you should do instead and why. He also reviews specific outdoor activities from fishing to mountain biking to hiking with young children to trail running, assessing the likelihood of bear encounters and suggesting tactics for coping in different settings and situations. This second edition incorporates new research. Do bear bells work? Does tent color or shape make a difference in attracting bears? and adds more charts and
