Liu, Shelley Liu, 2024 Governing after War examines how civilians and rebels wartime relations affect post war state building development and violence When rebels win the war how do they govern afterwards Drawing from multiple cases in Africa Shelley Liu argues that wartime rebel civilian ties are important to answer this question Her findings offer implications for recent rebel victories and more broadly for understanding the termination trajectories and political legacies of such conflicts around the world **Migration, Cross-Border Trade and Development in Africa** Christopher Changwe Nshimbi, Inocent Moyo, 2017-10-12 Based on migration dynamics in the Southern African Development Community SADC region this edited volume focuses on the activities of grassroots and informal non state actors The authors explore cross border economic activities migration governance issues the regional integration project of the SADC and implications for sustainable development in Africa
