Zombies A Cultural History:

Zombies Roger Luckhurst, 2015-09-15 Add a gurgling moan with the sound of dragging feet and a smell of decay and what do you get Better not find out The zombie has roamed with dead eyed menace from its beginnings in obscure folklore and superstition to global status today the star of films such as 28 Days Later World War Z and the outrageously successful comic book TV series and video game The Walking Dead In this brain gripping history Roger Luckhurst traces the permutations of the zombie through our culture and imaginations examining the undead s ability to remain defiantly alive Luckhurst follows a trail that leads from the nineteenth century Caribbean through American pulp fiction of the 1920s to the middle of the twentieth century when zombies swarmed comic books and movie screens From there he follows the zombie around the world tracing the vectors of its infectious global spread from France to Australia Brazil to Japan Stitching together materials from anthropology folklore travel writings colonial histories popular literature and cinema medical history and cultural theory Zombies is the definitive short introduction to these restless pulp monsters Deconstructing The Zombie. Cultural and Ideological Approaches , Since the COVID 19 pandemic we have not experienced a moment of calm A spectre haunts the world the spectre of permanent crisis Indeed the forthcoming social economic and political conditions will favour the zombies ensuring their continued presence in our cultural agenda Throughout several literary cinematographic serial fiction and video game cultural productions this character has served as a symbolic representation of the individual at different times in history Whether by harshly denouncing the alienated or passive attitudes that human beings tend to adopt in certain situations urging them to rebel against the system or by portraying the zombie as a victim of human racial gender social or class prejudices and of their desire to exert power over their own and other species This book covers a wide range of topics concerning its universe offering a complete study divided into six significant areas 1 Power Labour and Economy 2 Ethics Religion and Society 3 Flesh Bodies and Gender 4 Politics and Ideology 5 Geographical Adaptations 6 Social and Cultural Manifestations Zombies, Consumption, and Satire in Capcom's Dead Rising Connor Jackson, 2024-11-14 This book explores the relationship between video games and satire through an in depth examination of Capcom s Dead Rising series which alludes to recontextualises and builds upon George A Romero s filmic satire on American consumer culture Dawn of the Dead Proposing a taxonomy of videoludic satire this book details how video games can communicate satire through their virtual environments their characters their audio the way they frame the passage of time and the outcomes of in game choices that their players can make By applying this taxonomy to the Dead Rising series this book presents a compelling case for how video games can function as instruments for social commentary and indicators of ideological tensions This unique and insightful study will interest students and scholars of media studies video game studies satire visual culture and zombie studies Horror Literature through History Matt Cardin, 2017-09-21 This two volume set offers comprehensive coverage of horror literature that spans its deep history dominant themes significant works and major authors such as Stephen King

Edgar Allan Poe and Anne Rice as well as lesser known horror writers. Many of today's horror story fans who appreciate horror through movies, television, video games, graphic novels, and other forms probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers who are of course also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror, such as ghosts, vampires, religion, and gender roles, have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.

Phases of the Moon Craig Ian Mann, 2020-09-21. Provides the first academic monograph dedicated to developing a cultural understanding of the werewolf film.

Ecology of the Zombie Kerstin Oloff, 2023-07-15. *Ecology of the Zombie* marks a significant intervention into the fields of world literature, film studies, ecocriticism, and Gothic Studies. Arguing that the zombie is a fundamentally ecological figure, the book offers original readings of a range of cultural texts from across the Caribbean and the U.S. In its various incarnations, from enslaved body toiling on fields to vacant-eyed, light-skinned female imprisoned within patriarchal structures to the cannibalistic mass zombie roaming apocalyptic scenarios, the zombie speaks powerfully to capitalism's systematic degradation of land and labour. Indeed, the figure gives expression to the metabolic rifts through which the modern world system has unfolded. Boldly intervening in current debates around Gothic imaginaries, *Ecology of the Zombie* argues for the centrality of the Caribbean monstrous to understanding Gothic ecologies due to the region's pivotal role in the emergence of capitalist modernity. The book is distinguished by its striking comparative analyses, bringing the work of Ren Depestre, for example, into conversation with that of Ralph Ellison, reading Erna Brodber's *Myal* in conjunction with George Romero's *Dawn of the Dead*, and examining *The Stepford Wives* alongside the fiction of Pedro Cabiya. In so doing, it provides an important new interpretation of the cultural history of the zombie.

The Age of Promiscuity Doru Pop, 2018-11-15. This book presents an original and engaging look at contemporary popular culture, opening with the provocative idea that this is a day and age of complete

exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here

Zombie Futures in Literature, Media and Culture Simon Bacon, 2024-10-31 An innovative investigation into how zombie narratives over the past ten years have been specifically leading up to a unique intersection with the world as it exists in the 2020s this book posits the undead as a vehicle to communicate humanity's pathway into and out of the ideological health and environmental pandemics of our time Exploring depictions of zombies across literature poetry comics television film and video games Simon Bacon brings together this timely intervention into how zombies enable speculation about future modes of being in a changing world and represent the fluid notion of old and new normals With each chapter moving beyond traditional readings of the undead *Zombie Futures* situates the zombie as an evolving cultural imaginary at the centre of discourses around how human cognition and embodiment are effected by global realities such as consumerism new technologies climate change and planetary degeneration Structured around contagious partisan ideologies ecological sickness mental health crisis and the very literal COVID 19 virus this book establishes how the zombie figure might manifest post human and post normative futures Works featured include graphic novels and comics like *The West* *Zombies Crossed* and *Endzeit* the South Korean series and films *Kingdom* *Train to Busan* and *Peninsula* *The Last of Us* and the *Resident Evil* game franchises Bollywood horror anthology *Ghost Stories* Joss Whedon's *Serenity* *Cargo* and literature such as *The Girl with All the Gifts* the fiction of Stephen Graham Jones and Ryan Mecum's *Zombie Haiku* In a time when popular culture and scholarship has been overrun with the undead this original study offers a refreshing look at the
