recommendations of the Study Group despite initial cross party support The prohibitive cost of city centre redevelopment and motorway construction meant a comprehensive solution to the problem of urban traffic on Buchanan lines was never attempted However local authorities in a variety of British cities such as Glasgow Leicester and Leeds took up aspects of the Report Internationally too the Report had a major impact in countries such as Sweden Italy and Australia In the longer term the influence of the Report may be best judged by the incremental changes it set in train such as pedestrianization of city centres traffic calming and other measures linked to Buchanan s concept of environmental areas In focusing attention on the effects of mass motorization on the urban environment Traffic in Towns set the terms of debate for a generation pre figuring recent discussion about the car and urban sustainability
