A Summary and Critique of Peter Thiel and Blake Masters's Zero to One I. K. Mullins,Brief Concise and to the Point Publishing,2014-11-14 This is not the actual Peter Thiel and Blake Masters s Zero to One Notes on Startups or How to Build the Future This critique includes an unofficial summary and critical analysis of Thiel and Masters s book Do not purchase this critique of the book if you are looking for a full copy of Peter Thiel and Blake Masters s Zero to One Notes on Startups or How to Build the Future Peter Thiel is an entrepreneur and venture capitalist who co founded such companies as Palantir and PayPal He arrived in Silicon Valley in 1985 In 1998 Thiel co foundedPayPal with a group of his friends Peter Thiel and Blake Masters s book Zero to One Notes on Startups or How to Build the Future is based on the course Thiel taught at Stanford University in 2012 It provides entrepreneurs with ideas on creating a successful startup company In his book Thiel argues that the first objective of a founder of a successful business has to be the invention of a new product one which has not existed before In his book Thiel shares his philosophy on business development and management and he shares his observations and ideas on education and life

Zero to One Peter Thiel,2014 EVERY MOMENT IN BUSINESS HAPPENS ONLY ONCE The next Bill Gates will not build an operating system

The next Larry Page or Sergey Brin won't make a search engine And the next Mark Zuckerberg won't create a social network If you are copying these guys you aren't learning from them It's easier to copy a model than to make something new doing what we already know how to do takes the world from 1 to n adding more of something familiar But every time we create something new we go from 0 to 1 The act of creation is singular as is the moment of creation and the result is something fresh and strange Zero to One is about how to build companies that create new things It draws on everything I've learned directly as a co-founder of PayPal and Palantir and then an investor in hundreds of startups including Facebook and SpaceX The single most powerful pattern I have noticed is that successful people find value in unexpected places and they do this by thinking about business from first principles instead of formulas Ask not what would Mark do Ask WHAT VALUABLE COMPANY IS NOBODY BUILDING
