Storytelling Against Extremism Linda Schlegel, 2025-05-23 Counter and alternative narrative CAN campaigns have become a widely used tool in contemporary efforts to prevent and/or counter violent extremism P-CVE However one element is conspicuously absent from the discourse There is little engagement with CANs as narratives and neither CAN theory nor practice are based on existing research findings on narrative persuasion processes This is a crucial gap in the current CAN approach Not situating CANs within the broader discourse on narrative persuasion and drawing from the insights narrative persuasion studies offer significantly weakens the theoretical foundation practical development storytelling quality and analysis of CAN campaigns This book addresses this research gap and transfers concepts theories and insights from narrative persuasion and storytelling research to the context of P-CVE narrative campaigns The author demonstrates that the often criticized CAN approach can be improved significantly by understanding CANs as narrative persuasion campaigns and grounding them in existing research detailing how to tell entertaining and persuasive stories

Jahrhundert tritt Schleiermacher die Individualität mit seinen Reden über die Religion nachhaltig in sein Verständnis von Religion ein Hier durchdringen Wahrnehmung und Darstellung einander in dem sozial konstituierten Prozess der religiösen Selbstbildung in dem das Individuum mit dem Erwachen seines Bewusstseins für das Unendliche eintritt Mit seinen wenig später erscheinenden Monologen stellt der Autor seine selbstreferenzielle Individualität als Freiheitsbewusstsein dar Diese Dissertation bemerkt sich im Hinblick auf Schleiermachers Individualitätsdenken im Kontext der Frühromantik um eine Verhältnisbestimmung von Endlichkeit und Freiheit bzw von Selbst und Gottesbewusstsein Zugleich gilt die Anfrage explizit dem zu untersuchen wie dem inneren Verhältnis der beiden genannten Schriften das in der Forschung höchst unterschiedlich bewertet wird Perception and

Representation of the Infinite Schleiermacher's Thinking on Individuality in the Context of early Romanticism On the cusp of the 19th century Schleiermacher's Reden über die Religion made a lasting contribution to his understanding of religion Here perception and representation permeate each other in the socially constituted process of religious self education into which the individual enters with the awakening of his awareness of the infinite With his following Monologen the author presents a self referential individuality as a consciousness of freedom In view of Schleiermacher's thinking on individuality in the context of early Romanticism this dissertation endeavors to determine the relationship between finitude and freedom or between self consciousness and God consciousness At the same time it explicitly addresses the external and internal relationship between the two aforementioned writings which is assessed very differently in research
