The Transformation Of Scotland The Economy Since 17:

Scotland's Populations from the 1850s to Today Michael Anderson, 2018-03-01 Scotland's Populations is a coherent and comprehensive description and analysis of the most recent 170 years of Scottish population history. With its coverage of both national and local themes set in the context of changes in Scottish economy and society, this study is an essential and definitive source for anyone teaching or writing on modern Scottish history, sociology or geography. Michael Anderson explores subjects such as population growth and decline, rural settlement and depopulation, and migration and emigration. It sets current and recent population changes in their long-term context, exploring how the legacies of past demographic change have combined with a history of weak industrial investment, employment insecurity, deprivation, and poor living conditions to produce the population profiles and changes of Scotland today. While focussing on Scottish data, Anderson engages in a rigorous treatment of comparisons of Scotland with its neighbours in the British Isles and elsewhere in Europe, which ensures that this is more than a one-country study.

Enlightenment's Frontier Fredrik Albritton Jonsson, 2013-06-18 DIVE Enlightenment's Frontier is the first book to investigate the environmental roots of the Scottish Enlightenment. What was the place of the natural world in Adam Smith's famous defense of free trade? Fredrik Albritton Jonsson recovers the forgotten networks of improvers and natural historians that sought to transform the soil, plants, and climate of Scotland in the eighteenth century. The Highlands offered a vast outdoor laboratory for rival liberal and conservative views of nature and society. But when the improvement schemes foundered toward the end of the century, northern Scotland instead became a crucible for anxieties about overpopulation, resource exhaustion, and the physical limits to economic growth. In this way, the rise and fall of the Enlightenment in the Highlands sheds new light on the origins of environmentalism.

Beside the Bard George S. Christian, 2020-03-13 Whether male or female, loyalist or radical, urban or rural, literati or autodidacts, Scottish Lowland poets in the age of Burns adamantly refuse to imagine a single British nation. Instead, they pose the question of Scotland as a revolutionary category, always subject to creative destruction and reformation.

The Economic Consequences of the Dutch Christiaan van Bochove, 2008 Between 1550 and 1800, the Northern Netherlands went through a period of intense economic development. This did not leave the surrounding regions untouched. International trade blossomed, tens of thousands of foreign workers found employment in the Netherlands, and many millions of guilders were channelled abroad to finance foreign commercial undertakings and government policies. This book offers the first systematic analysis of the international impact of Dutch economic development and investigates the economic consequences of Dutch dominance in the areas bordering the North Sea. By using a wide variety of sources and literature, Christiaan van Bochove describes the international flows of goods, people, and money, focussing attention on the effects on the prices of everyday goods, the wages of labourers, and interest rates. This book shows how, by the end of the eighteenth century, the development of the Dutch economy had turned the North Sea region into an integrated spatial economy that operated at the frontier of what was

technologically and institutionally possible **Tea and empire** Angela McCarthy,T M Devine,2017-07-21 This book brings to life for the first time the remarkable story of James Taylor father of the Ceylon tea enterprise in the nineteenth century Publicly celebrated in Sri Lanka for his efforts in transforming the country s economy and shaping the world s drinking habits Taylor died in disgrace and remains unknown to the present day in his native Scotland Using a unique archive of Taylor s letters written over a forty year period Angela McCarthy and Tom Devine provide an unusually detailed reconstruction of a British planter s life in Asia at the high noon of empire As well as charting the development of Ceylon s key commodities in the nineteenth century the book examines the dark side of planting life including violence and conflict oppression and despair A range of other fascinating themes are evocatively examined including graphic depictions of the Indian Mutiny race and ethnicity migration environmental transformation cross cultural contact and emotional ties to home *Global Migrations* Angela McCarthy,2016-05-31 This book examines the impact since 1600 of out migration from Scotland on the homeland the migrants and the destinations in which they settled It does so through a focus on the under researched themes of slavery cross cultural encounters economics war tourism and the modern diaspora since 1945 Class, Culture and Community Anne Baldwin,Chris Ellis,2012-11-15 In recent years historians have debated fervently on the reason for the decline of British Labour History as an academic discipline Most certainly the challenge of Thatcherism to the working classes and trade unions in the 1980s and the fragmentation of Labour history into gender studies industrial studies and women s history have contributed to its apparent decline Post modernists challenges to the concept of class culture and community have done their damage As a result Labour history in its broad school sense has been taught less and less in British universities Yet it survives and there are grounds for believing that it will revive This collection of chapters arose from a conference held at the University of Huddersfield in November 2010 held under the auspices of the Society for the Study of Labour History where nineteen papers were presented Ten of this disparate array of papers form the basis of this collection The theme of community and localised struggle form the first section ranging as it does from the newspapers representation of Yorkshire miners to brass bands and the development of separate culture The second section deals with the more traditional trade unionism and varieties of industrial struggle The third section focuses upon the political aspects of working class activity drawing upon the role of women and Labour policy on steel nationalisation and defence The fourth deals with radicalism ranging from the failure of Chartism the policy of working class organisations to emigration and the failure of the soft section of the British left in the 1920s and 1930s There is no all embracing concept here for what is a varied collection of chapters However what can be said is that British Labour history continues to provide new areas for research Indeed its death as an academic discipline has been greatly exaggerated This collection of book chapters represents the current revival in Labour history which has emerged in a form that brings together community and culture alongside class and political representation to explore the breadth and depth of working class identity **Triumph of Textiles** Jim

Tomlinson, Christopher A Whatley, 2024-11-30 A fresh account of the remarkable rise of Dundee as a global industrial city and the origins of its later demise The background to jute the product most closely associated with Dundee is investigated in unprecedented depth The role of flax and linen as foundations for the jute industry is emphasised The book challenges many perceptions of Dundee Linen was as important to Dundee before c 1850 as jute was afterwards the significance of jute pre 1850 has often been exaggerated by historians Traditionally Dundee s success was attributed to the production of cheap coarse cloth for sacks bagging etc Yet many firms manufactured high quality admiralty grade canvas and colourful rugs and carpets in imitation of Brussels and other woollen floor coverings Design was important So too were enterprising merchants and manufacturers from the early eighteenth century onwards Although squalor and industrial and social conflict became the norm after the 1870s prior to that Dundee was relatively buoyant economically and greatly admired by visitors including those from as far afield as the US In short Dundee was one of Scotland s industrial powerhouses a fact too often overlooked

The Industrial Politics of Devolution Jim Phillips, 2008-10-15 The Industrial Politics of Devolution explains devolution s central phenomenon in Scottish and British political life since the 1960s in terms of economic developments and industrial struggles It was advanced by business leaders keen to isolate Scotland from the perceived advance of socialism and supported by Scottish trade unionists to protect employment and improve working class living standards The book shows how devolution was shaped by car manufacturing at Linwood unofficial strikes and the struggles over industrial relations reform the grand Oceanspan design for industrial and social regeneration the famous UCS work in the miners strikes and the impact of North Sea Oil The book challenges received wisdoms about the 1979 devolution referendum and places the devolutionary politics of the 1980s and 1990s in this longer industrial perspective *Scottish Trade with German Ports, 1700-1770*

Philipp Robinson Rössner, 2008 The monograph contributes to the field of eighteenth century comparative European history Based mainly on British and German customs accounts it is a bilateral case study of the basic working mechanisms within a much larger framework the eighteenth century Atlantic economy The Scottish customs records are unique insofar as they allow precise reconstructions of Scotland s trade volume in yearly series after 1743 which can be broken down by singular countries commodities As the Scottish German trade pattern linked back into the Atlantic framework it is hoped that the present model study will encourage further research into cross country studies of North Sea and Atlantic trade the most dynamic branch of European commerce post 1700 **Scottish Trade in the Wake of Union**

(1700-1760) Philipp Robinson Rössner, 2008 The monograph examines the trends structure and fluctuations in Scotland s foreign trade 1700 1760 in two parts Part I is a general examination of the sources the institutional as well as socio economic framework and the general trend in Scotland s foreign trades 1700 1760 Part II consists of a detailed case study on Scottish trade with German ports based on a comprehensive examination of contemporary customs accounts and trade statistics The monograph s main aim is to highlight the pan European contingency matrix which Scottish foreign trade was exposed to after

1700 It is also intended to shed new light on hitherto overlooked aspects such as the responsibility of the new English customs system in Scotland 1707 for creating a peculiarly Scottish pattern of trade thereafter Scottish Elites Thomas Martin Devine,1994 *New Commerce and Finance* ,1918 **Scottish Society, 1707-1830** Christopher A. Whatley,2000-12-15 Scottish Society 1707 1830 challenges much conventional wisdom and provides readers with many new insights into Scottish social and economic history Argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked Contests received wisdom on issues such as the role of the Kirk and other agencies for inculcating order and argues that the eighteenth and early nineteenth centuries in Scotland were years of upheaval and deep social conflict in both the Highlands and Lowlands where commercialism and later the market economy revolutionised social relationships The period surrounding the Radical War in 1820 is identified as a watershed in Scottish history almost making but also breaking the Scottish working class Not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources **Discovering The Scottish Revolution 1692-1746** Neil Davidson,2003-05-20 Leading Marxist thinkers re evaluate Trotsky s key theories an ideal introduction for students **The Transformation of Scotland** Thomas Martin Devine,Clive Howard Lee,G.
