Reinventing Eastern Europe: Imaginaries, Identities and Transformations Evinç Doğan, 2019-01-22 This edited collection brings together a wide range of topics that shed light on the social cultural economic political and spatio temporal changes influencing post socialist cities of Eastern Europe Different case studies are presented through papers that were presented at the Euroacademia International Conference series Imaginaries identities and transformations represent three blocks for understanding the ways in which visual narratives memory and identity and processes of alterity shape the symbolic meanings articulated and inscribed upon post socialist cities As such this book stimulates a debate in order to provide alternative views on the dynamics persistence and change broadly shaping mental mappings of Eastern Europe The volume offers an opportunity for scholars activists and practitioners to identify discuss and debate the multiple dimensions in which specific narratives of alterity making towards Eastern Europe preserve their salience today in re furbished and re fashioned manners

Bibliographic Index, 2010 *Environmental Impact* C. A. Brebbia, Tae Soo Chon, 2012 The interdisciplinary conference addressed some of the most serious problems affecting sustainable development issues that must be considered by development projects in order to provide complete solutions A major motivation for the meeting was to learn from past failures and avoid repeating similar mistakes while attempting to prevent emerging threats to the environmental and ecological systems by developing more constructive and progressive approaches to ensure sustainability Publisher information

[Sustainable Development and Planning VII](#) Ö. Özçevik, C.A. Brebbia, S.M. Şener, 2015-05-19 This book contains the proceedings of the seventh in a series of biennial conferences on the topic of sustainable regional development that began in 2003 Organised by the Wessex Institute the conference series provides a common forum for all scientists specialising in the range of subjects included within sustainable development and planning In order to ensure that planning and development can meet our present needs without compromising future generations planners environmentalists architects engineers policy makers and economists must work together The use of modern technologies in planning gives us new potential to monitor and prevent environmental degradation In recent years in many countries an increase in spatial problems has led to planning crises Planning problems are often associated with uneven development deterioration of the quality of urban life and destruction of the environment The increasing urbanisation of the world coupled with the global issues of environmental pollution resource shortage and economic restructuring demand that we ensure a decent quality of life for our cities Other environments such as rural areas forests coastal regions and mountains face their own problems that urgently require solutions in order to avoid irreversible damage Effective strategies for management should consider planning and regional development two closely related disciplines and emphasise the demand to handle these matters in an integrated way The papers in the book cover such topics

as Regional Planning City Planning Sustainability and the Built Environment Cultural Heritage Environmental Management Environmental Policies and Planning Sustainable Tourism Resources Management Social and Political Issues Rural Developments Sustainable Solutions in Emerging Countries Transportation Energy Resources Environmental Economics Sustainable Assessment Sustainable Development Indicators Sustainability Modelling Governance Resilience Community Planning Planning for Equality Quality of Life
