## **The Welfare Of Laboratory Animals The Welfare Of Laboratory Animals:**

**The Welfare of Laboratory Animals** Eila Kaliste, 2007-04-18 Animal welfare is attracting increasing interest worldwide but particularly from those in developed countries who now have the knowledge and resources to be able to offer the best management systems for their farm animals as well as potentially being able to offer plentiful resources for companion zoo and laboratory animals The increased attention given to animal welfare in the West derives largely from the fact that the relentless pursuit of financial reward and efficiency has led to the development of intensive animal production systems that offend the conscience of many consumers in those countries In developing countries human survival is still a daily uncertainty so that provision for animal welfare has to be balanced against human welfare Welfare is usually provided for only if it supports the output of the animal be it food work clothing sport or companionship In reality there are resources for all if they are properly husbanded in both developing and developed countries The inequitable division of the world's riches creates physical and psychological poverty for humans and animals alike in all sectors of the world Livestock are the world's biggest land user FAO 2002 and the population particularly of monogastric animals is increasing rapidly to meet the need of an expanding human population Populations of animals managed by humans are therefore increasing worldwide so there is the tendency to allocate fewer resources to each one *Welfare of Laboratory Animals* Symposium on the Welfare of

Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Institute for Laboratory Animal Research, Roundtable on Science and Welfare in Laboratory Animal Use, 2015-12-04 In order to better understand the critical issues pertaining to the concept of performance standards for laboratory animal use the Institute for Laboratory Animal Research Roundtable on Science and Welfare in Laboratory Animal Use held a public workshop on April 20-21, 2015. The purpose of the workshop was to promote the appropriate and responsible care of animals in research to provide a balanced and civil forum for discussion and collaboration and to help build transparency and trust among stakeholders. Participants addressed the challenges of defining, developing, implementing, assessing, and validating performance standards to ensure optimal practices, management, and operations. This report summarizes the presentations and discussions from the workshop.

*Laboratory Animal Welfare* Cheryl Nyberg, Maria A. Porta, Carol Boast, 1994      **Education and Training in the Care and Use of Laboratory Animals** National Research Council, Division on Earth and Life Studies, Institute for Laboratory Animal Research, Commission on Life Sciences, Committee on Educational Programs in Laboratory Animal Science, 1991-02-01 Federal law now requires that institutions provide training for anyone caring for or using laboratory animals. This volume provides the guidelines and resources needed to coordinate a quality training program as well as to meet all legal requirements. A core module for all personnel takes no more than four hours to present. Most staff then proceed to one or more additional skills development modules including the species-specific module that can be customized to any species in use at the institution, the pain management module, and the surgery module. The volume provides content information for required topics from ethics to record keeping and lists sources of additional publications, audiovisual programs, and computerized teaching aids. Included are Ready-to-use teaching outlines with detailed instructions for presenting material. Practical guidelines on logistics covering scheduling, budgeting, and more. Guidelines on how to design training for adults and how to work with investigators who may resist taking training courses. This practical guidebook will be necessary for research institutions, particularly for staff members responsible for training coordination.      Public Health Service Policy on Humane Care and Use of Laboratory Animals National Institutes of Health (U.S.).
