Malloch, 2016-01-18 What is human trafficking This volume critically examines the competing discourses surrounding human trafficking the conceptual basis of global responses and the impact of these horrific acts worldwide Shining Humanity Zilka Spahić Šiljak, 2014-09-18 Shining Humanity Life Stories of Women Peace Builders in Bosnia and Herzegovina is a collection of biographies of eleven local peace leaders from varying ethnic religious and non religious backgrounds As these stories begin to illuminate the women's deep faith in humanity they can help to teach us how to become fully human beings in difficult wartime and post war situations The women selected for inclusion in this book showed genuine humanity ljudskost in the darkness of war and suffering but dared to imagine a life beyond the imposed boundaries of violence and fear This book sheds light on the women's side of peace work and on women's efforts to rebuild to heal to reconcile to empower and to embrace all the challenges and complexities of the post war Bosnian realm These women hope to teach the next generation that each and every person has the capacity to do something good and for this to happen young people need only have faith that it is indeed possible to change things for the better The author examines how moral imagination functioned in the lives of women peace builders as they proceeded to make progress in their efforts to bring peace to their communities and discusses the social history of Bosnia and Herzegovina BiH its special dynamics values and norms the role of religion in peace building in an overwhelmingly de secularized society and finally the achievements of ordinary women who made extraordinary journeys This analytical account of the life stories of Bosnian women peace builders provides valuable anthropological material from the local Bosnian context that can offer guidance for other regional and even global peace

builders Readers will learn that peace building in BiH was motivated by the concepts of both care ethics and feminist ethics of justice and compassion as well as the surviving socialist ethics of unity and equality and by the universal human rights norms codified in the legal system of BiH Most of the peace builders in this book are religious but their religion came into play only later as one of many equally important and relevant rationales for their peace work These stories do not present an idealized image of women or of perfect peace activists but rather they tell the tale of ordinary women who bore witness to horror but chose to live in hope

Ethical Leadership Aidan McQuade, 2022-06-06 Ethical leadership does not simply emerge from a code of conduct a good school or a host of good intentions It is an individual choice or rather a series of choices that emerges from the complex interaction of personal values with social imperatives This book explores

how and why some people become ethical leaders in morally challenging and complex social environments In *Ethical Leadership* Aidan McQuade provides insight into the concept of human agency the individual's choice of a course of action in response to the options posed by that individual's engagement with the social world He puts forth a new model of human agency the cruciform of agency which recognises that the potential range of individual action emerges from the nature of the resonance that social options strike with personal thoughts Every action adds to the individual's personal biography in ways that influence subsequent choices by confirming or changing personal values and hopes hence influencing the way the individual subsequently thinks about the world In explaining the potential and limits of human agency for ethical leadership the book establishes a basis for executives policy makers and academics to conceptualise and develop more robust and realistic approaches for the mitigation of some of the most pressing moral issues facing humanity today These include the inter related challenges of modern slavery and global warming which pose such critical threats to the Earth itself In this book McQuade not only sets an agenda for action but empowers individual leaders to find the moral courage to better advance human rights and preserve the environment even when such action requires unpopular choices Events around the book Link to a De Gruyter Online Event in which the author and independent human rights consultant Aidan McQuade together with Bernd Vogel Director of the Henley Centre for Leadership at Henley Business School Joanne Murphy Director of Research Ambassador Luis C deBaca Professor from Practice University of Michigan Law School discuss topics such as what potentially deters leaders from making ethical decisions what can they draw upon both internally and externally to do the right thing when doing so may be unpopular how in the light of fake news can leaders communicate ethically and much more <https://youtu.be/EYAAGiCX4cI>

Human Trafficking Laura J. Lederer, 2024-01-25 Deeply researched and scrupulously even handed this work provides readers with a clear and accurate understanding of human trafficking and related issues related to socioeconomic inequality human rights and international law In doing so it exposes falsehoods half truths and distortions about trafficking that have gained traction in America's political and cultural discourse When warranted it also confirms the veracity of other claims about the nature and infrastructure of trafficking networks and the harrowing experiences of women men and children trapped in those dehumanizing systems Special areas of focus include chapters devoted to quantifying the scope and reach of human trafficking around the world prosecution and prevention strategies the experiences of trafficking survivors and the important role they play in anti trafficking efforts and the successes and failures of anti trafficking initiatives carried out by governments and law enforcement agencies around the world *Moving in the Shadows* Liz Kelly, Yasmin Rehman, Hannana Siddiqui, 2016-04-15 In the UK the number of people who came from a minority ethnic group grew by 53 per cent between 1991 and 2001 from 3.0 million in 1991 to 4.6 million in 2001 Whilst much has been written about the impact of these demographic changes in relation to policy issues black and minority women and children remain under researched Recent publications have tended to focus on South Asian women forced marriage and honour related

violence *Moving in the Shadows* brings together for the first time in a single volume an examination of violence against women and children within the diverse communities of the UK Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women whilst foregrounding the experiences of minority women the communities they are part of and the organizations which have advocated for their rights and given them voice The chapters contained within this volume explore a set of core themes the forms and contexts of violence minority women experience the continuum of violence the role of culture and faith in the control of women and girls the types of intervention within multi cultural and social cohesion policies the impacts of violence on British born and migrant women and girls and the intersection of race class gender and sexuality highlighting issues of similarity and difference Taken together they provide a valuable resource for scholars students activists social workers and policy makers working in the field

Law's Impunity Hin-Yan Liu, 2015-09-24 When faced with those who act with impunity we seek the protection of law We rely upon the legal system for justice from international human rights law that establishes common standards of protection to international criminal law that spearheads efforts to end impunity for the most heinous atrocities While legal processes are perceived to combat impunity and despite the ready availability of the law accountability often remains elusive What if the law itself enables impunity *Law's Impunity* asks this question in the context of the modern Private Military Company PMC examining the relationship between law and the concepts of responsibility and impunity This book proposes that ordinary legal processes do not neutralise but rather legalise impunity This radical idea is applied to the abysmal record of human rights violations perpetrated by the modern PMC and the shocking absence of accountability This book demonstrates how the law organises rather than overcomes impunity by detailing how the modern PMC exploits ordinary legal processes to systematically exclude itself from legal responsibility Thus *Law's Impunity* offers an alternative to conventional thinking about the law providing an innovative approach to assess and refine the rigour of legal processes in the ongoing quest to end impunity

Justice Eleanor Gordon,2019-04-26 This path breaking new textbook provides a broad overview of the core concepts actors and activities involved in building security and justice after conflict as well as challenges and lessons learned in this field Drawing attention to the principles which guide or should guide this kind of work as well as using practical examples throughout the book covers a uniquely wide range of issues in peacebuilding from transitional justice and disarmament to security sector reform and human rights It concludes by considering both the regional and more far reaching impacts of conflict including such global phenomena as terrorism piracy and organised crime With a decade of experience working in post conflict zones for the UN and other organisations and a further 10 years in academia and as a consultant for various international organisations the author s unparalleled expertise on the topic and her accessible writing style make this book the essential guide to postgraduate and upper level undergraduate courses on peace and conflict studies The text is also important supplemental reading for those studying war peace development security or IR in a wider context and for practitioners and policy makers in the field of peacebuilding *Politics and International Law* Leslie Johns,2022-06-09

International Law Leslie Johns,2022-06-09 International law shapes nearly every aspect of our lives It affects the food we eat the products we buy the rights we hold and the wars we fight Yet international law is often believed to be the exclusive domain of well heeled professionals with years of legal training This text uses clear accessible writing and contemporary political examples to explain where international law comes from how actors decide whether to follow international law and how international law is upheld using legal and political tools Suitable for undergraduate and graduate students this book is accessible to a wide audience and is written for anyone who wants to understand how global rules shape and transform international politics Each chapter is framed by a case study that examines a current political issue such as the bombing of Yemen or the use of chemical weapons in Syria encouraging students to draw connections between theoretical concepts and real world situations The chapters are modular and self contained and each is paired with multiple Supplemental Cases edited and annotated judicial opinions Accompanied by ready to use PowerPoint slides and a testbank for instructors *Sex Panic Rhetorics, Queer Interventions* Ian Barnard,2020-04-07 Winner of the 2021 Conference on College Composition and Communication Lavender Rhetorics Award for Excellence in Queer Scholarship Analyzes the rhetoric of contemporary sex panics to expose how homophobia heterosexism and transphobia define public political and scholarly preoccupations with sexuality and gender In *Sex Panic Rhetorics Queer Interventions* Ian Barnard makes the counter intuitive argument that contemporary sex panics are

undergirded by queerphobia even when the panics in question don't appear to have much to do with queerness Barnard presents six case studies that treat a wide range of sex panic rhetorics around child molesters sex trafficking transgenderism incest queer kids and pedagogy to demonstrate this argument By using examples from academic scholarship political discourse and popular culture including the Kevin Spacey scandal and the award winning film Moonlight Barnard shows how homophobia and transphobia continue to pervade contemporary Western culture Barnard is concerned not so much with looking at the overt homophobia and transphobia that are the more obvious objects of antihomophobic and antitransphobic critique The author's focus rather is on excavating the significant traces of these panics in a neoliberal culture that has supposedly demonstrated its civility by its embrace of diversity renunciation of its homophobic past and attentiveness to the transgender revolution that has swept popular media and political culture in the United States and elsewhere During a time of increasing conservative backlashes against advancing LGBTQ rights and human rights discourses in general this book shows why it is important to attend to the liberal covers for sex panics that are not too far removed from their rhetorically conservative cousins

Holding UNPOL to Account Ai Kihara-Hunt, 2017-03-06 Ai Kihara Hunt's Holding UNPOL to Account Individual Criminal Accountability of United Nations Police Personnel analyzes whether the mechanisms that address criminal accountability of United Nations police personnel serving in peace operations are effective and if there is a problem how it can be mitigated The volume reviews the obligations of States and the UN to investigate and prosecute criminal acts committed by UN police and examines the jurisdictional and immunity issues involved It concludes that these do not constitute legal barriers to accountability although immunity poses some problems in practice The principal problem appears to be the lack of political will to bring prosecutions as well as a lack of transparency which makes it difficult accurately to determine the scale of the problem

Sexual Rhetorics Jonathan Alexander, Jacqueline Rhodes, 2015-10-16 Sexual rhetoric is the self-conscious and critical engagement with discourses of sexuality that exposes both their naturalization and their queering their torquing to create different or counter discourses giving voice and agency to multiple and complex sexual experiences This volume explores the intersection of rhetoric and sexuality through the varieties of methods available in the fields of rhetoric and writing studies including case studies theoretical questioning ethnographies or close and distant readings of texts that help us think through the rhetorical force of sexuality and the sexual force of rhetoric
