The Void Inner Spaciousness And Ego Structure:

The Void A. H. Almaas, 2000-09-05 The first volume in an eye opening series on the Diamond Mind a deep understanding of human nature that combines Freudian psychology with Eastern philosophy and spirituality In this book the founder of the Diamond Approach brings together concepts and experiences drawn from contemporary object relations theory Freudian based ego psychology case studies from his own spiritual practice and teachings from the highest levels of Buddhist and other Eastern practices He challenges us to look not only at the personality and the content of the mind but also at the underlying nature of the mind itself

Brilliancy A. H. Almaas, 2006-05-09 Intelligence is one of the defining characteristics of human beings an inherent ability to respond to the world with awareness knowledge learning and insight Most considerations of human intelligence are based on the notion that intelligence is a product of brain functioning A H Almaas introduces here a radically different viewpoint one that recognizes an actual quality of consciousness as the source of intelligence He calls this source the Brilliancy of our true nature The presentation of his understanding of intelligence is followed by in depth dialogues with his students on the various barriers to recognizing and embodying this essential quality In particular an unresolved relationship with one's father is found to shape the experience of Brilliancy Using a Socratic method that draws upon techniques of body centered Gestalt psychodynamic and cognitive psychologies Almaas helps participants work through their defenses and conflicts surrounding this issue and then diverging from psychotherapeutic practice guides them in discovering their own Brilliancy

The Point of Existence A. H. Almaas, 2000-09-05 The founder of the Diamond Approach to Self Realization examines narcissism through a spiritual lens presenting it as our greatest barrier to understanding our truest self In this book the author explores the underlying spiritual understanding of narcissism He presents a detailed map of the steps involved in working through barriers that prevent us from recognizing the most essential nature of our true identity Almaas is one of the most significant voices for a new and remarkably integrated spiritual vision His work connects the personal the universal the psychological and the spiritual not as pieces put together but as the inseparable mandala of the sacred that we are I respect his work to the highest degree and commend it to anyone interested in living the life of the spirit Jack Kornfield Ph D author of *After the Ecstasy the Laundry*

Diamond Heart: Inexhaustible Mystery A. H. Almaas, 2011-07-12 The final volume in A H Almaas masterwork on the contemporary spiritual path known as the Diamond Approach From one perspective we can see ourselves merely as human beings struggling in a crowded and chaotic world of suffering *Inexhaustible Mystery* opens our eyes to a different reality one that turns our familiar world inside out We need only explore with curiosity and love our true potential as human beings in order to discover infinite depth and creativity in our lives as we act and interact in the world When time and space expand their meaning we come to know ourselves as having infinite dimensions of being and qualities of spirit and uncover new mysteries about ourselves one another and the reality we live in This is the last of the five volume Diamond Heart series of transcribed and edited talks

The Void Within Ph. D. Arnold C. Harms, 2015-04-10 Any adequate discussion of *The Void Within* requires that one provide both its philosophical justification and its location within the broader context of humanistic studies Inevitably that involves one in a plethora of technical terms drawn from the various fields of study philosophy psychology literature etc However since this work was written for lay persons professional jargon is held to a minimum terms that prove unavoidable are explained within the text For readers who still find these prefatory remarks tedious it is recommended that they skip the Preface and go directly to Chapter One perhaps returning to the Preface at a later time First concerning the scope of the investigation the title *The Void Within An Inner Quest for Wholeness* rightly suggests that this is an inquiry into self understanding It probes the universal human experience that something seems to be missing within the human psyche something vital that cries out for explanation and resolution What is the nature of the void within the human soul and what does that inner void represent Any attempt to answer those provocative questions soon involves one in the larger questions of what constitutes a self and what are the structures of selfhood This naturally leads the inquiry to an examination of what is meant by an authentic and or inauthentic self Finally one must ask what is required to fill the void within the human heart bringing one a sense of fulfillment and satisfaction An exposition of the inner void eventually faces one with the grounding question of all philosophy and psychology What does it mean to be human One will readily note that what began as a very limited introspective analysis quickly became the broadest possible question for humanistic studies Understanding what it means to be human also involves the question about how human reality is to be interpreted vis vis its place on the infinite cosmic stage upon which modern humans find themselves

The Integral Ego D. B. Sleeth, 2009 *The Integral Ego* is the first truly comprehensive account of psychic structure since the pioneering work of Freud and Jung nearly a century ago This book reflects the culmination of their lives work and is an integration made possible by the tenets of an ancient spiritual tradition known as non dualism in particular the radical non dualism of an unsurpassed non dual spiritual master living today the Avataric Great Sage Adi Da Samraj The essence of *The Integral Ego* can be summarized thus the integration of the ego is the elimination of the ego which leaves in its wake what is our own true nature all along God
