History of Military Medicine: From the Renaissance through modern times Richard A. Gabriel,Karen S. Metz,1992 This work is the first published comprehensive history of military medicine in the Western world The second volume begins with the Renaissance and ends with the Vietnam War Additional emphasis is placed on the cross national transfer of information relevant to military medicine *The British National Bibliography* Arthur James Wells,1992 *Asian and Asian American Studies* ,1993 **Treatise on Partisan Warfare** Johan Ewald,1991-12-30 This translation of Johann Ewald s classic essay *Abhandlung Uber den kleinen Krieg* published in 1785 describes light infantry tactics in an era of heavy infantry formations

Robert Selig and David Skaggs comment on Ewald's treatise on partisan warfare and its relevance to current military doctrine. They also provide extensive scholarly notations with the text explaining people, places and events during the Seven Years War and the American Revolution where Ewald had extensive experience as a company commander in the Hessian Field Jaeger Corps. This first English translation should be of real interest to historians of American Revolution and pre-Napoleonic warfare and of special use to military professionals today in the Army and Marine Corps. Captain Ewald eventually a Major General in the Danish Army describes the recruiting and training of light infantry troops and discusses their use both in the Seven Years War and the American Revolution at length. He provides illuminating insights into light infantry tactics and doctrine. *Bibliographic Guide to Education* 1992 G. K. Hall and Co. Staff, 1993-06 *Doctrine and Dogma* Martin Samuels, 1992-05-30 Comparing German and British infantry tactics training and leadership techniques during World War I this study undercuts traditional views about the reasons for German successes and British failures during the Great War and points to how different value systems affected military prowess. **The Duke of Wellington and the British Army of Occupation in France, 1815-1818** Thomas Dwight Veve, 1992-07-30 An unexamined aspect of the career of the Duke of Wellington his command of allied forces occupying France serves as the focus of this work. Veve traces the history of the 1815-1818 occupation and the significant role that Wellington played in making the first multinational peacekeeping force a success. **Current French Security Policy** Theodore Posner, 1991-11-30 This analysis of France's role in Europe's new security order adds a new perspective to a post Cold War security dialogue that has focused on the superpowers and Germany. Theodore Posner provides a historical framework for his comprehensive study of current French security policy and he links broad themes to changes in operations. Written in a lively manner this overview of current European politics security issues and modern day French political life is intended for a broad audience of students teachers and policymakers in military studies political science and world history. The study takes as its point of departure the 1960s when Charles de Gaulle offered Western Europe a model of cooperative security that challenged the U.S. model. Since Europe's political transformation and the end of the Cold War has altered the earlier security framework the time is now ripe for a new model. The study defines how a French model might look institutionally today and how France could provide new leadership but concludes that the strong initiative for doing so is probably lacking. This study is important also in analyzing events from a historical perspective and in viewing policies made at the highest level and at the operational level as well. *Choice*, 1998 **Controlling and Ending Conflict** Stephen J. Cimbala, Sidney Waldman, 1992 This provocative and authoritative study covers all the major aspects of conflict termination before and after the Cold War. Cimbala and Waldman together with prominent analysts offer different insights into the key issues and military and political strategies to end and control conflict in a radically changing world. They define basic principles and consider intrawar deterrence and various ways to control and end all types of war in an age of nuclear proliferation. *Nordic Security at the Turn of the Twenty-First*

Century **Ciro Elliott Zoppo**,1992-05-30 High ranking government officials defense analysts and scholars focus on the geopolitics and security of the Nordic region at a time when East West relations in Europe are undergoing momentous changes Experts from Scandinavia Europe and the United States examine the impact of the United States and the Soviet Union on Scandinavian security in terms of defense doctrines and deployment and the evolving technologies of defense paying particular attention to neutral Finland and Sweden This strategic analysis edited by **Ciro Zoppo** is intended for academicians and policymakers in the fields of military studies political science Nordic and European affairs and East West relations This survey of key problems and prospects in the Northern cap of the globe offers the historical background necessary for understanding the foreign policies and domestic politics of Norway Finland Sweden Iceland and Denmark The study is unique in its detailed examination of military policy and emerging technologies alongside a discussion about their economic consequences for the countries in the region The cross national team of experts also considers the significance of the changing political and technological environment for the future of Swedish and Finnish defense and neutrality
