The Tilted Arc Controversy Harriet Senie, 2002 **A Philosophy Guide to Street Art and the Law** Andrea Baldini, 2018-12-24 What is the relationship between street art and the law In *A Philosophy Guide to Street Art and the Law* Andrea Baldini argues that street art has a constitutive relationship with the law A crucial aspect of the identity of this urban art kind depends on its capacity to turn upside down dominant uses of public spaces Street artists subvert those laws and social norms that regulate the city Baldini shows that street art has not only transformed public spaces and their functions into artistic material but has also turned its rebellious attitude toward the law into a creative resource He aims at elucidating and arguing for this claim while drawing important implications at the level of street art's metaphysics value and relationship with rights of intellectual property in particular copyright and moral rights At the other end of the spectrum of contractual art street art is outlaw art **Engagement in the City** Bryna Bobick, Leigh N. Hersey, 2021-03-12 *Engagement in the City* How Arts and Culture Impact Development in Urban Areas provides readers with numerous examples of ways that the arts can contribute to community development Through the diverse backgrounds of its contributing authors representing artists art educators and public administration scholars the role of arts is explored as a contributing factor in strengthening communities The book shows that the arts have the potential to positively impact a wide variety of development interests including economic education health social capital and of cultural The book provides strategies and techniques for implementing successful arts based projects whether it be through public art initiatives service learning opportunities or the development of cultural districts Cross sectoral collaboration is a key in many of these projects making the book beneficial for artists and community leaders who seek ways to work together to improve their cities **From a Cause to a Style** Nathan Glazer, 2009-01-10 Modernism in architecture and urban design has failed the American city This is the decisive conclusion that renowned public intellectual Nathan Glazer has drawn from two decades of writing and thinking about what this architectural movement will bequeath to future generations In *From a Cause to a Style* he proclaims his disappointment with modernism and its impact on the American city Writing in the tradition of legendary American architectural critics Lewis Mumford and Jane Jacobs Glazer contends that modernism this new urban form that signaled not just a radical revolution in style but a social ambition to enhance the conditions under which ordinary people lived has fallen short on all counts The articles and essays collected here some never published before all updated reflect his ideas on subjects ranging from the livable city and public housing to building design public memorials and the uses of public space Glazer an undisputed giant among public intellectuals is perhaps best known for his writings on ethnicity and social policy where the unflinching honesty and independence of thought that he brought to bear on tough social questions has earned him respect from both the Left and the Right Here he challenges us to face some difficult truths about the public places that for better or worse define who we are as a society *From a Cause to a Style* is an exhilarating and thought provoking book that raises important questions

about modernist architecture and the larger social aims it was supposed to have addressed and those it has abandoned

Designs on the Public Kristine F. Miller, New York City is home to some of the most recognizable places in the world As familiar as the sight of New Year s Eve in Times Square or a protest in front of City Hall may be to us do we understand who controls what happens there Kristine Miller delves into six of New York s most important public spaces to trace how design influences their complicated lives Miller chronicles controversies in the histories of New York locations including Times Square Trump Tower the IBM Atrium and Sony Plaza The story of each location reveals that public space is not a concrete or fixed reality but rather a constantly changing situation open to the forces of law corporations bureaucracy and government The qualities of public spaces we consider essential including accessibility public ownership and ties to democratic life are at best temporary conditions and often completely absent Design is in Miller s view complicit in regulation of public spaces in New York City to exclude undesirables restrict activities and privilege commercial interests and in this work she shows how design can reactivate public space and public life Kristine F Miller is associate professor of landscape architecture at the University of Minnesota

Richard Serra: Tilted Arc, 1981-89 New York. Die Monumentalität und das Monument Paul Breuer, 2017-11-13 Studienarbeit aus dem Jahr 2017 im Fachbereich Kunst Bildhauerei Skulptur Plastik Sprache Deutsch Abstract Der wortw rtlich gekippte Bogen impliziert die thematische Form eines gekr mmten Kurvenstücks dessen materielle Ausformulierung dem Namen nach vermutlich schief und schräg im Raum zu verorten sein wird wodurch gleichzeitig auf eine gewisse Instabilität der gewölbten Bogenform hingewiesen wird Der Titel des Werkes Tilted Arc ist somit ein textueller Verweis auf die Form des Objektes Der materialisierte Zeichenträger ist wiederum eine freistehende Plastik aus korrodiertem Stahl und in einen platzeinnehmenden städtebaulichen Kontext eingelassen Hervorzuheben ist dass das haptische Element der rauen und durch Rost zersetzten Eisenoberfläche in Beziehung zum optischen Moment der Monumentalität gesetzt wird Die Visualisierung des Werktitels ist sogar dermaßen raumgreifend dass der Raum der zur Rezeption des Gegenstandes nötig ist durch das umliegende architektonische Gefüge nicht nur determiniert wird sondern über diesen in einer raumzeitlichen Konzeption der Betrachtung hinaus reicht Die Wahrnehmung des Objektes zusammen mit dem Objektraum entsteht in diesem Fall nicht nur durch die kontinuierliche Bewegung des Betrachters in und um den Raum herum sondern durch dynamisch anmutende Verzahnungen einzelner Objekt und Architektursegmente die auf einen Wechsel der perspektivischen Ansichten der jeweiligen wahrnehmbaren Raumeinheiten angelegt sind

1980s Kimberly R. Moffitt, Duncan A. Campbell, 2011 As we approach twenty years since the end of the 1980s we have the opportunity to see the decade in perspective and are in a position to question the glib assumption that the 1980s were a mere conservative foil to the 1960s *The 1980s A Critical and Transitional Decade* edited by Kimberly R Moffitt and Duncan A Campbell places its topics within the context of a decade described as both critical and transitional because the 1980s in many respects marked the end of one era and the beginning of another For example the Reagan presidency the end of the Cold War MTV and the appearance of the personal computer all reflect a legacy of political cultural and social transformation of the United States and the world and took place specifically within the 1980s The function of this interdisciplinary volume is not to simply highlight the significant phenomena of the period but rather demonstrate how so many apparently disparate events were in fact closely inter related and also products of their age *The 1980s* is a holistic analysis of the decade that focuses on major turning points developments in literature art entertainment politics and social experimentation *The 1980s A Critical and Transitional Decade* edited by Kimberly R Moffitt and Duncan A Campbell is a groundbreaking and stand alone introductory volume that is unapologetically interdisciplinary in nature and encourages students to explore topics of the decade often overlooked or grouped together with other more memorable decades such as the 1920s or 1960s
