## **The Unheard Voices Community Organizations And Service Learning:**

*The Unheard Voices* Randy Stoecker, Elizabeth A. Tryon, 2009-08-21 Service learning has become an institutionalized practice in higher education. Students are sent out to disadvantaged communities to tutor, feed, and help organize communities. But while the students gain from their experiences, the contributors to *The Unheard Voices* ask: Does the community? This volume explores the impact of service learning on a community and considers the unequal relationship between the community and the academy. Using eye-opening interviews with community organization staff members, *The Unheard Voices* challenges assumptions about the effectiveness of service learning. Chapters offer strong critiques of service learning practices from the lack of adequate training and supervision to problems of communication and issues of diversity. The book's conclusion offers ways to improve service learning so that future endeavors can be better at meeting the needs of the communities and the students who work in them. *The SAGE Sourcebook of Service-Learning and Civic Engagement*

Chunoo, Kathy L. Guthrie, 2018-06-01 Social justice and leadership education are inextricably linked In order to move social justice forward we need to develop leaders with knowledge skills and values to engage effectively in the leadership process We need socially just leaders now more than ever At a time when our elected and appointed officials agree on very little our communities are divided and distrustful of one another and individual citizens struggle for fairness in the face of discrimination society is at a crossroad In one direction lies the reproduction of oppression and marginalization continued distrust and further fragmentation In the other a route toward healing compassion and fairness How then do we prepare our leaders of tomorrow to walk the path of justice rather than take the road to ruin Changing the dominant narratives in society involves preparing skilled social critics and knowledgeable advocates for

positive and sustainable change through education However when leadership education fails to consider social justice issues or when social justice education omits leadership learning both fall short of their goals This texts links issues of social justice equity and equality to leadership knowledge skills and values with the intent of offering theoretical practical and policy recommendations to improve the work of educators charged with preparing undergraduates for the complexities of leadership in all its forms Collectively the contributors inform much needed practices and pedagogies toward socially just leadership education No single one of us can change the narrative alone but together we can amplify the voices of those leading toward justice The perspectives offered here are but a sample of the work being done to make the future a brighter place for all We invite you to be part of the conversation
