Woodley,2022-04-19 This volume by a Cherokee teacher former pastor missiologist and historian brings Indigenous theology into conversation with Western approaches to history and theology Written in an accessible conversational style that incorporates numerous stories and questions this book exposes the weaknesses of a Western worldview through a personal engagement with Indigenous theology Randy Woodley critiques the worldview that undergirds the North American church by dismantling assumptions regarding early North American histories and civilizations offering a comparative analysis of worldviews and demonstrating a decolonized approach to Christian theology Woodley explains that Western theology has settled for a particular view of God and has perpetuated that basic view for hundreds of years but Indigenous theology originates from a completely different DNA Instead of beginning with God created humanity it begins with God created place Instead of emphasizing individualism it emphasizes a corporateness that encompasses the whole community of creation And instead of being about the next world it is about the tangibility of our lived experiences in this present world The book encourages readers to reject the many problematic aspects of the Western worldview and to convert to a worldview that is closer to that of both Indigenous traditions and Jesus

Philoponus: On Aristotle on the Soul 1.3-5 Philoponus,2014-04-22 Until the launch of this series over fifteen years ago the 15 000 volumes of the ancient Greek commentators on Aristotle written mainly between 200 and 600 AD constituted the largest corpus of extant Greek philosophical writings not translated into English or other European languages This text by Philoponus rejects accounts of soul or as we would say of mind which define it as moving as cognitive or in physical terms Chapter 3 considers Aristotle s attack on the idea that the soul is in motion This was an attack partly on his teacher Plato since Plato defines the soul as self moving Philoponus agrees with Aristotle s attack on the idea that a thing must be in motion in order to cause motion But he offers what may be Ammonius interpretation of Plato s apparently physicalistic account of the soul in the Timaeus as symbolic What we would call the mind body relation is the subject of Chapter 4 Plato and Aristotle attacked a physicalistic theory of soul which suggested it was the blend ratio or harmonious proportion of ingredients in the body Philoponus attacked the theory too but we learn from him that Epicurus had defended it In Chapter 5 Philoponus endorses Aristotle s rejection of the idea that the soul is particles and of Empedocles idea that the soul must be made of all four elements in order to know what is made of the same elements He also rejects with Aristotle definitions of the soul as moving or cognitive as ignoring lower forms of life He finally discusses Aristotle s rejection of Plato s localisation of parts of the soul in parts of the body but asks if new knowledge of the brain and the nerves do not require some kind of localisation **The Seven Spiritual Laws of Success (EasyRead Super Large 20pt Edition)** Deepak Chopra,2008

Reading Baudelaire with Adorno Joseph Acquisto,2023-05-04 Reading Baudelaire with Adorno examines Charles

Baudelaire's oeuvre including verse poems, prose poems and critical writings in dialogue with the aesthetic theory of Theodor Adorno for whom the autonomy of the artwork critically resists any attempt to view it merely as a product of its socio-historic context. Joseph Acquisto analyzes Baudelairean duality through the lens of dissonance, arguing that the figure of the subject as a dissonant chord provides a gateway to Baudelaire's reconfiguration of subjectivity and objectivity in both esthetic and epistemological terms. He argues that Baudelaire's dissonance depends on older models of subjectivity in order to define itself via the negation of romantic conceptions of a unified lyric subject in favor of one constituted simultaneously as subject and object. This new understanding of subjectivity reconfigures our relationship to the work of art which will always surpass conceptual attempts to know it fully. Acquisto offers a fresh take on some familiar themes in Baudelaire's work. Dissonant subjectivity in Baudelaire rather than cancelling esthetic transcendence points to a different way forward that depends on a new and dialectical relation of subject and object.

Jesus and Pocahontas Howard A. Snyder, 2015-10-29. Most Americans know the story of Pocahontas but not the fact that she was a Christian and the reasons for her dramatic conversion. Pocahontas had a history-altering encounter with Jesus Christ. A key figure was Alexander Whitaker, pioneer Anglican missionary in Virginia who taught Pocahontas the Christian faith but is almost totally unknown today. This story of Pocahontas has never fully been told. Or it has been ridiculed. Yet it is true as this book now documents. In these pages the real Pocahontas comes alive as a flesh and blood person with her own thoughts and decisions. This book shows the beauty, the romance and the tragedy of Pocahontas's short life. It also traces the way the Pocahontas story has been used and misused over the past 400 years, opening the door to the larger issue of the suppression of native peoples in US history. The real story of Pocahontas presents a timely case study both in the history of missions and the history of America: an investigation of the interplay between gospel culture and national mythology.
