Juice Brady G. Wilson,2012-06-06 Conversations are the key to business success in fact they are the operating system of companies big and small Not just any conversations but powerful ones in which we Inspire others to share their reality with us Invite them into our reality Discover the Bigger Reality between us Release organizational energy Increase employee engagement Moving on Sarah Ban Breathnach,2006 The author offers an inclusive inspirational guide to help readers understand themselves and use their insights to accept change and move on after life changing events **Uproar** Peter L. Steinke,2019-02-13 If these are the times that test men s souls never more than for the leader s ability to think clearly to be present calmly and to challenge effectively It s a time when leaders cannot be as anxious as those they serve otherwise the system is leaderless Anxiety flows down like water from a leaky pipe To lead effectively we must understand the impact of powerful emotional forces on people s behavior especially in anxious times **Uproar** Calm Leadership in Anxious Times helps leaders understand the powerful impact that emotional processes have on the people they lead Peter Steinke bestselling author of *Congregational Leadership in Anxious Times* draws on decades of work on system conflict and personal experiences to share real stories of challenges leaders have faced and how understanding the power of emotions has dramatically influenced their success In this book readers will observe important leadership characteristics such as separating oneself from the surrounding anxiety making decisions based on principle and not instinct taking responsibility for one s own emotional being staying connected to others including those who disagree with you being a non anxious presence focusing on emotional processes rather than the symptoms they produce knowing people naturally influence one another and recognizing leader and follower as complements At the end of each chapter there is a Leader s Notebook a short section to illustrate enrich or engage your thinking about leadership As Steinke suggests being anxious causes you to lose perspective and leaders do their best thinking when they are not overly stressed and can think about options doing their best work when they work on themselves So where are you in your leadership journey No matter where you are beginning middle or end this book will be one the most significant leadership books you ll read **A Door Set Open** Peter L. Steinke,2010-08-23 We resist change less when we associate it with mission and fortify it with hope So argues longtime congregational consultant Peter Steinke in his fourth book *A Door Set Open* as he explores the relationship between the challenges of change and our own responses to new ideas and experiences Steinke builds on a seldom explored principle posited by the late Rabbi Edwin Friedman the hostility of the environment is proportionate to the response of the organism The key Steinke says is not the

number or strength of the stressors in the system anxiety poor conditions deteriorating values but the response of the individual or organization to what is there Drawing on Bowen system theory and a theology of hope as well as his experience working with more than two hundred congregations Steinke makes the case that the church has entered an era of great opportunity Theologian and sociologist Ernst Troeltsch said the church had closed down the office of eschatology Steinke reopens it and draws our attention to God s future to a vision of hope for the people of God The door is set open for exploration and new creation
