The Whole Stupid Way We Are:

The Whole Stupid Way We Are N. Griffin, 2013-02-05 What happens when everything you've got to give isn't enough to save someone you love This transformative portrayal of injustice frustration and rage is wrenching and difficult to forget Publishers Weekly starred review It's Maine It's winter And it's FREEZING STINKIN COLD Dinah is wildly worried about her best friend Skint He won't wear a coat Refuses to wear a coat It's twelve degrees out and he won't wear a coat So Dinah's going to figure out how to help That's what Dinah does she helps But she's too busy trying to help to notice that sometimes she's doing more harm than good Seeing the trees instead of the forest That's Dinah And Skint isn't going to be the one to tell her He's a helper guy too He's worried about a little boy whose dad won't let him visit his mom He's worried about an elderly couple in a too cold house down the road But the wedge between what drives Dinah and what concerns Skint is wide enough for a big old slab of ice Because Skint's own father is in trouble Because Skint's mother refuses to ask for help even though she's at her breaking point And because Dinah might just decide to help She thinks she's cracking through a sheet of ice but what's actually there is an entire iceberg

The Way We Think Gilles Fauconnier, Mark Turner, 2008-08-06 In its first two decades much of cognitive science focused on such mental functions as memory learning symbolic thought and language acquisition the functions in which the human mind most closely resembles a computer But humans are more than computers and the cutting edge research in cognitive science is increasingly focused on the more mysterious creative aspects of the mind *The Way We Think* is a landmark synthesis that exemplifies this new direction The theory of conceptual blending is already widely known in laboratories throughout the world this book is its definitive statement Gilles Fauconnier and Mark Turner argue that all learning and all thinking consist of blends of metaphors based on simple bodily experiences These blends are then themselves blended together into an increasingly rich structure that makes up our mental functioning in modern society A child's entire development consists of learning and navigating these blends *The Way We Think* shows how this blending operates how it is affected by and gives rise to language identity and concept of category and the rules by which we use blends to understand ideas that are new to us The result is a bold exciting and accessible new view of how the mind works
