Tiefer Als Der Tag Gedacht Eine Kulturgeschichte Der Nacht:

Women and the Nineteenth-Century Lied Aisling Kenny, Susan Wollenberg, 2016-03-03 This book bridges a gap in existing scholarship by foregrounding the contribution of women to the nineteenth century Lied Building on the pioneering work of scholars in recent years it consolidates recent research on women s achievements in the genre and develops an alternative narrative of the Lied that embraces an understanding of the contributions of women and of the contexts of their engagement with German song and related genres Lieder composers including Fanny Hensel Clara Schumann Pauline Viardot Garcia and Josephine Lang are considered with a stimulating variety of analytical approaches In addition to the focus on composers associated with history and theory of the Lied the various chapters explore the cultural and sociological background to the Lied s musical environment as well as engaging with gender studies and discussing performance and pedagogical contexts The range of subject matter reflects the interdisciplinary nature of current research in the field and the energy it generates among scholars and performers *Women and the Nineteenth Century Lied* aims to widen readers perception of the genre and help promote awareness of women s contribution to nineteenth century musical life through critical appraisal of the cultural context of the Lied encouraging acquaintance with the voices of women composers and the variety of their contributions to the repertoire

Dark Nights, Bright Lights Susanne Bach, Folkert Degenring, 2015-10-16 Light and darkness shape our perception of the world This is true in a literal sense but also metaphorically in theology philosophy literature and the arts the light of day signifies life safety knowledge and all that is good while the darkness of the night suggests death danger ignorance and evil A closer inspection however reveals that things are not quite so clear cut and that light and darkness cannot be understood as simple binary opposites On a biological level for example daylight and darkness are inseparable factors in the calibration of our circadian rhythms and a lack of periodical darkness appears to be as contrary to health as a lack of exposure to sunlight On a cultural level too night and darkness are far from being universally condemnable in fiction drama and poetry the darkness of the night allows not only nightmares but also dreams it allows criminals to ply their trade and allows lovers to meet it allows the pursuit of pleasure as well as deep thought it allows metamorphoses transformations and transgressions unthinkable in the light of day But night is not merely darkness The night gains significance as an alternative space as an other of the day only when it is at least partially illuminated The volume examines the interconnection of night darkness and nocturnal illumination across a broad range of literary texts The individual essays examine historically specific light conditions in literature tracing the symbolic and metaphoric content of darkness and illumination and the attitudes towards them

Mourning and Creativity in Proust Anna Magdalena Elsner, 2017-03-09 This study explores Proust s answers to some of the fundamental challenges of the inevitable human experience of mourning Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of

the twentieth century The book enables the reader to acknowledge loss and forgetting as an essential part of memory and it proposes that this literary topos has seminal implications for an understanding of the ethics aesthetics and erotic in Proust's *A la recherche du temps perdu* Drawing on the works of Sigmund Freud and Jacques Derrida Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel's final aesthetic apotheosis This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust's novel captivating for readers since its publication Tiefer als der Tag gedacht : eine Kulturgeschichte der Nacht Elisabeth Bronfen, 2008 *Succeeding King Lear* Emily Sun, 2010 This book investigates the question of the relations between literature and politics in democratic modernity It makes connections between Shakespeare's tragedy Wordsworth's poetry and the documentary nonfiction and photography of James Agee and Walker Evans to offer new ways of thinking of the logic of literary history and the relationship between early modern Romantic and twentieth century texts and it brings literature into dialogue with contemporary philosophical re-readings of Western political thought *King Lear* Sun argues opens up a literary succession at the heart of which is a crisis of sovereignty Interrogating what it is to be a political subject as actor and spectator in the kingdom the play issues an injunction to transform spectatorship in plural and nonsovereign terms Thorough engagements with *Lear* Wordsworth in the 1790s and Agee and Evans in the 1930s assume this injunction by generating new artistic genres and modes for their times Being Alone in Antiquity Rafał Matuszewski, 2021-11-22 This volume aims to provide an interdisciplinary examination of various facets of being alone in Greco-Roman antiquity Its focus is on solitude social isolation and misanthropy and the differing perceptions and experiences of and varying meanings and connotations attributed to them in the ancient world Individual chapters examine a range of ancient contexts in which problems of solitude loneliness isolation and seclusion arose and were discussed and in doing so shed light on some of humankind's fundamental needs fears and values *Critical Distance in Documentary Media* Gerda Cammaer, Blake Fitzpatrick, Bruno Lessard, 2018-10-30 This collection of essays presents new formulations of ideas and practices within documentary media that respond critically to the multifaceted challenges of our age As social media augmented reality and interactive technologies play an increasing role in the documentary landscape new theorizations are needed to account for how such media both represents recent political socio-historical environmental and representational shifts and challenges the predominant approaches by promoting new critical sensibilities The contributions to this volume approach the idea of critical distance in a documentary context and in subjects as diverse as documentary exhibitions night photography drone imagery installation art mobile media nonhuman creative practices sound art and interactive technologies It is essential reading for scholars practitioners and students working in fields such as documentary studies film studies cultural studies contemporary art history and digital media studies Urban Lighting, Light Pollution and Society Josiane Meier, Ute Hasenöhl, Katharina Krause, Merle Pottharst, 2014-10-24

After decades in the shadows urban lighting is re emerging as a matter of public debate Long standing truths are increasingly questioned as a confluence of developments affects lighting itself and the way it is viewed Light has become an integral element of place making and energy saving initiatives alike Rapidly evolving lighting technologies are opening up new possibilities but also posing new challenges to planners and awareness is growing that artificial illumination is not purely benign but can actually constitute a form of pollution As a result public policy frameworks incentives and initiatives are undergoing a phase of innovation and change that will affect how cities are lit for years to come The first comprehensive compilation of current scientific discussions on urban lighting and light pollution from a social science and humanities perspective *Urban Lighting Light Pollution and Society* contributes to an evolving international debate on an increasingly controversial topic The contributions draw a rich panorama of the manifold discourses connected with artificial illumination in the past and present from early attempts to promote new lighting technologies in the late 19th and early 20th centuries to current debates on restricting its excessive usage in public space and the protection of darkness By bringing together a cross section of current findings and debates on urban lighting and light pollution from a wide variety of disciplines it reflects that artificial lighting is multifaceted in its qualities utilisation and interpretation Including case studies from the United States Europe and the UK *Urban Lighting Light Pollution and Society* is one of the first to take a serious assessment of light pollution and places and is a valuable resource for planners policy makers and students in related subjects

Flickering Light Christoph Ribbat, 2013-07-15 Without neon Las Vegas might still be a sleepy desert town in Nevada and Times Square merely another busy intersection in New York City Transformed by the installation of these brightly colored signs these destinations are now world famous representing the vibrant heart of popular culture But for some neon lighting represents the worst of commercialism Energized by the conflicting love and hatred people have for neon *Flickering Light* explores its technological and intellectual history from the discovery of the noble gas in late nineteenth century London to its fading popularity today Christoph Ribbat follows writers artists and musicians from cultural critic Theodor Adorno British rock band the Verve and artist Tracey Emin to Vladimir Nabokov Langston Hughes and American country singers through the neon cities in Europe America and Asia demonstrating how they turned these blinking lights and letters into metaphors of the modern era He examines how gifted craftsmen carefully sculpted neon advertisements introducing elegance to modern metropolises during neon s heyday between the wars followed by its subsequent popularity in Las Vegas during the 1950s and 60s Ribbat ends with a melancholy discussion of neon s decline describing how these glowing signs and installations came to be seen as dated and characteristic of run down neighborhoods From elaborate neon lighting displays to neglected diner signs with unlit letters *Flickering Light* tells the engrossing story of how a glowing tube of gas took over the world and faded almost as
