Time On Our Side Why We All Need A Shorter Working Week:

Time on Our Side Anna Coote, Jane Franklin, 2013 Have you ever wondered why you're so busy where your time goes or how much your time is really worth Authored by leading experts in social economic and environmental sciences this book will radically alter your understanding of the nature and value of time *Inventing the Future* Nick Srnicek, Alex Williams, 2015-10-13 Neoliberalism isn't working Austerity is forcing millions into poverty and many more into precarious work while the left remains trapped in stagnant political practices that offer no respite *Inventing the Future* is a bold new manifesto for life after capitalism Against the confused understanding of our high tech world by both the right and the left this book claims that the emancipatory and future oriented possibilities of our society can be reclaimed Instead of running from a complex future Nick Srnicek and Alex Williams demand a postcapitalist economy capable of advancing standards liberating humanity from work and developing technologies that expand our freedoms This new edition includes a new chapter where they respond to their various critics **The Oxford Handbook of the Welfare State** Daniel Béland, Kimberly J. Morgan, Herbert Obinger, Christopher Pierson, 2021 This second edition is an extensive revision of the first re-written to reflect the change over the past ten years A comprehensive comparative introduction to everything that is important in the contemporary developed welfare state focusing on Western welfare states Book jacket re:generation Europe Floris de Witte, 2019-06-14 This book sets out a vision for another Europe one that cherishes diversity listens to its public and is sensitive to its younger generations It is a call for a re-imagining of the European project as a response to the three biggest crises that the EU has had to endure the Euro zone crash the refugee crisis and Brexit These crises demonstrate a fundamental weakness at the heart of the EU it struggles with making legitimate decisions when member states disagree about how to proceed This book offers a guide out of this mess It discusses how the EU can make better use of the trust between its citizens and how it can reform itself internally so that it can actually listen to those citizens It also offers ten original policy proposals from the scandalously ambitious to the prosaic to show what another Europe could look like Alternatives to Neoliberalism Bryn Jones, Mike O'Donnell, 2017-02-08 In this collection innovative and eminent social and policy analysts including Colin Crouch Anna Coote Grahame Thompson and Ted Benton challenge the failing but still dominant ideology and policies of neo liberalism The editors synthesise contributors ideas into a revised framework for social democracy rooted in feminism environmentalism democratic equality and market accountability to civil society This constructive and stimulating collection will be invaluable for those teaching studying and campaigning for transformative political economic and social policies The New Politics of Home Eleanor Jupp, Sophie Bowlby, Jane Franklin, Sarah Marie Hall, 2019-06-26 Home and care are central aspects of everyday personal lives yet they are also shaped by political and economic change Within a context of austerity economic restructuring worsening inequality and resource rationing the policies and experiences around these key areas are shifting Taking an interdisciplinary and feminist perspective this book

illustrates how economic and political changes affect everyday lives for many families and households in the UK Setting out both new empirical material and new conceptual terrain the authors draw on approaches from human geography social policy and feminist and political theory to explore issues of home and care in times of crisis **Handbook on Growth and Sustainability** Peter A. Victor, Brett Dolter, 2017-06-30 This Handbook assembles original contributions from influential authors such as Herman Daly Paul Ekins Marina Fischer Kowalski Jeroen van den Bergh William E Rees and Tim Jackson who have helped to define our understanding of growth and sustainability The Handbook also presents new contributions on topics such as degrowth the debt based financial system cultural change energy return on investment shorter working hours and employment and innovation and technology Explorations of these issues can deepen our understanding of whether growth is sustainable and in turn whether a move away from growth can be sustained With issues such as climate change looming large our understanding of growth and sustainability is critical This Handbook offers a broad range of perspectives that can help the reader to decide Growth Sustainability Both Or neither *Redefining the Agenda for Social Justice* Francine Mestrum, Meena Menon, 2021-04-24 The book relates three years of history of social movements from Asia and Europe who work on social justice as a rough overview The work for the book is mainly done on the ground day after day working in villages and cities with people and their organisations organising resistance and preparing alternatives It is based on the fact that European and Asian concerns are identical in spite of divergent levels of development and wealth and that the existing international initiatives such as the ILO s social protection floors or the UN s Sustainable Development Goals are perfectly compatible with neoliberal policies The book goes beyond and sees social commons as a strategic tool for transforming societies It is basically a project for the sustainability of life of humans of societies and of nature The book describes the ideas at the basis of the work in different sectors It is not about the practice of social policies but about the ideas and discourses that can in the end shape the political practices In sum this book presents a new social paradigm It concretely shows how social justice and environmental justice do go hand in hand **Social Change and the Coming of Post-consumer Society** Maurie J Cohen, Halina Szejnwald Brown, Philip J Vergragt, 2017-03-31 Consumer society is an unquestionably complex social construct However after decades of unrelenting dominance there are signs emerging that it is starting to falter both as a coherent and durable system of social organization and as a strategy for societal advancement Debates concerning how we can transition beyond present energy and materials intensive consumer society are beginning to gain greater salience Social Change and the Coming of Post Consumer Society aims to develop more complete appreciation of the relevant processes of social change and to identify effective interventions that could enable a transition to supersede consumer society Bringing together leading interdisciplinary experts on social change the book identifies and analyzes several ongoing small and modest scale social experiments Possibilities for macro scale change from the interlinked perspectives of culture economics finance and governance are then explored These contributions expose the systemic

problems that are emblematic of the current condition of consumer society specifically the unsustainability of prevailing consumption practices and lifestyles and the persistence of inequalities These observations are summarized and extended in the final chapter of the book This volume will be of great interest to students and scholars of sustainable consumption sustainability transitions environmental sociology and sustainable development Critical Theory and the Crisis of Contemporary Capitalism Heiko Feldner,Fabio Vighi,2015-04-23 This Critical Theory and Contemporary Society volume reassesses the economic crisis through Marx s theory of the value form as the unconscious matrix of modern society
