Additionally, it describes the language of advanced academic writing with more than 300 real examples from successful graduate students and from published texts including corpora. Each of the eight units in Grammar Choices contains an overview of the grammar topic, a preview test that allows students to assess their control of the target grammar, and teachers to diagnose areas of difficulty, an authentic example of graduate student writing showing the unit grammar in use, clear descriptions of essential grammar structures using the framework of functional grammar, cutting-edge research in applied linguistics and corpus studies, vocabulary relevant to the grammar point, is introduced, for example, common verbs in the passive voice, summary nouns used with this/these and irregular plural nouns, authentic examples for every grammar point from corpora and published texts, exercises for every grammar point that help writers develop grammatical awareness and use, including completing sentences, writing, revising, paraphrasing, and editing, and a section inviting writers to investigate discipline-specific language use and apply it to an academic genre. Among the changes in the Second Edition are new sections on parallel form, Unit 2, and possessives, Unit 5, revised and expanded explanations, but particularly regarding verb complementation, complement noun clauses, passive voice, and stance, engagement, a restructured Unit 2, and significantly revised, updated Unit 7, new Grammar Awareness tasks in Units 3, 5, and 6, new exercises, plus revision, updating of many others, self-editing checklists in the Grammar in Your Discipline sections at the end of each unit, representation of additional academic disciplines, e.g., engineering, management, in example sentences and texts, and in exercises.

The Metaphysics of Dante's Comedy Christian Moevs, 2008-10-13 The recovery of Dante's metaphysics, which are very different from our own, is essential, argues Christian Moevs, if we are to resolve what has been called the central problem in the interpretation of the Comedy. That problem is what to make of the Comedy's claim to the status of revelation, vision, or experiential record as something more than imaginative literature. In this book, Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and the relation between those metaphysics and Dante's poetics. Moevs arrives at the radical conclusion that Dante believed that all of what we perceive as reality, the spatio-temporal world, is in fact a creation or projection of conscious being. Armed with this new understanding
