Unrequited Conquests Roland Greene,1999 Love poetry dominated European literature during the Renaissance Its attitudes conventions and values appeared not only in courtly settings but also in the transatlantic world where cultures were being built power exercised and policies made In this major contribution to our understanding of both the Age of Exploration and early modern lyric Roland Greene argues that love poetry was not simply a reflection of the times but a means of cultural transformation European encounters with the Americas awakened many forms of desire which pervaded the writings of explorers like Columbus and his contemporaries These experiences in turn shaped colonial society in Brazil Peru and elsewhere The New World while it could be explored conquered and exploited could never really be known leaving Europe s desire continually unrequited and the project of empire unfulfilled Using numerous poetic examples and extensive historical documentation **Unrequited Conquests** rewrites the relations between the Renaissance and colonial Latin America and between poetry and history

Sonnet Sequences and Social Distinction in Renaissance England

Christopher Warley,2005-07-28 Why were sonnet sequences popular in Renaissance England In this study Christopher Warley suggests that sonneteers created a vocabulary to describe and to invent new forms of social distinction before an explicit language of social class existed The tensions inherent in the genre between lyric and narrative between sonnet and sequence offered writers a means of reconceptualizing the relation between individuals and society a way to try to come to grips with the broad social transformations taking place at the end of the sixteenth century By stressing the struggle over social classification the book revises studies that have tied the influence of sonnet sequences to either courtly love or to Renaissance individualism Drawing on Marxist aesthetic theory it offers detailed examinations of sequences by Lok Sidney Spenser Shakespeare and Milton It will be valuable to readers interested in Renaissance and genre studies and post Marxist theories of class

Gathering Force: Early Modern British Literature in Transition, 1557-1623: Volume 1 Kristen Poole,Lauren Shohet,2019-01-17 During the sixteenth and early seventeenth centuries England grew from a marginal to a

major European power established overseas settlements and negotiated the Protestant Reformation The population burgeoned and became increasingly urban England also saw the meteoric rise of commercial theatre in London the creation of a vigorous market for printed texts and the emergence of writing as a viable profession Literacy rates exploded and an increasingly diverse audience encountered a profusion of new textual forms Media and literary culture transformed on a scale that would not happen again until television and the Internet The twenty innovative contributions in *Gathering Force* Early Modern Literature in Transition 1557-1623 trace ways that five different genres both spurred and responded to change Chapters explore different facets of lyric poetry romance commercial drama masques and pageants and non narrative prose Exciting and accessible this volume illuminates the dynamic relationships among the period's social political and literary transformations

Cartesian Poetics Andrea Gadberry, 2020-11-10 What is thinking What does it feel like What is it good for Andrea Gadberry looks for answers to these questions in the philosophy of René Descartes and finds them in the philosopher's implicit poetics Gadberry argues that Descartes's thought was crucially enabled by poetry and shows how markers of poetic genres from love lyric and elegy to the puzzling forms of the riddle and the anagram betray an impassioned negotiation with the difficulties of thought and its limits Where others have seen Cartesian philosophy as a triumph of reason Gadberry reveals that the philosopher accused of having slashed poetry's throat instead enlisted poetic form to contain thought's frustrations Gadberry's approach to seventeenth century writings poses questions urgent for the twenty first Bringing literature and philosophy into rich dialogue Gadberry centers close reading as a method uniquely equipped to manage skepticism tolerate critical ambivalence and detect feeling in philosophy Helping us read classic moments of philosophical argumentation in a new light this elegant study also expands outward to redefine thinking in light of its poetic formations

Sacred Seeds Edward McLean Test, 2019-01-01 More than five hundred years after the fact present day writers still use hyperbolic adjectives to describe the discovery of the Americas Columbus's crossing of the Atlantic and the age of exploration that ensued dramatically and forever changed the early modern world The societies economies cultures arts and burgeoning sciences of Europe were quickly transformed by the ongoing encounter with the New World The meeting of the New and the Old Worlds however was more than a meeting of disparate civilizations It was also a confluence of exciting and often surprising associations that continually created new interfaces between materials and knowledge The Western and Eastern Hemispheres brought together by sailing ships for the first time on a large scale helped create the global landscape we take for granted today Central to this formative moment in global history were New World plants The agriculture of indigenous peoples mythically and materially shaped English society and subsequently its literature in new and startling ways *Sacred Seeds* examines New World plants tobacco amaranth guaiacum and the prickly pear cactus and their associated Native myths as they moved across the Atlantic and into English literature Edward McLean Test reinstates the contributions of indigenous peoples to European society charting an alternative cultural history that explores the associations
