Urban Design Paradigm Working Manuscripts:

Urban Design Paradigm Abeer Elshater, 2015-12-02 This book presents six working manuscripts on urban design disciplines. It holds the history of urban design in Western and American literature. It extends to the content analysis of several issues that are tangible with the Egyptian context. The research approaches are discussed to find out contemporary outcomes and theoretical contributions to the discussed topics. Implicitly the objective is to give a line theoretical and practical to reload the Egyptian metropolitan cities. The urban reloading may benefit both the people and the place.

Handbook of Research on Digital Research Methods and Architectural Tools in Urban Planning and Design Abusaada, Hisham, Vellguth, Carsten, Elshater, Abeer, 2019-06-28 The efficient usage investigation and promotion of new methods, tools and technologies within the field of architecture particularly in urban planning and design is becoming more critical as innovation holds the key to cities becoming smarter and ultimately more sustainable. In response to this need, strategies that can potentially yield more realistic results are continually being sought. The *Handbook of Research on Digital Research Methods and Architectural Tools in Urban Planning and Design* is a critical reference source that comprehensively covers the concepts and processes of more than 20 new methods in both planning and design in the field of architecture and aims to explain the ways for researchers to apply these methods in their works. Pairing innovative approaches alongside traditional research methods, the physical dimensions of traditional and new cities are addressed in addition to the non-physical aspects and applied models that are currently under development in new settlements such as sustainable cities, smart cities, creative cities and intercultural cities. Featuring a wide range of topics such as built environment, urban morphology and city information modeling, this book is essential for researchers, academicians, professionals, technology developers, architects, engineers and policymakers.

Knowledge-Based Urban Development in the Middle East Alraouf, Ali A., 2018-03-02 The knowledge economy has become an important part of contemporary development for cities in a time of globalization and expansion. Examining theories of knowledge transfer and urban advancement allows for better adaptation in a changing global society. *Knowledge-Based Urban Development in the Middle East* provides emerging research on the contemporary practices of architecture, urban design and implementation in contemporary Middle Eastern cities. Highlighting a range of pertinent topics such as creative economy, knowledge development and learning communities, this book is an important resource for academics, researchers, practitioners and decision makers seeking current research on the issues and challenges of implementing knowledge-based urban development in Middle Eastern cities.
