Army Mountain Operations Field Manual* U. S. Department of Defense Staff, 2002-04-01 This U S Army field manual FM 3 97 6 describes all aspects of operations in mountainous terrain the physical environment weather effects on personnel and equipment reconnaissance and surveillance firepower and force protection maneuver movement and mobility offensive and defensive operations the use of motti tactics developed by the Finns logistics and combat service support and mountain illnesses and injuries For historical perspective there is a description of the 1987 Satukandav Pass battle in the Soviet Afghan War along with other informative battles The introduction states The US Army has a global area of responsibility and deploys to accomplish missions in both violent and nonviolent environments The contemporary strategic environment and the scope of US commitment dictate that the US Army be prepared for a wide range of contingencies anywhere in the world from the deserts of southwest Asia and the jungles of South America and southeast Asia to the Korean Peninsula and central and northern Europe The multiplicity of possible missions makes the likelihood of US involvement in mountain operations extremely high With approximately 38 percent of the world s landmass classified as mountains the Army must be prepared to deter conflict resist coercion and defeat aggression in mountains as in other areas Throughout the course of history armies have been significantly affected by the requirement to fight in mountains During the 1982 Falkland Islands Malvinas War the first British soldier to set foot on enemy held territory on the island of South Georgia did so on a glacier A 3 000 meter 10 000 foot peak crowns the island and great glaciers descend from the mountain spine In southwest Asia the borders of Iraq Iran and Turkey come together in mountainous terrain with elevations of up to 3 000 meters 10 000 feet Mountainous terrain influenced the outcome of many battles during the Iran Iraq war of the 1980s In the mountains of Kurdistan small Kurdish formations took advantage of the terrain in an attempt to survive the Iraqi Army s attempt to eliminate them In the wake of the successful United Nations UN coalition effort against Iraq US forces provided humanitarian assistance to Kurdish people suffering from the effects of the harsh mountain climate Major mountain ranges which are found in desert regions jungles and cold climate zones present many challenges to military operations Mountain operations may require special equipment
