Writing Taiwan Writing Taiwan:

Written Taiwanese Henning Klöter, 2005 *Written Taiwanese* provides the first comprehensive account of the different ways in which Taiwanese i.e. the Southern Min language of Taiwan has been represented in written sources. The scope of the study ranges from early popular writings in closely related dialects to present day forms of written Taiwanese. The study treats written Taiwanese both as a linguistic and as a socio-political phenomenon. The linguistic description focuses on the interrelation between written units and Taiwanese speech and covers various linguistic subfields such as Taiwanese lexicography, phonology and morphosyntax. The socio-political analysis explores the historical backgrounds which have led to different conventions in writing Taiwanese.

Re-writing Culture in Taiwan Fang-Long Shih, Stuart Thompson, Paul Tremlett, 2008-11-05 This interdisciplinary volume of essays opens new points of departure for thinking about how Taiwan has been studied and represented in the past for reflecting on the current state of Taiwan Studies and for thinking about how Taiwan might be re-configured in the future. As the study of Taiwan shifts from being a provincial backwater of sinology to an area in its own right, a combination of established and up-and-coming scholars working in the field of East Asian studies offer a re-reading and re-writing of culture in Taiwan. They show that sustained critical analysis of contemporary Taiwan using issues such as trauma, memory, history, tradition, modernity, post-modernity provides a useful point of departure for thinking through similar problematics and issues elsewhere in the world. *Re-writing Culture in Taiwan* is a multidisciplinary book with its own distinctive collective voice which will appeal to anyone interested in Taiwan. With chapters on nationalism, anthropology, cultural studies, media studies, religion and museum studies, the breadth of ground covered is truly comprehensive.

Writing Taiwan Dewei Wang, Carlos Rojas, 2007-01-24 This collection is the first volume in English to examine the entire span of modern Taiwanese literature from the first decades of the twentieth century to the present.

Cantonese as Written Language Don Snow, 2004-10-01 *Cantonese* is the only dialect of Chinese which has developed a widely known and used written form. It has played a role in publishing in the Guangdong region since the late Ming dynasty when various types of verses using Cantonese were published as *mu yu shu* (wooden fish books). In the early twentieth century these dialect texts were joined by Cantonese opera scripts published as popular reading material. However, it was only after the end of the Second World War that written Cantonese came to be widely used in popular newspapers and magazines, advertising and in the private communications. *Cantonese as Written Language* examines this development in the broader context of diglossia.

and also of the patterns by which spoken vernaculars have developed written forms in other societies Based on primary source research including interviews with publishers and writers who played an important role in the growth of written Cantonese the author argues that this move of Cantonese into the realm of written language is closely associated with Hong Kong's distinct local culture and identity The growth of the written vernacular also reflects the territory's evolving cultural distinctiveness from mainland China first as a British colony and now as a Special Administrative Region of China

Taiwan Studies Revisited Dafydd Fell, Hsin-Huang Michael Hsiao, 2019-08-28 This book examines and reviews some of the key figures in Taiwan Studies to plot the development of the field by revisiting their earlier influential books and bodies of work Often autobiographical in detail each chapter asks the author to discuss the origins of their research and how their engagement with the field has developed since The contributors then discuss their methodologies fieldwork and arguments as well as how their work was received at the time They also go on to reflect on their chosen methods and core findings assessing whether they have stood the test of time Reflecting the diversity of the Taiwan Studies field subjects covered in this volume include sociology musicology linguistics comparative politics international relations and anthropology As such this comprehensive overview adopts a distinctly interdisciplinary approach to understanding Taiwan Painting a picture of the changing state of international Taiwan Studies through the work of leading scholars this book will be invaluable to students and scholars of Taiwan Studies Chinese Studies and Asian politics culture and society

Colonial Taiwan Pei-yin Lin, 2017-04-03 This book offers a thorough and thought provoking study on the impact of Japanese colonialism on Taiwan's literary production from the 1920s to 1945 It redresses the previous nationalist and Japan centric interpretations of works from Taiwan's Japanese period and eschews a colonizer colonized dichotomy Through a highly sensitive textual analysis and contextual reading this chronologically structured book paints a multi layered picture of colonial Taiwan's literature particularly its multi styled articulations of identities and diverse visions of modernity By engaging critically with current scholarship Lin has written with great sentiment the most complete history of the colonial Taiwanese literary development in English

Urban Modernities in Colonial Korea and Taiwan Jina E. Kim, 2019-05-15 Urban Modernities reconsiders Japanese colonialism in Korea and Taiwan through a relational study of modernist literature and urban aesthetics from the late colonial period By charting intra Asian and transregional circulations of writers ideas and texts it reevaluates the dominant narrative in current scholarship that presents Korea and Taiwan as having vastly different responses to and experiences of Japanese colonialism By comparing representations of various colonial spaces ranging from the nation the streets department stores and print spaces to underscore the shared experiences of the quotidian and the poetic Jina E Kim shows how the culture of urban modernity enlivened networks of connections between the colonies and destabilized the metropole colony relationship thus also contributing to the broader formation of global modernism

Taiwan Literature in the 21st Century Chia-rong Wu, Ming-ju Fan, 2023-02-03 This book is an

Bruce Jacobs, Peter Kang, 2017-08-03 The peoples of Taiwan have been influenced by many different cultures and migrations throughout the island s history In the 20th and early 21st centuries especially it has been a stage for cultural and ethnic conflict not least because of the arrival of mainland Chinese fleeing the Chinese Communist Revolution The subsequent tensions between those who see Taiwan as a natural territory of China and those who would prefer to see it remain independent have brought to the fore questions of what it is to be Taiwanese This book addresses the question of how Taiwanese identities have changed after the Taiwanization process which began in the 1990s It also examines the impact of this process on cross strait relations between Taiwan and the People s Republic of China after the return of the Kuomintang to power after 2008 and the Sunflower movement in 2014 The various contributors between them cover a range of topics including the waves of migration to Taiwan changes of political regimes generational differences and social movements Taken as a whole this book presents a nuanced picture of the patchwork of identities which exist in contemporary Taiwan
