

The following describes how to get the cash register ready to operate. Follow these steps before you use the cash register for the first time.

Before you set up the cash register, prepare three new "AA" batteries which are necessary for memory backup. Find a stable and flat surface not subject to direct radiation, to place the cash register.

1 Initializing the Cash Register

To ensure the cash register operates properly, please use the following procedure:

1. Make sure the power cord is unplugged and batteries are not installed on the register.
2. Insert the manager (M) key into the mode switch and turn it to the REG position.

3. Insert the plug of the power cord into the AC outlet. The buzzer will sound three times.

Important:

This operation must be performed without batteries installed.

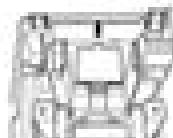

4. The cash register has now been initialized. The register display will show "1.00" with "L" and "C".

2 Installing the Batteries

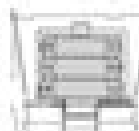

1. Push the printer cover forward and detach it.

2. Open the battery compartment cover next to the paper roll cradle.

3. Install three new "AA" batteries as shown at the right. (Batteries are not supplied with the cash register.) Make sure that positive (+) and negative (-) poles of each battery are properly inserted.

4. When the batteries are properly installed, "L" and "C" on the display will disappear. Close the battery compartment cover.

3 Installing the Paper (for receipt printing)

If you want to use a paper roll for partial printing, please refer to INSTALLING DETACHED section of the instruction manual.

1. Lift up the print roller release lever to unlock and open the print roller arm.

2. Roll a paper roll in the paper roll cradle as illustrated below.

3. Feed the end of the paper along with the paper positioning guides as illustrated at the right.

4. While holding down the paper, slowly close the print roller arm and push down the arm until you hear a click locking the arm. Make sure securely you push down the center of the wing part of the arm as illustrated at the right. The paper will be fed automatically.

5. Cut off the excess paper using the edge of the inner cover, and replace the printer cover. Press the "C" key to move back the paper and comes out of the printer cover and clean paper appears.

NOTE: If the print roller arm is not securely locked, printing is not done right. If this problem occurs, open the arm, and close the arm as instructed above.
