Reading Our Lives William L. Randall, Elizabeth McKim, 2008-06-03. Against the background of Socrates' insight that the unexamined life is not worth living, *Reading Our Lives: The Poetics of Growing Old* investigates the often overlooked inside dimensions of aging. Despite popular portrayals of mid and later life as entailing inevitable decline, this book looks at aging as potentially a process of poesis, a creative endeavor of fashioning meaning from the ever accumulating texts, memories and reflections that constitute our inner worlds. At its center is the conviction that although we are constantly reading our lives to some degree anyway, doing so in a mindful manner is critical to our development in the second half of life. Drawing on research in numerous disciplines affected by the so-called narrative turn, including cognitive psychology, neuroscience and the psychology of aging, authors Randall and McKim articulate a vision of aging that promises to accommodate such time-honored concepts as wisdom and spirituality, one that understands aging as a matter not merely of getting old but of consciously growing old.
