Perspectives of Teaching and Teacher Education in Africa Boadu, Gideon, Odhiambo, George, Marandi, Pegah, 2023-09-25 Teacher education is a known variable that impacts the quality of teaching and schooling, yet while research on practices in teaching and teacher education abound in other contexts, there seems to be no comprehensive reference work on teaching and teacher education in Africa. With Africa and the diaspora boasting rich, diverse political and educational contexts and practices, this gap in knowledge requires that attention be focused on investigating issues that shape the pace, course and direction of teaching and teacher education in these contexts. *Practices and Perspectives of Teaching and Teacher Education in Africa* facilitates scholarly discussions among scholars and practitioners about practices, innovations and future possibilities for educating the next generation of competent students and teachers in Africa. Covering topics such as educational reforms, equity, career progression and curriculum development, this major reference work is ideal for administrators, industry professionals, researchers, academicians, scholars, practitioners, instructors and students.
