years of Washington's life from slave to schoolmaster to the face of southern race relations. In this text, Washington climbs the social ladder through hard manual labor, a decent education, and relationships with great people. Throughout the text, he stresses the importance of education for the black population as a reasonable tactic to ease race relations in the South, particularly in the context of Reconstruction. Booker Taliaferro Washington (April 5, 1856–November 14, 1915) was an American educator, author, orator, and advisor to presidents of the United States. Between 1890 and 1915, Washington was the dominant leader in the African American community. Washington was from the last generation of black American leaders born into slavery and became the leading voice of the former slaves and their descendants. They were newly oppressed in the South by disenfranchisement and the Jim Crow discriminatory laws enacted in the post-Reconstruction Southern states in the late 19th and early 20th centuries. Washington was a key proponent of African American businesses and one of the founders of the National Negro Business League.

Up from Slavery: an Autobiography by Booker T. Washington (Annotated Edition) Booker T. Washington, 2021-06-10. Booker T. Washington (April 18, 1856–November 14, 1915) was an African American educator, leader, author, and orator and was an adviser to several US presidents. He was born into slavery on a plantation in Virginia, remembering, "I cannot recall a single instance during my childhood or early boyhood when our entire family sat down to the table together. On the plantation in Virginia, and even later, meals were gotten to the children very much as dumb animals get theirs: a piece of bread here and a scrap of meat there. He was nine when his family gained their emancipation, and he describes the rejoicing and the apprehension as freed slaves entered a new life. His mother took the family to the free state of West Virginia. The only name he had known was Booker, but at school, when first asked his name by the teacher, he coolly added Washington to be like the other children who had at least two names. This established him on a path of fitting into the white world. In the course of his life, he established the Tuskegee Institute, now Tuskegee University, helped found the National Negro Business League, now eclipsed by the NAACP, and advised several US presidents. Between 1890 and 1915, Washington was the dominant leader in the African American community and of the contemporary Black elite. He established a powerful political and financial network to advance the cause of African Americans through education and business, known as the Tuskegee Machine. *Up from Slavery* chronicles Washington's life from slave to schoolmaster to statesman. It was a best seller when published and for many years thereafter. In it, he writes, "The temptations to enter political life were so alluring that I came very near yielding to them at one time, but I was kept from doing so by the feeling that I would be helping in a more substantial way through a generous education of the hand, head, and heart." *Up from Slavery* Booker T.
