War and Peace graf Leo Tolstoy,1997 The Trainee Coach Handbook Mary Watts,Robert Bor,Ian Florance,2020-11-04

Written by an expert team of authors this handbook is an essential companion for all trainee coaches It guides the reader through the practical skills and knowledge they ll need to successfully complete their training from the coaching relationship and case formulation through to supervision and research to professional issues such as setting up in private practice and working digitally It includes top tips for getting the most out of a coach training and addresses the what to do if questions most frequently asked by trainees Reading Architecture with Freud and Lacan Lorens Holm,2022-09-30

Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses **The Fiction of Doris Lessing** Ratna

Raman,2021-04-30 Doris Lessing 1919 2013 a prolific contemporary author was awarded the Nobel Prize in Literature in 2007 for her life work Examining five decades of Lessing s unique life narrative strategies and the literary traditions that she drew upon and improvised this book highlights her extraordinary significance as a writer of our times and for our times Lessing s fiction and non fiction provide a seminal understanding of the key issues that shaped the twentieth century Autodidactic and keenly interested in the world around her Lessing flagged the problems of racism in Africa the inequity of class in modern England the limitations of white middle class women s movements that overlooked the rights of women

across race and class the marginalisation of individuals the horror of nuclear war and the need for disarmament and the hazardous global expansion in the face of unrelenting technological progress Further she raised the concern of the atomisation of modern families violence and the urgent need for alternate modes of viewing voicing anxieties decades ahead of other contemporary writers Making futuristic projections through innumerable genres of writing such as realistic narratives memoirs diaries and science fiction Lessing examines myth psychoanalysis and Marxist perspectives engaging with a gamut of experiences that have defined modernity and sets up feminist blueprints that challenge atrophying patriarchal hegemonies

Honor in Political and Moral Philosophy Peter Olsthoorn, 2014-12-03 Argues for revitalizing the place of honor in contemporary life In this history of the development of ideas of honor in Western philosophy Peter Olsthoorn examines what honor is how its meaning has changed and whether it can still be of use Political and moral philosophers from Cicero to John Stuart Mill thought that a sense of honor and concern for our reputation could help us to determine the proper thing to do and just as important provide us with the much needed motive to do it Today outside of the military and some other pockets of resistance the notion of honor has become seriously out of date while the term itself has almost disappeared from our moral language Most of us think that people ought to do what is right based on a love for justice rather than from a concern with how we are perceived by others Wide ranging and accessible the book explores the role of honor in not only philosophy but also literature and war to make the case that honor can still play an important role in contemporary life

War & Peace & War Andrew North, 2024-08-01 Andrew North has a deep empathy and understanding for Afghanistan and has seen sides of it both good and horrifying that very few international observers have encountered Rory Stewart By weaving personal stories into a modern history of Afghanistan Andrew North provides a touching and intimate portrait of the country he grew to love His beautiful illustrations add a unique perspective on how war has destroyed or transformed generations of Afghans Lindsey Hilsum In early 2022 veteran journalist Andrew North was kidnapped by the Taliban By the time he found himself imprisoned in a jail cell he had been reporting from Afghanistan for two decades coming to know hundreds of Afghans along the way This book brings together both his and their stories Farzana was banned from attending school as a child but education would take her further than she could have imagined Bilal's dream of becoming a journalist came true but at a cost While Abdul's ambition to become a doctor was thwarted Jahan's prospects transformed radically for the better And in a quiet province the life of a boy called Naqibullah was shattered Witness to both the country's transformation and the mistakes that eventually led to its collapse in War Peace War North vividly evokes a country where foreign powers and internal forces have been on a collision course for over two centuries

Redcoats Stephen Brumwell, 2006-01-09 In the last decade scholarship has highlighted the significance of the Seven Years War for the destiny of Britain's Atlantic empire This major 2001 study offers an important perspective through a vivid and scholarly account of the regular troops at the sharp end of that conflict's bloody and decisive American campaigns Sources are employed to challenge enduring stereotypes regarding both the social composition and military prowess of the redcoats This shows how the humble soldiers who fought from Nova Scotia to Cuba developed a powerful esprit de corps that equipped them to defy savage discipline in defence of their rights It traces the evolution of Britain's American Army from

a feeble conservative and discredited organisation into a tough flexible and innovative force whose victories ultimately won the respect of colonial Americans By providing a voice for these neglected shock troops of empire Redcoats adds flesh and blood to Georgian Britain's sinews of power

The Psychology of War and Peace Fred van Houten, 2013-06-29 Can a Baby Be an Enemy Our world is in a deep prolonged crisis The threat of global nuclear war the chronic condition of local wars the imperilled environment and mass starvation are among the major forms this crisis takes The dangers of massive overkill overexploitation of the environment and overpopulation are well known but surprisingly little has been said about their potential interactions their bearing upon each other If there were to be a nuclear confrontation between today's superpowers it might not take place in today's world but in a far less friendly habitat such as the world may be some decades hence And it need hardly be added that the era of this particular super power configuration may be waning rapidly its place to be taken by other international arrangements not necessarily less threatening To understand and cope with our situation we need correspondingly serious reflection This volume forms a welcome part of that process Unavoidably a large part of our thinking about the issues of human survival must be oriented to physical and biological aspects of the total danger But it has not escaped the authors of this book that coupled with these aspects there are profound psychological dangers such as loss of the sense of futuristic moral deterioration and a fatalistic decline in the will to struggle to protect our home the Earth

International Relations 1890 1941 **War and Peace** graf Leo Tolstoy,1982 Presents the classical epic of the Napoleonic Wars and their effects on four Russian families [What Price the Poor?](#) Ann M. Woodall,2017-05-15 In this fascinating book Ann Woodall investigates and compares the work and thought of William Booth and Karl Marx who both arrived in London in 1849 She draws comparisons between their responses to the intractability of the poverty of the submerged tenth of London s population and argues that Booth s pioneering work in establishing the Salvation Army and the development of Marx s economic theory began in their interactions with the London residuum Each recognised that much of the suffering was caused by the workings of laissez faire capitalism and that its total solution required a challenge to the existing economic system What Price the Poor raises important questions about the relationship between theological discourse and the sociological imagination and it firmly places the development of theoretical and practical social analysis and application within the context of social history It will appeal to all with interests in classical sociology and the history of social activism
