Instruction That Measures Up W. James Popham, 2009-05-26 High stakes testing Mandated content standards and benchmarks Public scrutiny of student and school performance Accountability Teachers today are challenged to provide instruction that will measure up to the expectations of administrators parents and taxpayers to their own professional standards and most essentially to the needs of students Policy debates rage in the press and pedagogical pundits always have a new and better solution to offer but inside the walls of the classroom instruction boils down to teachers deciding what they want their students to learn planning how to promote that learning implementing those plans and then determining if the plans worked And the best instructional decisions are informed by empirical research assessment evidence and the sound judgment of the professional educator In this book W James Popham calls on his half century in the classroom to provide a practical four stage framework for guiding teachers through their most important instructional decisions curriculum determination instructional design instructional monitoring and instructional evaluation Along the way he emphasizes the

critical ways in which assessment can and should influence instruction advocates for a dash of curricular insurrection and offers advice for maintaining both teaching excellence and teachers sanity
