Writing The Stalin Era Sheila Fitzpatrick And Soviet Historiography:

Writing the Stalin Era G. Alexopoulos, J. Hessler, K. Tomoff, 2011-01-03 Covering topics such as the Soviet monopoly over information and communication violence in the gulags and gender relations after World War II this festschrift volume highlights the work and legacy of Sheila Fitzpatrick offers a cross section of some of the best work being done on a critical period of Russia and the Soviet Union *An Analysis of Sheila Fitzpatrick's Everyday Stalinism* Victor Petrov, Riley Quinn, 2017-07-05 Sheila Fitzpatrick's *Everyday Stalinism* rejects the simplistic treatment of the Soviet Union as a totalitarian government that tightly controlled its citizens Debates on Stalinism Mark Edele, 2020-06-11 *Debates on Stalinism* introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled *Debates on Stalinism* allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine Stalinist Society Mark Edele, 2011-02-17 *Stalinist Society* offers a fresh analytical overview of the complex social formation ruled over by Stalin and his henchmen from the late 1920s to the early 1950s Drawing on declassified archival materials interviews with former Soviet citizens old and new memoirs and personal diaries as well as the best of sixty years of scholarship this book offers a non reductionist account of social upheaval and social cohesion in a society marred by violence Combining the perspectives from above and from below the book integrates recent writing on everyday life culture and entertainment ideology and politics terror and welfare consumption and economics Utilizing the latest archival research on the evolution of Soviet society during and after World War II this study also integrates the entire history of Stalinism from the late 1920s to the dictator's death in 1953 Breaking radically with current scholarly consensus Mark Edele shows that it was not ideology terror or state control which held this society together but the harsh realities of making a living in a chaotic economy which the rulers claimed to plan and control but which in fact they could only manage haphazardly Stalinism at War Mark Edele, 2021-09-23 Masterfully told and compellingly reinterpreted *The Moscow Times Stalinism at War* tells the epic story of the Soviet Union in World War Two Starting with Soviet involvement in the war in Asia and ending with a bloody counter insurgency in the borderlands of Ukraine Belarus and the Baltics the Soviet Union's war was both considerably longer and more all encompassing than is sometimes appreciated Here acclaimed scholar Mark Edele explores the complex experiences of both ordinary and extraordinary citizens Russians and Koreans Ukrainians and Jews Lithuanians and Georgians men and women loyal Stalinists and critics of his regime to reveal how the Soviet Union and leadership of a ruthless dictator propelled Allied victory over

Germany and Japan In doing so Edele weaves together material on the society and culture of the wartime years with high level politics and unites the military economic and political history of the Soviet Union with broader popular histories from below The result is an engaging intelligent and authoritative account of the Soviet Union from 1937 to 1949 **James P. Cannon and the Emergence of Trotskyism in the United States, 1928-38** Bryan D. Palmer, 2021-10-25 Bryan D Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book James P Cannon and the Origins of the American Revolutionary Left 1890 1928 2007 with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928 38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism s many degenerations and build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied experience of United States working class militancy and the place of the Comintern affiliated Communist Party within it Sasha Pechersky Selma Leydesdorff, 2017-06-19 Despite leading the only successful prisoner revolt at a World War II death camp Aleksandr Sasha Pechersky never received the public recognition he deserved in his home country of Russia This story of a forgotten hero reveals the tremendous difference in memorial cultures between societies in the West and societies in the former Communist world **Imperial Apocalypse** Joshua A. Sanborn, 2014 A unique study of which uses the collapse of Tsarist Russia and its consequences to argue that the events on the often forgotten Eastern Front of WWI had a stronger impact on the outcome of the war than is usually accepted Practicing Stalinism J. Arch Getty, 2013-08-27 DIV In old Russia patron client relations clan politics and a variety of other informal practices spanned the centuries Government was understood to be patrimonial and personal rather than legal and office holding was far less important than proximity to patrons Working from heretofore unused documents from the Communist archives J Arch Getty shows how these political practices and traditions from old Russia have persisted throughout the twentieth century Soviet Union and down to the present day div DIV div DIV Getty examines a number of case studies of political practices in the Stalin era and after These include cults of personality the transformation of Old Bolsheviks into noble grandees the Communist Party s personnel selection system and the rise of political clans family circles after the 1917 Revolutions Stalin s conflicts with these clans and his eventual destruction of them were key elements of the Great Purges of the 1930s But although Stalin could destroy the competing clans he could not destroy the historically embedded patron client relationship as a final chapter on political practice under Putin shows div

When Sonia Met Boris Anna Shternshis, 2017-01-16 Soviet Jews lived through a record number of traumatic events the Great Terror World War II the Holocaust the Famine of 1947 the Doctors Plot the antisemitic policies of the postwar period and the collapse of the Soviet Union But like millions of other Soviet citizens they married raised children and built careers pursuing life as best as they could in a profoundly hostile environment One of the first scholars to record and analyze oral testimonies of Soviet Jews Anna Shternshis unearths their everyday life and the difficult choices that they were forced to make as a repressed minority living in a totalitarian regime Drawing on nearly 500 interviews with Soviet citizens who were adults by the 1940s When Sonia Met Boris describes both indirect Soviet control mechanisms such as housing policies and unwritten quotas in educational institutions and personal strategies to overcome ignore or even take advantage of those limitations The interviews reveal how ethnicity was rapidly transformed into a negative characteristic almost a disability for Soviet Jewry in the postwar period Ultimately Shternshis shows after decades living in a repressive nominally atheistic state these Jews did manage to retain a complex sense of Jewish identity but one that fully disassociates Jewishness from Judaism and instead associates it with secular society prioritizing chess over Talmud classical music over Hasidic tunes Gracefully weaving together poignant stories intimate reflections and witty anecdotes When Sonia Met Boris traces the unusual contours of contemporary Russian Jewish identity back to its roots

Rethinking the Gulag Alan Barenberg, Emily D. Johnson, 2022-03 The Soviet Gulag was one of the largest most complex and deadliest systems of incarceration in the 20th century What lessons can we learn from its network of labor camps and prisons and exile settlements which stretched across vast geographic expanses included varied institutions and brought together inmates from all the Soviet Union's ethnicities professions and social classes Drawing on a massive body of documentary evidence *Rethinking the Gulag* Identities Sources Legacies explores the Soviet penal system from various disciplinary perspectives Divided into three sections the collection first considers identities the lived experiences of contingents of detainees who have rarely figured in Gulag histories to date such as common criminals and clerics The second section surveys sources to explore the ways new research methods can revolutionize our understanding of the system The third section studies legacies to reveal the aftermath of the Gulag including the folk beliefs and traditions it has inspired and the museums built to memorialize it While all the chapters respond to one another each section also concludes with a reaction by a leading researcher geographer Judith Pallot historian Lynne Viola and cultural historian and literary scholar Alexander Etkind Moving away from grand metaphorical or theoretical models *Rethinking the Gulag* instead unearths the complexities and nuances of experience that represent a primary focus in the new wave of Gulag studies

Iconic Places in Central Asia Jeanne Féaux de la Croix, 2016-12-15 Jeanne Féaux de la Croix maps three iconic places as part of Central Asians' moral geographies and examines their role in navigating socialist neo liberal and neo Islamic life models Dams provide most of Kyrgyzstan's electricity but are also at the heart of regional water disputes that threaten an already shrinking Aral Sea Mountain pastures cover much of Central Asia's

heartland and offer a livelihood and refuge even to urban citizens Pilgrimage sites have recovered from official Soviet oblivion and act as cherished scenes of decision making Examining how iconic places work and well being can mesh together this book moves debates about post Soviet memory space and property onto fresh terrain **My Father's Daughter** Sheila Fitzpatrick, 2014-09-12 How does a daughter tell the story of her father Sheila Fitzpatrick was taught from an early age to question authority She learnt it from her father the journalist and radical historian Brian Fitzpatrick But very soon she began to turn her questioning gaze on him Teasing apart the many layers of memory Fitzpatrick reveals a complex portrait of an Australian family against a Cold War backdrop As her relationship with her father fades from girlhood adoration to adolescent scepticism she flees Melbourne for Oxford to start a new life But it s not so easy to escape being her father s daughter *My Father s Daughter* is a vivid evocation of an Australian childhood a personal memoir told with the piercing insight of a historian **Legalism** Georgy Kantor, Tom Lambert, Hannah Skoda, 2017-12-08 In this volume ownership is defined as the simple fact of being able to describe something as mine or yours and property is distinguished as the discursive field which allows the articulation of attendant rights relationships and obligations Property is often articulated through legalism as a way of thinking that appeals to rules and to generalizing concepts as a way of understanding responding to and managing the world around one An Aristotelian perspective suggests that ownership is the natural state of things and a prerequisite of a true sense of self An alternative perspective from legal theory puts law at the heart of the origins of property However both these points of view are problematic in a wider context the latter because it rests heavily on Roman law Anthropological and historical studies enable us to interrogate these assumptions The articles here ranging from Roman provinces to modern day piracy in Somalia address questions such as How are legal property regimes intertwined with economic moral ethical and political prerogatives How far do the assumptions of the western philosophical tradition explain property and ownership in other societies Is the bundle of rights a useful way to think about property How does legalism negotiate property relationships and interests between communities and individuals How does the legalism of property respond to the temporalities and materialities of the objects owned How are property regimes managed by states and what kinds of conflicts are thus generated Property and ownership cannot be reduced to natural rights nor do they straightforwardly reflect power relations the rules through which property is articulated tend to be conceptually subtle As the fourth volume in the Legalism series this collection draws on common themes that run throughout the first three volumes Legalism Anthropology and History Legalism Community and Justice and Legalism Rules and Categories consolidating them in a framework that suggests a new approach to legal concepts *Soviet and Muslim* Eren Tasar, 2017-11-01 Central Asia was the sole Muslim region of the former Russian Empire that lacked a centralized Islamic organization or muftiate When Soviet leader Joseph Stalin created such a body for the region as part of his religious reforms during World War II he acknowledged that the Muslim faith could enjoy some legal protection under Communist rule From a skeletal and

disorganized body run by one family of Islamic scholars out of a modest house in Tashkent's old city this muftiate acquired great political importance in the eyes of Soviet policymakers and equally significant symbolic significance for many Muslims Relying on recently declassified Central Asian archival sources most of them never seen before by historians Eren Tasar argues that Islam did not merely survive the decades from World War II until the Soviet collapse in 1991 but actively shaped the political and social context of Soviet Central Asia Muslim figures institutions and practices evolved in response to the social and political reality of Communist rule Through an analysis that spans all aspects of Islam under Soviet rule from debates about religion inside the Communist Party to the muftiate's efforts to acquire control over mosques across Central Asia changes in Islamic practices and dogma and overseas propaganda targeting the Islamic World Soviet and Muslim offers a radical new reading of Islam's resilience and evolution under atheism *Useful Bullshit* Neil J. Diamant, 2022-01-15 In *Useful Bullshit* Neil J. Diamant pulls back the curtain on early constitutional conversations between citizens and officials in the PRC Scholars have argued that China like the former USSR promulgated constitutions to enhance its domestic and international legitimacy by opening up the constitution making process to ordinary people and by granting its citizens political and socioeconomic rights But what did ordinary officials and people say about their constitutions and rights Did constitutions contribute to state legitimacy Over the course of four decades the PRC government encouraged millions of citizens to pose questions about and suggest revisions to the draft of a new constitution Seizing this opportunity people asked both straightforward questions like what is a state but also others that through implication harshly criticized the document and the government that sponsored it They pressed officials to clarify the meaning of words phrases and ideas in the constitution proposing numerous revisions Despite many considering the document bullshit successive PRC governments have promulgated it amending the constitution debating it at length and even inaugurating a Constitution Day Drawing upon a wealth of archival sources from the Maoist and reform eras Diamant deals with all facets of this constitutional discussion as well as its afterlives in the late 50s the Cultural Revolution and the post Mao era *Useful Bullshit* illuminates how the Chinese government understands and makes use of the constitution as a political document and how a vast array of citizens police workers university students women and members of different ethnic and religious groups have responded *Illness and Inhumanity in Stalin's Gulag* Golfo Alexopoulos, 2017-01-01 Cover Title Copyright Contents Acknowledgments A Note on Archives and Language Map of Locations of Forced Labor Camps and Colonies during the Stalin Years Introduction Exploiting Human Raw Material 1 Food Whoever Does Not Work Shall Not Eat 2 Prisoners The Contingent 3 Health Physical Labor Capability 4 Illness and Mortality Lost Labor Days 5 Invalids Inferior Workforce 6 Releases Unloading the Ballast 7 Power We Are Not Doctors but Delousers 8 Selection The More and Less Valuable Human Element 9 Exploitation Labor Utilization Epilogue Deaths and Deceptions Notes Index A B C D E F G H I J K L M N O P R S T U V W Y **The origins of the First World War**, 2024-07-30 Annika Mombauer's essential source reader translates cross references and annotates a

vast range of international diplomatic and military documents on the origins of the First World War It collects together documents which are newly discovered or were not previously available in English drawn from a broad range of sources and countries into a single indispensable text for students and scholars alike The volume includes a detailed scholarly introduction which analyses the most controversial issues in the debate on the origins of the War and provides a comprehensive overview of the history of document collections on the war s origins The documents cover the period 1911-14 with particular emphasis on the July Crisis and immediate outbreak of war Thoroughly cross referenced and annotated these fascinating sources are presented with authoritative commentary enabling readers to make connections between the documents to illuminate how the decisions for war were taken and why This will be an invaluable resource for anyone studying or teaching the origins of the First World War

Criminal Subculture in the Gulag Mark Vincent, 2020-05-14 Despite growing academic interest in the Gulag our knowledge of the camps as a lived experience remains relatively incomplete Criminal Subculture in the Gulag in its sophisticated analysis of crime punishment and everyday life in Soviet labour camps rectifies this From Gulag journals and song collections to tattoo drawings and dictionaries of slang Mark Vincent draws on often overlooked archival material from the Moscow Criminological Bureau to reconstruct a fuller picture of Gulag daily life and society In thematic chapters Vincent maps the Gulag penal arc of prisoners across initiation tests means of communication the importance of card playing punishment rituals and the notorious 1948 52 cyka bitches internal prison war between military veterans and vory v zakone Most importantly this timely examination of crime and punishment in modern Russia also highlights the lines of continuity between the Gulag systems late Imperial Katorga and today s Russian mafia As such this impressively interdisciplinary volume is important reading for all scholars of 20th century Russia as well as those interested in international criminality and penology

A Jew in the Street Nancy Sinkoff, Jonathan Karp, James Loeffler, Howard Lupovitch, 2024-06-25 These investigations illuminate the entangled experiences of Jews who sought to balance the pull of communal religious and linguistic traditions with the demands and allure of full participation in European life

The Enigmatic Realm of **Writing The Stalin Era Sheila Fitzpatrick And Soviet Historiography**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Writing The Stalin Era Sheila Fitzpatrick And Soviet Historiography** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of those who partake in its reading experience.
