Theme Units On Penguins For Common Core:

Creating Vibrant Art Lesson Plans Kristin Baxter, 2019 Writing lesson plans is often considered busywork but it can be a useful path for discovering what's important about artmaking and teaching. This book shows teachers how to slow down, breathe, and linger over the process of unit and lesson plan writing to uncover how much this process can support them professionally, creatively, and personally. The user-friendly text offers guidance for selecting an art project for the unit and then zooms into the nitty-gritty of specific lesson plans, including how to identify materials for a project and how to construct classroom dialogue to help students develop ideas for their artwork. The text also considers standards, assessments, and extensions to other subject areas. Featuring accessible language, clear definitions, practical examples, and self-reflection prompts, this unique resource will help pre and inservice teachers create lesson plans that are useful to their specific contexts and methods of teaching. If you happen to be feeling weary, frustrated, or uninspired, this book sparks imagination, fuels hope, and gives you theories to support what you know needs to be done. From the Foreword by P. Bruce Uhrmacher, Christy McConnell, Moroye, and Bradley Conrad, educational researchers. Baxter invites us to slow down and consider the lesson plan as a creative catalyst to inspire our own artmaking, as well as a space to examine why and what we teach. Lisa Hochtritt, Maryland Institute College of Art. An inspiring and playful resource that is much more rewarding than typical lesson planning. It will surely spark your imagination with every flip of the page. Hailey Adlard, art educator, Parkland School District, PA.

Closer Reading, Grades 3-6 Nancy Boyles, 2014-02-19 Close, Closer, Closest, Close Reading. Not in a very long while has a term been freighted with so much responsibility to lead every student to a great future of college and career readiness. Finally, here's a book that tunes out all of the hubbub and gets down to the business of showing how exactly to get close reading right. Chapter by chapter, Nancy Boyles delivers astoundingly practical ideas on how to connect close reading with other instructional practices. Select rich texts and plan for initial close reading lessons. Deliver initial and follow-up close reading lessons. Coordinate comprehension strategies and close reading. **Perfect Pairs, 3-5** Melissa Stewart, Nancy Chesley, 2023-10-10 Hands-on lessons can be fun and compelling, but when it comes to life science, they aren't always possible, practical, effective, or safe. Children can't follow wolves as they hunt elk, visit a prehistoric swamp, or shrink down to the size of a molecule and observe photosynthesis firsthand. But they can explore a whole world of animals, plants, and ecosystems through the pages of beautifully illustrated science-themed picture books. **Perfect Pairs**, which marries fiction and nonfiction picture books focused on life science, helps educators think about and teach life science in a whole new way. Each of the twenty lessons in this book is built around a pair of books that introduces a critical life science concept and guides students through an inquiry-based investigative process to explore that idea from life cycles and animal environment interactions to the inheritance of traits and the critical role of energy in our world. Each lesson starts with a Wonder Statement and comprises three stages. **Engaging Students** features a hands-on activity that captures student interest, uncovers current

thinking and generates vocabulary The heart of the investigative process Exploring with Students spotlights the paired books as the teacher reads aloud and helps students find and organize information into data tables Encouraging Students to Draw Conclusions shows students how to review and analyze the information they have collected Bringing high quality science themed picture books into the classroom engages a broad range of students addresses the Performance Expectations outlined in the Next Generation Science Standards and supports the goals of the Common Core State Standards for English Language Arts Even if you are science shy Perfect Pairs can help you become a more confident teacher whose classroom buzzes with curious students eager to explore their natural world *Children at the Center* Betty Bardige, Megina

Baker, Ben Mardell, 2021-03-09 *Children at the Center* provides a closely observed account of a decade long effort to reshape the scope direction and quality of the Boston Public Schools early childhood programs Drawing on multiple perspectives and voices from the field the authors highlight the reflective collaborative inquiry driven approach undertaken by the program and share lessons learned Boston Public Schools are recognized for embedding high quality public preK programs in their system and achieving exceptional results In this book the authors outline the core principles that underlie the district's early childhood programs and explore the role of curriculum professional development coaching and data use in supporting these new initiatives They show how the Boston Public Schools Department of Early Childhood was able to work with and against the constraints of the current accountability system to create a holistic child centered play based program that has had a significant impact in narrowing income based learning gaps Written in collaboration with the Department of Early Childhood Education this account of creating successful preK programs in a diverse urban district will provide a valuable resource for practitioners engaged in similar work across the country **Social Justice Instruction** Rosemary Papa, Danielle M.
