Then Deluge Comes Generations 2:

The Prophet Isaiah Carl Wilhelm Eduard Nagelsbach, 2007-05-01 Presented here in paperback for the first time is John Peter Lange's Theologisch-homiletisches Bibelwerk. Intended to help preachers prepare sermons, the commentary series is essentially biblical and evangelical catholic. This 19th century commentary has served as a standard reference for more than a century. Many early reviewers regarded Schaff's edition with his additional material as superior to the original. It has proven to be a complete and useful Commentary and continues to prove especially valuable to ministers. It contains critical annotations of the text and its translation and a threefold commentary: exegetical, doctrinal, and homiletical. Under these three heads, the text is viewed from every aspect.

Dust of the Ground and Breath of Life (Gen 2:7) - The Problem of a Dualistic Anthropology in Early Judaism and Christianity J.T.A.G.M. van Ruiten, George van Kooten, 2016-09-27 Issues such as the immortality of the soul, the debate about matter versus life, and whether one was capable of knowing the outside world were all being extensively discussed in many religions and cultures in both East and West. The present volume addresses the concept of an immortal soul in a mortal body and focuses on early Judaism and Christianity, where this issue is often related to the initial chapters of the book of Genesis. The papers are devoted to the interpretation of Gen 2:7 in relation to the broader issue of dualistic anthropology. They show that the dualism was questioned in different ways within the context of early Judaism and Christianity.

The City of God - Volume 2 Bishop of Hippo Saint Augustine, 2022-05-10 The City of God is a book of Christian philosophy written in Latin by Augustine of Hippo in the early 5th century AD. The book was in response to allegations that Christianity brought about the decline of Rome and is considered one of Augustine's most important works standing alongside The Confessions, The Enchiridion, On Christian Doctrine, and On the Trinity. As a work of one of the most influential Church Fathers, The City of God is a cornerstone of Western thought, expounding on many profound questions of theology such as the suffering of the righteous, the existence of evil, the conflict between free will and divine omniscience, and the doctrine of original sin.
