Snoek, Michael Stausberg, 2018-08-14 Volume one of Theorizing Rituals assembles 34 leading scholars from various countries and disciplines working within this field. The authors review main methodological and meta-theoretical problems part I followed by some of the classical issues part II. Further chapters discuss main approaches to theorizing rituals part III and explore some key analytical concepts for theorizing rituals part IV. The volume is provided with extensive indices. **Theorizing Rituals** Jens Kreinath, Michael Stausberg, 2006 Volume two of Theorizing Rituals mainly consists of an annotated bibliography of more than 400 items covering those books, edited volumes and essays that are considered most relevant for the field of ritual theory. Instead of proposing yet another theory of ritual, the bibliography is a comprehensive monument documenting four decades of theorizing rituals. **Theorizing Rituals** Jens Kreinath, Joannes Augustinus Maria Snoek, Michael Stausberg, 2006 Theorizing Rituals underlines the importance of theory for ritual studies. It focuses on theoretical problems involved and has the ambition to illustrate the state of the art as well as to strengthen some new perspectives in this field of research. *Theorizing Rituals, Volume 2: Annotated Bibliography of Ritual Theory, 1966-2005* Jens Kreinath, J.A.M. perspectives but until recently ritual has been a neglected topic. *Ritual and Christian Beginnings: A Socio Cognitive Analysis* argues that ritual theory is indispensable for the study of Christian beginnings. It also makes a strong case for the application of theories and insights from the Cognitive Science of Religion, a field that has established itself as a vigorous movement in Religious Studies over the past two decades. Risto Uro develops a socio cognitive approach to the study of early Christian rituals seeking to integrate a social level analysis with findings from the cognitive and evolutionary sciences. *Ritual and Christian Beginnings* provides an overview of how ritual has been approached in previous scholarship including reasons for its neglect and introduces the reader to the emerging fields of Ritual Studies and the Cognitive Science of Religion. In particular it explores the ways in which cognitive theories of ritual can shed new light on issues discussed by early Christian scholars and opens up new questions and avenues for further research. The socio cognitive approach to ritual is applied to a number of test cases including John the Baptist, the ritual healing practiced by Jesus and the early Christians, the social life of Pauline Christianity and the development of early Christian baptismal practices. The analysis creates building blocks for a new account of Christian beginnings highlighting the role of ritual innovation, cooperative signalling and the importance of bodily actions for the generation and transmission of religious knowledge.

The Palgrave Handbook of Anthropological Ritual Studies Pamela J. Stewart, Andrew J. Strathern, 2021-08-24. Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established, bridging over a number of humanities and social science disciplines. Both connected with religious studies and independent of it, overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education. Ritual Studies has come to encompass studies of change and dynamism in social life. Rituals are determinate in form but not static. They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners. Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual. Bringing together recent ethnographies of ritual practice and ritualization from across the globe, this Handbook provides a case study of ritual in the light of Emotion and Cognition, Identity, Religious Power, Performance and Literature, Ecology and Ecological Disaster, Media and other topics. While each chapter provides a deep ethnography of a specific society, ritual or ritualized practice, each also engages with current theoretical and substantive approaches to the relevant topic. The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex, varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future.

Vedic Practice, Ritual Studies and Jaimini's Mīmāṃsāsūtras Samuel G. Ngaihte, 2019-06-27. Drawing on insights from Indian intellectual tradition, this book examines the conception of dharma by Jaimini in his *Mīmāṃsāsūtras*, assessing its contemporary relevance particularly within ritual scholarship. Presenting a

hermeneutical re reading of the text it investigates the theme of the relationship between subjectivity and tradition in the discussion of dharma bringing it into conversation with contemporary discourses on ritual The primary argument offered is that Jaimini s conception of dharma can be read as a philosophy of Vedic practice centred on the enjoinder of the subject whose stages of transformation possess the structure of a hermeneutic tradition Offering both substantive and methodological insights into the contentions within the contemporary study of ritual this book will be of interest to researchers in the fields of Hindu studies ritual studies Asian religion and South Asian studies When Rituals Go Wrong Ute Hüsken,2007 This volume investigates the implications of breaking ritual rules of failed performances and of the extinction of ritual systems The essays thus break new ground in the comparative analysis of rituals and introduce new perspectives to ritual studies **The Dead Sea Scrolls in Ancient Media Culture** ,2023-02-13 Media studies is an emerging discipline that is quickly making an impact within the wider field of biblical scholarship This volume is designed to evaluate the status quaestionis of the Dead Sea Scrolls as products of an ancient media culture with leading scholars in the Dead Sea Scrolls and related disciplines reviewing how scholarship has addressed issues of ancient media in the past assessing the use of media criticism in current research and outlining potential directions for future discussions *Journal of Ritual Studies* ,2003 **Interpreting ancient egyptian narratives** ,2015-04-08 In Interpreting Ancient Egyptian Narratives Martin Pehal applies structural analysis to four New Kingdom narrative compositions The study explains the strong configurational character of ancient Egyptian mythological thought which has the ability to connect various ontological levels of human experience with the surrounding world into complex synchronic structures These symbolical systems are shown to be mediating between the various cultural paradoxes which were inherent to ancient Egyptian society **Theories of Myth: Ritual and myth** Robert Alan Segal,1966 *The Interrelatedness of Music, Religion, and Ritual in African Performance Practice* Daniel Kodzo Avorgbedor,2003 This work presents critical perspectives on the dynamic configurations of music religion indigenous Islam Christian and ritual in contemporary African societies Examples show issues and processes of accommodation and the construction of religious and ethnic identities **The Dynamics of Changing Rituals** Jens Kreinath,Annette Deschner,2004 Most ritual participants claim that their rituals have been the same since time immemorial Citing recent research in ritual studies this book illustrates how on the contrary rituals are often subject to dynamic changes When do rituals change When is the change accidental and when is it on purpose Are certain kinds of rituals more stable or unstable than others Which elements of rituals are liable to change and which are relatively stable Who has the power to change rituals Who decides to accept a change or not The Dynamics of Changing Rituals attempts to address these questions within this new field of ritual studies **The Archaeology of Ritual** Evangelos Kyriakidis,2007 This book is the fruit of the third Cotsen Advanced Seminar conducted at UCLA A wide spectrum of scholars historians art historians anthropologists students of performance students of religion archaeologists cognitive scientists and

linguists were all asked to think and comment on how ritual can be traced in archaeology and which ways ritual research can go in that discipline The product is a fairly accurate representation of research on ritual and the archaeology of ritual scholars from various disciplines backgrounds and agendas arguing mostly in the most logical fashion yet with little agreement between them So this book should not be seen as presenting one unified attitude towards ritual and its study in archaeology It should rather be seen as a reflection of what the discourse in the archaeology of ritual is today The outcome has been extremely thought provoking often controversial but always of extremely high quality
