officials do not want you to know 1 Politics is not complicated 2 Only four basic political philosophies exist 3 Politics is entirely about you Fundamental political concepts introduced in Part One are used to develop four political philosophies There are only four Part Two uses both trivial and controversial issues to illustrate the application of the political concepts of Part One Part Three will illustrate the power of the political concepts presented and will further clarify how politics is utilized to change the structure of society The Epilog is both a commentary and a test The test is not to determine whether you agree or disagree with the Authors commentary The test is to determine for yourself whether you now understand why you agree or disagree The Political Primer will have accomplished its goal if you know why You will have become politically astute There are four possible future worlds Which one do you want to build
