Ethnonationalism, and Antisemitism in the Era of the Two World Wars Kevin P. Spicer,Rebecca Carter-Chand,2022-01-15 In the wake of the devastating First World War leaders of the victorious powers reconfigured the European continent resulting in new understandings of nation state and citizenship Religious identity symbols and practice became tools for politicians and church leaders alike to appropriate as instruments to define national belonging often to the detriment of those outside the faith tradition Religion Ethnonationalism and Antisemitism in the Era of the Two World Wars places the interaction between religion and ethnonationalism a particular articulation of nationalism based upon an imagined ethnic community at the centre of its analysis offering a new lens through which to analyze how nationalism ethnicity and race became markers of inclusion and exclusion Those who did not embrace the same ethnonationalist vision faced ostracization and persecution with Jews experiencing pervasive exclusion and violence as centuries of antisemitic Christian rhetoric intertwined with right wing nationalist extremism The thread of antisemitism as a manifestation of ethnonationalism is woven through each of the essays along with the ways in which individuals sought to critique religious ethnonationalism
