The Traveling Wonder Show H. Blake Hollon,2013-05-01 THE TRAVELING WONDER SHOW centers on Marcus Hughes once the world s greatest practitioner of magic not a hack like Houdini but the kind of magician who can pull a quarter out of your ear from across the room Along with his partner Guy Bertreaux Hughes once had the most popular stage show on Earth and the love of his life in the act s assistant Paulina Wexler But in 1940 after the practice of magic was made illegal in America and both Guy and Paulina disappeared under mysterious circumstances Marcus Hughes went into seclusion for almost fifty years to avoid prison Now on November 18 1985 CBS Chicago s lead news anchor Stanton Rivers has found Hughes and baited the legend out of hiding for a live two hour interview certain to be the television event of the century With secrets kept on both sides the night unfolds as a battle of wits between two men desperate to find out the truth

Rhetoric and Wonder in English Travel Writing, 1560-1613 Jonathan P.A. Sell, 2020-07-24 Rhetoric and Wonder in English Travel Writing 1560 1613 shows how rhetorical invention elocution and ethos combined to create plausible representations by generating intellectual and emotional significances which meaningful in consensual terms were consensually true However some traveller writers betrayed an unease with such representation rooted as it was in a metaphorical epistemology out of kilter with an increasingly empiricist age This book throws new light onto the episteme shift that ushered in modernity with its distrust of metaphor in particular and rhetoric s wordish descriptions in general In response to the empirical desiderata of scientific rationalism traveller writers textually or physically made their own bodies available as evidence of their encounters with wonder thus transforming themselves into wonderful objects The irony is that far from dispensing with rhetoric they merely put the accent on its more dramatic arts of gesture and action The body s evidence could still be doctored but its illusory truths were better able to satisfy the empirical demand for ocular proof The author s main purposes here are to complement and sometimes counter recent work on early modern travel literature by concentrating on its use of rhetoric to communicate meaning and to suggest how familiarity with the workings of rhetoric and its communicative and epistemological premises may enhance readings of early modern English literature generally

Egan, Annabella I. Cant, Gillian Judson, 2013-07-24 For many children much of the time their experience in classrooms can be rather dull and yet the world the school is supposed to initiate children into is full of wonder This book offers a rich understanding of the nature and roles of wonder in general and provides multiple suggestions for to how to revive wonder in adults teachers and curriculum makers and how to keep it alive in children Its aim is to show that adequate education needs to take seriously the task of evoking wonder about the content of the curriculum and to show how this can routinely be done in everyday classrooms The authors do not wax flowery they present strong arguments based on either research or precisely described experience and demonstrate how this argument can be seen to work itself out in daily practice The emphasis is not on ways of evoking wonder that might require virtuoso teaching but rather on how wonder can be evoked about the everyday features of the math or science or social studies curriculum in regular classrooms
