The Trestle At Pope Lick Creek:

The Trestle at Pope Lick Creek Naomi Wallace, 2001 Dalton Chance fifteen years old and an open book Pace Creagan seventeen brimful of adventure fearless and feared To Dalton she s irresistible To Pace he s a challenge The Trestle at Pope Lick Creek is a beautiful and haunting play A coming of age story with a wicked twist it reaches into the depths of a nation and asks what lies beneath The Trestle at Pope Lick Creek received its European premi re at the Traverse Theatre Edinburgh in February 2001 **The Trestle at Pope Lick Creek** Aaron J. Schmookler, 2009 [A PRINCIPLED PRACTICE](#) Amy

Shoshana Blumberg, 2018 In this thesis I explore the ways in which my artistic political and personal values led me to propose Naomi Wallace s THE TRESTLE AT POPE LICK CREEK as my thesis in order to both reflect and enact what I believe in and also to respond to the dearth of those principles within the Theater Department I address how those same ethics subsequently informed every facet of my direction of and programming around the play Through the dual lenses of activating my values and my technical growth as a director I analyze the what and how of my work on TRESTLE the what being the artistic substance of what I was aiming to create and the how being my methods of engaging in the work Ultimately I assess the major takeaways from my experiences in Temple s MFA program in Theater Directing overall highlighting the major lessons I will take with me into my career *War on the Human* Konstantinos Blatanis, Theodora Tsimpouki, 2017-05-11 The essays in this collection explore the question of the human both as a contested concept and as it relates to and functions within the wider global conjuncture The authors explore the theoretical underpinnings of the term human inviting the reader to reflect upon the contemporary human condition to identify opportunities and threats in the changes ahead and to determine what aspects of our species we should abandon or strive to maintain The volume approaches these ideas from a myriad of perspectives but the authors are united in their abstention from rejecting humanism outright or indeed fully endorsing posthumanism s teleological narrative of accelerated progress and perfectability Instead the authors argue that the term human itself is better understood as a concept perpetually undergoing revision and is necessarily subject to scrutiny The contributors here are thus concerned with investigating the following questions What does it mean to be human or to have a self What is the current place or status of the human in the contemporary world As technology is increasingly used to modify our bodies and minds to what extent should we alter and how can we improve our very understanding of human nature The authors contend that literature is the art form best placed to answer these questions In its dynamism and discursiveness literature has the capacity to both reflect dominant discourses and ideologies as well as to generate and even anticipate social change to critique and refine conventional ideas and existing cultural modes and to envision new possibilities for the future The human and its literary representation in other words are inherently intertwined **Empathy as Dialogue in Theatre and Performance** Lindsay B. Cummings, 2016-07-12 Empathy has provoked equal measures of excitement and controversy in recent years For some empathy is crucial to understanding others helping us bridge social and

cultural differences For others empathy is nothing but a misguided assumption of access to the minds of others In this book Cummings argues that empathy comes in many forms some helpful to understanding others and some detrimental Tracing empathy s genealogy through aesthetic theory philosophy psychology and performance theory Cummings illustrates how theatre artists and scholars have often overlooked the dynamic potential of empathy by focusing on its more monologic forms in which spectators either project their point of view onto characters or passively identify with them This book therefore explores how empathy is most effective when it functions as a dialogue along with how theatre and performance can utilise the live emergent exchange between bodies in space to encourage more dynamic dialogic encounters between performers and audience
