The Twelve Sacred Principles Of Karma:

The Twelve Sacred Principles of Karma Steven L. Hairfield, 2009-06 Taking in a sweeping introspection from the abusive beginnings of my childhood to my military deployment into Vietnam to my incredible sojourn in the Far East I fully realized that my journey was set in motion at the very moment of my birth This is absolutely remarkable Who would have figured out that from my early experiences with my father I would come to honor and thank him for all what he had given me Who would have known that I would meet my first teacher a Zen Master living close to a war torn village who would guide me to follow my intuitive senses Who had pre planned and planted the urge for me to fly to India of all places so I could meet my Master Teachers and walk the path of the Master Christ all the while teaching me to interact with consciousness to utilize meditation and to fully understand Karma Admit it now if not Karma did you plan all this for me Individual life is such a truly wondrous gift such a perfect tool to use as our body of perfection moves forward and evolves throughout its journey I have had the opportunity to study with the most magnificent people ever placed in this world Tibetan Monks My life began from very difficult beginnings which ultimately led me to the halls of monasteries in the Far East to learn the truths of life These truths are now being shared with you in the pages of this book They contain not only the information on Karma but also to the way they are taught Some of these stories are very humorous in the techniques which were used by my teachers The words contained within the pages are to enlighten and to empower you in all that you do I had the wonderful opportunity to study the Tibetan Buddhist path to full consciousness in this life and it is my humble desire to share that knowledge with you Many years have passed since my sojourn in the Far East but the knowledge is more ingrained in me today than when originally taught I have since traveled the halls of academia until achieving my Ph D and know that academia is not able to teach a person who they truly are along with the magnificence of being human It is my desire today through writing seminars and interacting with people to get them to reach for their own divine nature Read more at [www innercirclepublishing com](http://www.innercirclepublishing.com) or [www hairfield com](http://www.hairfield.com)

The Science and Practice of Humility Jason Gregory, 2014-10-09 Humility being open and receptive to all experience is the key to becoming one with the spontaneous patterns of the universe Integrates classic teachings of Hinduism and Buddhism with principles of quantum physics to reveal the science of the enlightened masters Reveals how we are each capable of shifting from the aggressive path of the warrior to the humble path of the sage Explains how the key to catching the current acceleration of conscious evolution is humility From Krishna and Lao tzu to Buddha and Jesus each enlightened master discovered how being receptive to all experience was the key to becoming one with the universe and its spontaneous patterns of order and chaos Revealing humility as the purest expression of this receptivity Jason Gregory integrates classic teachings of Hinduism Buddhism Taoism and Hermeticism with principles from quantum physics to explain the science of humility as practiced by the ancient masters The author shows how driven by fear the human mind creates the ego In its greedy and arrogant quest to protect the self and its desires the ego forges the illusion of separation weaving

complex patterns of reality that shield us from our unity with all beings and result in attitudes of aggression selfishness and competition He reveals how the iconic clash between this complex aggressive path of the warrior and the simple path of the sage is reflected in the polarized state of the modern world Yet this state also reflects the accelerating wave of conscious evolution we are now experiencing The key to catching this evolutionary wave is humility the reversal of complexity into simplicity the ancient science of mental alchemy that represents the Great Work of Eternity

The Image Maker Avis Cole Attaway LMFT, 2018-07-03 We all begin life with dreams We believe in magic like Santa Claus and the Tooth Fairy Nothing seems to be out of our reach Over time however we learn differently We are told to stop dreaming and to get our head out of the clouds We are told that if we want something we just need to work hard for it But even with hard work and persistence those things we desire often remain elusive and just out of reach We try to think positively and still nothing changes Life begins to feel like something that appears to work for others but not for us We may even begin to think that we might be cursed because nothing we do seems to turn out as we had hoped Or perhaps those dreams have come true yet we dont feel as happy or contented as we had expected Something seems to prevent us from experiencing any joy or satisfaction in life Life is not what we had imagined Imagining is the key We can create the life of our dreams through the correct use of our mind and construct a new way of being that feels authentic and joyful The Image Maker will lead you into explorations of your life from every angle and encourage your examination of the conscious and subconscious beliefs that are currently running your life Then with this information in hand you will be ready to make new choices that will start you on the path of your dreams
