In the Limelight and Under the Microscope Diane Negra,Su Holmes,2011-03-17 This timely collection explores the

politics of female celebrity across a range of contemporary and historical media contexts Amidst concerns about the apparent decline in the currency of modern fame famous for being famous as well as debates about the shifting parameters of public private visibility it is female celebrities who are positioned as the most active discursive terrain This collection seeks to interrogate such phenomena by forging a greater conceptual theoretical and historical dialogue between celebrity studies and critical gender studies It takes as its starting point the understanding that female celebrity is a particularly fraught cultural phenomenon with ideological and industrial implications that warrant careful scrutiny In moving across case studies from the 19th century to the present day this book works from the assumption that the case study should play a crucial role in generating debate about the dialogue between past and present and the individual essays seek to reflect this spirit of enquiry
