environmental implications of tourism leisure and mobilities in the new contexts of global change ecological transition and digital transformation The volume aims to provide a nuanced and detailed analysis of established and emerging discourses and debates within tourism geographies underscoring the field's inherent criticality and ideal positioning for understanding and catalysing complex global and local scenarios in contemporary tourism leisure and mobilities Written by leading scholars in the tourism geographies field this text is an invaluable resource for students researchers and scholars working in the areas of tourism geography and related disciplines encouraging dialogue across areas of study

Information and Communication Technologies for Sustainable Tourism Alisha Ali, Andrew Frew, 2013-05-07 Sustainable development is a highly topical issue and is of critical importance to tourism as the environment is of utmost importance for the continued development and prosperity of the industry There have been numerous texts written on sustainable tourism and the measures to mitigate and manage this but none which acknowledges Information and Communication Technologies ICT as a mechanism of doing so despite being an emerging area of research ICT in this context refers to innovative tools which form an integrated system of software and networked equipment that facilitates data processing information sharing communication and the ability to search and select from an existing range of products and services for an organisation's benefits Despite the symbiotic relationship which exists between ICT and sustainable tourism there has been little research which has considered how the use of such technology can be used to make sustainable tourism development a more workable reality This opportune book is the first to provide a focus on the interrelationship of these two important topics demonstrating their synergies and providing insight into a new and innovative approach to managing sustainable tourism development It considers the use of technology to reduce the negative impacts of tourism from both the demand and supply side perspectives A critical review of a range of cutting edge technologies used by tourists and businesses to assess their usefulness in managing sustainable tourism development from the macro to the micro level is also discussed It further integrates examples and practical applications to show how ICT can be an invaluable mechanism in the management of sustainable tourism development This cutting edge volume provides a wealth of information on an important yet neglected subject This book will be invaluable reading for students researchers academics and members of the tourism industry looking for new and innovative ways of fostering a more sustainable tourism industry

Global Nomads and Extreme Mobilities Päivi Kannisto, 2017-05-15 Presenting a ground breaking study of the emerging phenomenon of location independence this book examines the way in which the practices of global nomads who live on the road without fixed abode place of employment or localised circle of friends question many of the unwritten norms and ideals that characterise settled life in societies With the lifestyles of global nomads blurring the boundaries between travel migration and dwelling *Global Nomads and Extreme Mobilities* draws on in depth interviews with a worldwide group of location independent travellers together with virtual and instant ethnography and discourse analysis to show how lives oriented around extreme forms of mobility offer researchers in migration tourism and mobilities a unique

opportunity for examining the complex subjectivities and power relations associated with multi mobility With close attention to the nationalistic political and travel related attachments of global nomads and the ways in which their own representation and justification of their lifestyles and subjectivities constitute a power negotiation the book examines global nomads social and intimate relationships and the forms of exclusion and discrimination that they encounter raising the question of whether they live inside or outside societies and indeed whether there can be any life outside societies A re assessment of much contemporary research in the fields of mobility migration and tourism studies **Global Nomads and Extreme Mobilities** will appeal to scholars across the social sciences

Political Ecology and Tourism Sanjay Nepal,Jarkko Saarinen,2016-02-26 Political ecology explicitly addresses the relations between the social and the natural arguing that social and environmental conditions are deeply and inextricably linked Its emphasis on the material state of nature as the outcome of political processes as well as the construction and understanding of nature itself as political is greatly relevant to tourism Very few tourism scholars have used political ecology as a lens to examine tourism centric natural resource management issues This book brings together experts in the field with a foreword from Piers Blaikie to provide a global exploration of the application of political ecology to tourism It addresses the underlying issues of power ownership and policies that determine the ways in which tourism development decisions are made and implemented Furthermore contributions document the complex array of relationships between tourism stakeholders including indigenous communities and multiple scales of potential conflicts and compromises This groundbreaking book covers 15 contributions organized around four cross cutting themes of communities and livelihoods class representation and power dispossession and displacement and environmental justice and community empowerment This book will be of great interest to students and scholars in tourism geography anthropology sociology environmental studies and natural resources management

Tourism and Development in the Developing World David J. Telfer,Richard Sharpley,2007-11-30 Tourism is widely considered as an effective contributor to socio economic development particularly in less developed countries However despite the almost universal adoption of tourism as a developmental option the extent to which economic and social development inevitably follows the introduction and promotion of a tourism sector remains the subject of intense debate This book provides an introduction to the tourism development process Focusing specifically on the less developed world and drawing on contemporary case studies it questions many assumptions about the

role of tourism in development and in particular highlights the dilemmas faced by destinations seeking to achieve development through tourism Combining an overview of essential concepts theories and knowledge related to tourism and development with an analysis of contemporary issues and debates *Tourism and Development in the Developing World* is a valuable resource for those investigating tourism issues in developing countries It is also useful for students studying related subjects including development studies geography international relations politics sociology and area studies **Global Ecological Politics** Liam Leonard, John Barry, 2010-03-05 Examines the range of environmental campaigns that are occurring across the planet This title showcases a selection of case studies on grassroots initiatives and activism in areas such as green economic alternatives regional activism in defence of communities alternative or utopian communities green politics and ecotourism *Tourist Attractions* Johan R. Edelheim, 2015 Tourist attractions constitute the metaphorical heart of tourism This book aims to both deconstruct and construct what tourist attractions are how we perceive them and how we can enhance our understanding of what attracts us as tourists The volume reaches beyond current ideas about the ways tourist attractions are created shaped and packaged It focuses on the importance and subjective nature of identity memory narrative and performance in the tourist experience to find new ways of analysing and managing tourist attractions The book will appeal to researchers and students in tourism and destination management and heritage and indigenous tourism

Tourism, Ethnic Diversity and the City Jan Rath, 2007-05-07 Informative and enlightening Rath fills a gap in existing research in terms of how immigration relates to urban tourism and investigates the new theoretical insights using revealing international case studies **Future Tourism Trends Volume 1** Canan Tanrisever, Hüseyin Pamukçu, Anukrati Sharma, 2024-01-22 The world is entering the Third Millennium in which great changes are expected in all areas of human interest life and activity These changes have been brought on by past and present man made events which have had both positive and negative consequences The coming millennium will be marked by significant social political demographic and technological changes and will definitely differ from the last century The future will bring more leisure time a higher standard of living and a better quality of life for us all Future Tourism Trends examines recent and the most probable changes and answers questions such as Who is the new tourist if there is one and what is she looking for Is the new post technological era transforming the very essence of travelling The authors present a wide range of visionary insights as well as operational takeaways **Handbook of Globalisation and Tourism** Dallen J. Timothy, 2019-12-27 Globalization entails the world becoming a smaller place through political socio cultural and economic processes These processes have salient implications for tourism and tourism itself is one of the driving forces behind globalization This book is a collection of conceptual treatises by international scholars about the dynamics and reach of globalization and its relationships with tourism It anatomizes and deconstructs the global forces processes and challenges that face the world of tourism It is international in scope encyclopedic in its conceptual depth empirically evocative and contemporary in its coverage *Codes*

of Ethics in Tourism David A. Fennell, David Cruise Malloy, 2007-01-01 With ethics fast becoming a mainstay in tourism studies and the tourism industry in general this volume provides a timely and intensive look at the theory and practice of codes of ethics in tourism While the book includes a broad overview of what has been done to date in tourism studies in the area of code development and implementation it ranges much more widely to incorporate theoretical work from outside the tourism field This interdisciplinary approach serves two essential purposes First it furnishes the study of tourism codes of ethics with a theoretical foundation which up to the present has been lacking Second it affords tourism scholars the opportunity to investigate codes in tourism from a multiplicity of perspectives with direct relevance to the industry at many levels
