Labeeb Ahmed Bsoul,2022-12-13 This volume analyzes the early period of the Arab Israeli conflict 1897 1948 which encompasses the emergence of the Zionist movement and the end of the First World War Zionism and Western colonialism continue to play a definitive role in shaping the fate of the Palestinian cause The author argues that it is possible to understand the existence of such a relationship between Zionism and Western colonialism by looking at the unity of purpose of both approaches and the international circles in which Zionism has been supported from the very beginning Zionism does not correspond to a natural course of national development such as the origin language and cultural unity of a nation residing in lands where its ancestors lived but is an international idea that transcends territoriality Similarly Western colonialism which aims to design an extra territorial framework follows the same path as Zionism in this framework
