The Two Princes of Mpfumo Lindsay O'Neill, 2025-02-13 A fascinating account of two eighteenth century princes from East Africa their travels and their encounters with the British Empire and slavery In 1716 two princes from Mpfumo what is today Maputo the capital of Mozambique boarded a ship licensed by the East India Company bound for England Instead their perfidious captain sold them into slavery in Jamaica After two years of pleading their case the princes known in the historical record as Prince James and Prince John convinced a lawyer to purchase them free them and travel with them to London The lawyer perished when a hurricane wrecked their ship but the princes survived and arrived in England in 1720 Even though the East India Company had initially thought that the princes might assist in their aspirations to develop a trade for gold in East Africa and for enslaved labor in Madagascar its interest waned The princes would need to look elsewhere to return home It was at this point that members of the Royal African Company and the Society for Promoting Christian Knowledge took up their cause in the hope that profit and perhaps Christian souls would follow John would make it home but tragically James would end his own life just before the ship sailed for Africa In *The Two Princes of Mpfumo* Lindsay O'Neill brings to life individuals caught

up in the eighteenth century slave trade O'Neill also shows how the prince's experiences reflect the fragmented chaotic and often deadly realities of the early British empire A fascinating and deeply researched historical narrative *The Two Princes of Mpumfu* blurs the boundaries between the Atlantic and Indian ocean worlds reveals the intertwined networks powerful individuals and unstable knowledge that guided British attempts at imperial expansion and illuminates the power of African politics which decided who lived and who died on their coasts

South Carolina Women Marjorie Julian Spruill, Valinda W. Littlefield, Joan Marie Johnson, 2009-05-01 Volume Two The biographical essays in this volume provide new insights into the various ways that South Carolina women asserted themselves in their state and illuminate the tension between tradition and change that defined the South from the Civil War through the Progressive Era As old rules including gender conventions that severely constrained southern women were dramatically bent if not broken these women carved out new roles for themselves and others The volume begins with a profile of Laura Towne and Ellen Murray who founded the Penn School on St Helena Island for former slaves Subsequent essays look at such women as the five Rollin sisters members of a prominent black family who became passionate advocates for women's rights during Reconstruction writer Josephine Pinckney who helped preserve African American spirituals and explored conflicts between the New and Old South in her essays and novels and Dr Matilda Evans the first African American woman licensed to practice medicine in the state Intractable racial attitudes often caused women to follow separate but parallel paths as with Louisa B Poppenheim and Marion B Wilkinson Poppenheim who was white and Wilkinson who was black were both driving forces in the women's club movement Both saw clubs as a way not only to help women and children but also to showcase these positive changes to the wider nation Yet the two women worked separately as did the white and black state federations of women's clubs Often mixing deference with daring these women helped shape their society through such avenues as education religion politics community organizing history the arts science and medicine Women in the mid and late twentieth century would build on their accomplishments

Inhuman Traffick Rafe Blaufarb, Liz Clarke, 2015 *Inhuman Traffick* tells for the first time a story of enslavement and freedom that spans the entire Atlantic world Beginning in 1829 off the west coast of Africa with the recapture of the slave ship *Nevers* e previously seized by the British Navy in its efforts to suppress the inhuman traffick and ending with the liberation of the African passengers who had been sold into slavery in the French Caribbean Rafe Blaufarb puts a human face on the history of the transatlantic slave trade and the efforts to suppress it He addresses a neglected aspect of this tragic history in the wide geographical and thematic contexts in which it took place Africa the Caribbean Europe and the Atlantic Ocean and situates the story in familial social economic diplomatic and military spheres *Inhuman Traffick* shows how history is done by explaining how the documents on which it is based moved through time and space from the ships African outposts colonial buildings and ministerial offices to the archives of present day Britain and France Blaufarb follows the ship its crew and its captives from the slave port of Old Calabar to the Caribbean and into the courts of Britain and France where the history of the illegal slave trade slavery in the Caribbean and diplomatic history all come into focus Students will be taken in by the vivid drawings and the rich narrative but in Blaufarb's skilled hands they will also find themselves immersed in a unique learning experience Blaufarb not only presents the history of the ship and its captives he takes the reader inside the project

himself He explains how he came upon the story how he and his editor envisioned the project and how he worked with
 illustrator Liz Clarke to craft more than 300 cells that comprise Part II of the book He and Clarke even take the reader inside
 archives in France and Britain This powerful combination of historical essay graphics primary source documents and
 discussion questions gives students insight into the Atlantic World plantation complex the transatlantic slave trade and the
 process of historical storytelling itself **Slavery in the Global Diaspora of Africa** Paul E. Lovejoy, 2019-03-07 The
 collective significance of the themes that are explored in *Slavery in the Global Diaspora of Africa* bridge the Atlantic and
 thereby provide insights into historical debates that address the ways in which parts of Africa fitted into the modern world
 that emerged in the Atlantic basin The study explores the conceptual problems of studying slavery in Africa and the broader
 Atlantic world from a perspective that focuses on Africa and the historical context that accounts for this influence Paul
 Lovejoy focuses on the parameters of the enforced migration of enslaved Africans including the impact on civilian populations
 in Africa constraints on migration and the importance of women and children in the movement of people who were enslaved
 The prevalence of slavery in Africa and the transformations of social and political formations of societies and political
 structures during the era of trans Atlantic migration inform the book s research The analysis places Africa specifically
 western Africa at the center of historical change not on the frontier or periphery of western Europe or the Americas and
 provides a global perspective that reconsiders historical reconstruction of the Atlantic world that challenges the distortions
 of Eurocentrism and national histories *Slavery in the Global Diaspora of Africa* will be of interest to scholars and students of
 colonial history African history Diaspora Studies the Black Atlantic and the history of slavery *Building the French empire,*
1600-1800 Benjamin Steiner, 2020-08-04 This study explores the shared history of the French empire from the perspective of
 material culture in order to re evaluate the participation of colonial Creole and indigenous agency in the construction of
 imperial spaces The decentred approach to a global history of the French colonial realm allows a new understanding of
 power relations in different locales Providing case studies from four parts of the French empire the book draws on illustrative
 evidence from the French archives in Aix en Provence and Paris as well as local archives in each colonial location The case
 studies in the Caribbean Canada Africa and India each examine building projects to show the mixed group of planners
 experts and workers the composite nature of building materials and elements of different global styles that give the empire
 its concrete manifestation *Building the French empire* gives a view of the French overseas empire in the early modern period
 not as a consequence or an outgrowth of Eurocentric state building but rather as the result of a globally interconnected
 process of empire building *Narratives of Dependency* Elke Brüggem, Marion Gymnich, 2024-05-20 Given that strong
 asymmetrical dependencies have shaped human societies throughout history this kind of social relation has also left its traces
 in many types of texts Using written and oral narratives in attempts to reconstruct the history of asymmetrical dependency
 comes along with various methodological challenges as the 15 articles in this interdisciplinary volume illustrate They focus

on a wide range of different factual and fictional text types including inscriptions from Egyptian tombs biblical stories novels from antiquity the Middle High German Rolandslied Ottoman court records captivity narratives travelogues the American gift book *The Liberty Bell* and oral narratives by Caribbean Hindu women Most of the texts discussed in this volume have so far received comparatively little attention in slavery and dependency studies The volume thus also seeks to broaden the archive of texts that are deemed relevant in research on the histories of asymmetrical dependencies bringing together perspectives from disciplines such as Egyptology theology literary studies history and anthropology

The Métis of Senegal Hilary Jones, 2013 Examines the politics and society of an influential group of mixed race people who settled in coastal Africa under French colonialism becoming middleman traders for European merchants and ultimately power brokers against French rule

Africa and the Americas José C. Curto, Renée Soudre-LaFrance, 2005 A collection of essays reflecting an important structural feature of the slave trade its circularity Starting with the removal from Africa the collection then carries into discussions of ethnic identity religion and creolisation Comparative essays develop the theme of root experience in Africa against the facts of life for disenfranchised slaves painting a picture of a cohesive worldview shaped by the slave voyage and African beliefs The collection returns to Africa with analyses of the impact on Africa of formerly slaveholding nations

The Slave's Cause Manisha Sinha, 2016-02-23 Traces the history of abolition from the 1600s to the 1860s a valuable addition to our understanding of the role of race and racism in America Florida Courier Received historical wisdom casts abolitionists as bourgeois mostly white reformers burdened by racial paternalism and economic conservatism Manisha Sinha overturns this image broadening her scope beyond the antebellum period usually associated with abolitionism and recasting it as a radical social movement in which men and women black and white free and enslaved found common ground in causes ranging from feminism and utopian socialism to anti imperialism and efforts to defend the rights of labor Drawing on extensive archival research including newly discovered letters and pamphlets Sinha documents the influence of the Haitian Revolution and the centrality of slave resistance in shaping the ideology and tactics of abolition This book is a comprehensive history of the abolition movement in a transnational context It illustrates how the abolitionist vision ultimately linked the slave's cause to the struggle to redefine American democracy and human rights across the globe A full history of the men and women who truly made us free Ira Berlin The New York Times Book Review A stunning new history of abolitionism Sinha plugs abolitionism back into the history of anticapitalist protest The Atlantic Will deservedly take its place alongside the equally magisterial works of Ira Berlin on slavery and Eric Foner on the Reconstruction Era The Wall Street Journal A powerfully unfamiliar look at the struggle to end slavery in the United States as multifaceted as the movement it chronicles The Boston Globe
