Aging and Cognition T.M. Hess, 1990-10-09 During the past two decades there has been a dramatic increase in interest in the study of aging related changes in cognitive abilities In this volume researchers from a variety of theoretical perspectives discuss adult age differences in a wide range of cognitive skills Of special interest is the extent to which aging effects on performance are related to variations in the representation organization and utilization of knowledge broadly defined Recent research and theory in the field of aging has emphasized the need to examine such processes more closely in order to provide a more complete understanding of aging effects on cognitive behavior **Realist Fiction and the**

Strolling Spectator (Routledge Revivals) John Rignall, 2016-01-29 The classic realist text has long been derided by post structuralist critics as an unsophisticated and reactionary form In this study first published in 1992 John Rignall makes a powerful case for the rehabilitation of realism as a self aware and reflexive genre Using the novels of Scott Balzac Dickens George Eliot Flaubert James Ford and Conrad Rignall argues for an understanding of realism through the recurrent figure of the fl neur The fl neur is the strolling spectator whose problematic vision both of and in the novel makes him the representative figure of the realist text A significant contribution to the field this title will be of particular view to students of realism literary theory and comparative literature *Reassessing British Literature: Pt. 1* S.K. Beyond the Book Bridget Carrington, 2014-01-06 November 2012 saw the joint annual conference of the British branch of the International Board on Books for Young People IBBY UK and the MA course at the National Centre for Research in Children s Literature NCRCL at Roehampton University The theme of the conference was the investigation of aspects of literature for children that were Beyond the Book From woodcuts to e books children s literature has always lent itself to reinterpretation and expansion In its early days this was achieved through different forms of retelling through illustration and interactive illustration pop ups and flaps and then through music film television and stage adaptation The contributors to the 2012 conference explored the variety of means by which we transform literature intended for children and celebrated the vibrant world of creativity that has sought and continues to seek different ways in which to engage young readers Bridget Carrington and Jennifer Harding have previously collaborated as the editors of earlier IBBY UK NCRCL MA conference proceedings *Going Graphic Comics and Graphic Novels for Young People Conflicts and Controversies Challenging Children s Literature and It Doesn t Have to Rhyme Children and Poetry* Pied Piper Publishing 2010 2011 2012 [The American Novel](#) Carl Van Doren, 1921 [The Politics of Play](#) Aubrey Gabel, 2025-10-15 Showing the political importance of play in postwar French literature In postwar France authors approached writing ludically placing rules and conditions on language and on the context of composition itself They eliminated e s and feminized texts they traveled according to strict rules and invented outright silly public personas The Politics of Play Oulipo and the Legacy of French Literary Ludics is a comprehensive examination of how and why French authors turned to these ludic methods to grapple with their political moment These

writers were responding to a range of historical upheavals from the rise and fall of French feminist and Third Worldist groups to the aftermath of international socialism both at home in the former Parisian Belt and in France more broadly and abroad in post Yugoslavia Balkan states and elsewhere Juxtaposing an array of case studies and drawing on cross disciplinary methodologies Aubrey Gabel reads three generations of the formalist literary group Oulipo including Raymond Queneau Georges Perec and Jacques Jouet alongside writers not traditionally deemed ludic or sometimes not even conventionally known as novelists such as the lesbian activist writer Monique Wittig and the editor Francois Maspero Gabel argues that literary ludics serve as both an authorial strategy and a political form playful methods allow writers not only to represent history in code but also to intervene creatively as political actors in the fraught social fields of midcentury France and beyond

Baars,2013-06-29

Whereas most humans spend their time trying to get things right psychologists are perversely dedicated to error Errors are extensively used to investigate perception memory and performance some clinicians study errors like tea leaves for clues to unconscious motives and this volume presents the work of researchers who in an excess of perversity actually cause people to make predictable errors in speech and action Some reasons for this oddity are clear Errors seem to stand at the nexus of many deep psychological questions The very concept of error presupposes a goal or criterion by comparison to which an error is an error and goals bring in the foundation issues of control motivation and volition Baars 1987 1988 Wiener 1961 Errors serve to measure the quality of performance in learning in expert knowledge and in brain damage and other dysfunctional states and by surprising us they often call attention to phenomena we might otherwise take for granted Errors also seem to reveal the natural joints in perception language memory and problem solving revealing units that may otherwise be invisible e g MacKay 1981 Miller 1956 Newell Treisman Gelade 1980
